In small doses of one pill a day, they stimulate the digestive organs and AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely with-stand or evade them. Not only do they cure the every-day complaints of every-body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed

from the elements of weakness. Adapted to all ages and conditions i all climates, containing neither calonic nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh. and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.
