The celebrated author, in this admirable Essay. clearly demonstrates, from thirty years' success ful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

The inward "drop" from the head had become very disagreeable and a choking sense. become very disagreeable, and a choking sensabecome very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle I found accided relief, and when I had used two bottles and a third, I quit taking it, feeling quite to bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

vegetable alteratives — Stillingia, Mandrake, Yellow Dock — with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure. Its ingredients are so skilfully com-bined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease. The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sar-saparilla over every other alterative medicine. So generally is its superi-ority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
