Since then I have not hesitated to give VEGETINE my most unqualified indorse-ment as being a safe, sure, and powerful agent in promoting health and restoring the wasted system

E. J. CLARK. VEGETINE. The following letter from G. W. Mansfield, formerly pastor of the Methodist Episcopal church Hyde Park, and at present settled in Lowell, must convince every one who reads his letter o the wonderful curative qualities of VEGETINE as a thorough clernser and purifier of the blood. 40,000 FEET Seasoned PINE; 35,000 feet seasoned Spruce;

MR. H. R. STEVENS. Dear Sir, - About ten years ago my health A quantity of BASSWOOD, ASH, and other Hardwood, sawed to suit all kinds of work. failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form. It settled in my back, and took the form of a large deep-seated abscess. which was fifteen months in gathering. I had two surgical operations by the best skill in the State, but received no permanent cure. I suffered great pain at times, and was constantly weak-ened by a profuse discharge. I also lost small pieces of bone at different times. Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office, and talk with you of the virtue of VEGETINE. I did so, and by your kindness passed through your manufactory, noting the ingre-

dients, &c., by which your remedy is produced. By what I saw and heard I gained some conele Moere de la la idence in VEGETINE. I commenced taking it soon after, but felt WILL sell the balance of his stock at cost, consisting of nice Single Sets, in Gold, Rubber, Nickle, Silver and Japanned Mountworse from its effects; still I perseversd, and soon felt it was benefitting me in other respects. Yet I did not see the results I desired till I had ings. The experience of over twenty-five years in the two leading establishments of Boston, taken it faithfully for a little more than a year, when the difficulty in the back was cured; and places me in a position to get up work as good as can be purchased in that city of marvels. for nine months I have enjoyed the best of I have in that time gained twenty-five pounds of flesh, being heavier than ever before in my Parties purchasing are invited to inspect this stock before making their selections.

THE following paragraph which we find in a Canadian contemporary, the London Standard, may be used with profit by some of our farmers. It is headed "System and calculation in farming":-

By forethought and a systematic course in farming, the farmer will save time and accomplish more than he will by a reckless and indifferent course, besides the work will be o much better done in the one case than in the other. To work only when necessity compels, results in remaining poor, as well as in many instances losing what you have accumulated. Young says: " Procrastination is the thief of time," a most true and wise saying. When system and calculation are observed in farming, vexation, hurry and confusion are avoided, and the farmer consequently performs his work with greater ease and with more satisfying results. By observ-4 00 and applause over such gallantry, such ing system and calculation there will be found 6 00 courage, such adroitness in the ruses of a great saving instead of a great leakage in war, such devotion to freedom and such farm matters.
