SENTINEL Office, in Brick Building directly opposite Post Office, up stairs.

THERE is one respect in which possibly our farmers have not appreciated the advantages to them arrising from the comparitively recent opening up of a market in Britain for Canadian beef and other meats. Last year and the year before last, the markets of St. John and other maritime cities were supplied largely with beef brought from Ontario. This largely with beef brought from Ontario. This an church in this town, last week, was quite afternoon it began raining, accompained that the large crops last summer, or to affect rail- of clean wheat, White Bald, from 5 bushels trade has been, so far as regards this season too much of a success and a novelty to be aljust passed, nearly entirely stopped. referred in her reply to an address at Monshe has displayed those sympathies for sufferworthy in woman, going out among the distressed and poor, as a missonary of moral and physical blessing. To one of these charities the writer in the Bazaar thus alludes :-The charity which will always be specially

associated with the name of the Marchiones Children, established some few years since, the "Louise Ward" being opened in 1874 At this beautiful hospital for the sick children of London otherwise homeless and friended, Princess Louise has been constantly seen, working heartily, and not content with the merely nominal patronage which is itself a benefit. Not long ago a lady well known in literary circles, and a friend of the Princess, met her at the hospital for some special purpose. It so chanced they were in a room alone together, and the royal lady's critical eye fell upon some dust on the floor. "This room ought to be swept more carefully." she exclaimed; and then seeing a broom in the corner, evidently left by the house-maid who and began playfully to sweep. Her compan- From the beginning to the end the meeting pliances of the car. Had the lamps been uninjured, the fire from the stoves would not have singed a bair of their heads.

On the 3rd the new Canadian Government don market. Half of the bonds bear the Im- Ansley Watson. bonds, to the extent of more than half the loan. The London Times says :-

That owing to the redemption of six per expression at once to terms of commendation, tory loan will be made is probably inevitable, advice and suggestions. If the Times is for Canada is too deeply involved in costly public works to be able to get on without constant borrowing.

Touching the price of butter, which is to be hoped, however, that in toning down very low at present, but is really higher than our asperities and aiming at elegance, under in many of the principal markets. We obwhich the Princess will exert in society; it may be hoped that such influence will be felt and seen, not in the senseless aping of peculiarities of manner and costume, but in a development of higher mental culture, in the other than the princess will exert in society; it may be hoped that such influence will be felt and seen, not in the senseless aping of peculiarities of manner and costume, but in a development of higher mental culture, in the other extracted from the stiffing to deliver wherever in the other extracted from trees which attain to a great treme, but be satisfied with a becoming adition to the treat of the combination of Fellows' Hypophosphites are extracted from trees which attain to a great treme, but be satisfied with a becoming adition to the tree thanks for the very liberal patronage received from the finite best treme, but be satisfied with a becoming adition to the very liberal patronage received from the finite set of their employment. Whether the success of their employment is decorated to say, but the idea is a good one. While, however, we believe that the industry of say, has entirely lost the use of his arms and of the Marquis of Lorne and the contraction which the people of Carleton County and of the county into the other extracted from trees which attain to a great tree, but be satisfied with a becoming advertisement of a party in an adjoining to the collider have been taken from as many different families by this fearful disease. Through its effects others have been taken from as many different families by this cate suggested to Mr. Fellows' tree, but be a date of their extracted from trees which attain to a great tree, but be added to the very liberal partonage of the extracted from trees which attain to a great tree, but be deaded to the very liberal partonage of the county in the cultive very much affected by it; from this cause, one of the suggested to Mr.

in future. It provides to leave the settlement property of one of the promising young men of and have come into general use by reason of Rockland.

to hope. If we should be disappointed in this respect, we must not imagine that an economical movement appealing, however delusively, to self-interest can be successfully battled against by a sentiment like that on which the Marquis of Lorne and the Princess Louise will be able to exert an influence. Nevertheless their influence will be marked.

Nevertheless their influence will be marked.

To hope. If we should be disappointed in this respect, we must not imagine that an economical movement appealing, however delusively, to self-interest can be successfully to get an answer from all the creditors of Logan, Lindsay & Co., but the work has been completed, and the answer would be procured, and the railway Company did everything it could for them; the employees called every day to see that their wants were supplied. I think the firm is held, as one determined honorably to see that their wants were supplied. I think the railway people have acted very generous and the properties soon bring about such a healthy state of the bowels. At the same time its tonic state of the bowels. At the same time its tonic state of the bowels. At the same time its tonic state of the bowels. At the same time its tonic state of the bowels. At the same time its tonic state of the bowels. At the same time its tonic of the system, that the process of nature, which the railway people have acted very generous and the railway peop Nevertheless their influence will be marked. the firm is held, as one determined honorably to see that their wants were supplied. the firm is held, as one determined honorably the railway people have acted very generous and It will not only strengthen the Imperial connection, but will confer a real benefit upon Canadian society. The social life of the colonies, though not deficient in intelligence and geniality, is somewhat rough and vehe
whom might have defeated the arpeted for this transferred and refused the extension asked. Some of the neighbor whom might have defeated the arpeted for this transferred and geniality, is somewhat rough and vehement. Asperities will now doubtless be toned public interest, removing as it does an obwas an interesting and profitable one, and the down, and elegance will at least be aimed at. stacle in the way of confidence in banking Perhaps, also, we may hope to see the violence circles, and because it will enable one of our of party spirit abated, in outward seeming if most respected firms, engaged in large trannot in reality. The most unpleasant characteristic of public life in the colonies, as in the fitable business without interruption. We have much pleasure in copying the

FROM a statement published in the Tele and his wife.
