OUR ENGLISH LETTER.

Liverpool, Eng., Jan. 16th, 1879. There is very little political newsand what judging from the opening chapters, promises to there is is not worth reciting. Speeches by e one of the most interesting of this popular honourable members, it is true, enliven the writer's tales. "The reality and mission of ideal newspaper columns, but the news contained characters," by Elihu Burritt, is an interesting therein is so stale and their the speakers, aspaper. Sir Francis Hicks has an article on sertions so ridiculously absurd that I often The political destiny of Canada." There are wonder if the constituents are not ashamed

Athough we have a great deal of political rubbish when rising politicians take the stand, we often hear a great amount of good, sound common sense when the same gentlemen speak on something other than politics. Mr. Goschen speaking last night, at Bristol, to the friends and students of the University Institute said, "he wished them to raise the standard of the methods of teaching by influencing the choice of subjects, and to promote hand, and, of course, said nothing to reveal seemed to be in order. Going up to the his identy. Indifference to untintentional seemed to be in order. Drawing mental training as compared with mere ac-slights is always a mark of tact in persons of wagon they called. No answer. Drawing the study of political economy, the pursuit of which science was of the utmost importance nationally, while it also afforded the student a mental exercise of great value." I do not think one can over estimate the importance of this science. Ignorance of its teachings is the cause of so many illogical and unreason-The monthly S. School Temperance meeting able arguments in favor of protection. Protection is a very seductive word. A certain number of work people engaged in a particular branch of industry are thrown out of employment because they cannot compete with oreign manufactures. In short, the same class of goods which they manufacture can be produced abroad and sold in England much is argued that the labour of these distressed aides-de camp. If it was a tame spirit that low. Tailors' seissors, for example, cutting work people should be protected by placing on these imported goods a duty sufficient to enable the English people to continue their
