Miscellaneous.

CLAWED BY A CENTIPEDE. -The Eureka Cal.) Leader says: - Several Mexicans were in camp at the mouth of Memphis Creek, U. ., and were lying about the fire when one them, Telestro Cruca, saw a large centiede, fully nine inches long, travelling slowy over his leg. Knowing that the least motion would make it sink its deadly claws Green into his skin without moving his leg he got out his revolver and waiting until the insect had almost reached his knee, when, slowly putting the mouth of the pistol to its head, FANCY & DOMESTIC | putting the incutal of the pisco to the good, he pulled the trigger and the centipede was gone. But the centipede's claws are quicker than gunpowder and Cruca began to cramp in a few minutes and the track of the insect the place where it was killed swelled up frightfully. Cruca rapidly grew worse and n a little over four hours afterward he died in great agony. But the most singular part of the story is that the bullet from Cruca's pistol cut a small nick in the fore leg of a mule that was tethered near by and at daylight next morning the mule was also dead, with the leg so swollen that the skin had burst in many places.

VENNOR ON THE WINTER OF 1879-80 .-Mr. Vennor was not far astray when in writing from the Rouge over date of September 1st he predicted: "It is probable that a severe term will set in abruptly towards the midled of November," and pictured the weather up to that date as "fine, dry and even warm." Later again, he once more warned us of the approach of "extremely cold weather, but sity, and that between this and the end of a division line of said William Orser's land and the year the thermometer will give us a lands, deeded by said William Orser to said series of extremely low readings, He does Stephen Orser, running thence along the river not anticipate very heavy snow-falls, but | Saint John a sufficient distance by running thence rather what he designates as "dry and ex- to the rear of said lot of land, to contain forty ary he forecasts as "dry and intensely cold"

Lame Back. Sold everywhere.

MATTISON'S Pancreatic Emulsion of Cod Liver Oil

LACTO-PHOSPHATE OF LIME This medicine can undoubtedly be used with reater success then any other remedy now known. in cases of Consumption, Coughs, Colds, Hoarseness, Bronchitis, Scrofula, Chronic Rheumatism, General Debility, Wasting Diseases of Children and Adults, and whenever it is necessary to increase the vital forces and build up the system. Nearly every person that has taken any preparation of Cod-Liver-Oil, knows how very liable it SHAVING, is to disagree with them after a time; this is mainly due to the inability of the stomach (weakened by disease) to digest the full amount of the oil taken. To overcome this trouble we have added Panceratine to our Emulsion, which not only assists in digesting the oil, but is an acknowledged remedy of itself in the treatment of Consumption. In taking Mattison's Pancreatic Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime, you receive the benefit of three of the best remedies known to science, in the treatment of any of the above diseases.

It is not a Patent Medicine, as we claim no secret in its composition, but every physician will be furnished with the formula by applying to our wholesale agent, H. PAXTON BAIRD, (Successor to W. T. Baird.) APOTHECARIES HALL, WOODSTOCK, N. B. Ask for our Pamphlet.
