MARK TWAIN'S GOLD MINES .- Ex-TRACTING THE PRECIOUS METAL FROM AIR AND WATER .- I have just seen your despatch from San Francisco, in Saturday's Evening Post, about "Gold in Solution" in the Calistoga Springs, and about the proprietor having "extracted \$1060 in gold of the utmost fineness part of the world, for making an "Imitation Rep end other Coverings.

and the Frames of Gilt, and of Ebony and comtemplated, I am only saying it in the interest of history. It may be that Mine was to take my uncle-I had an extra uncle at that time, on account of his parents dying and leaving him on my hands-and fill him up, and let him stand fifteen minutes to give the water a chance to settle well, then insert him in an exhausted receiver, which had the effect of sucking the gold out through his pores. I have taken more than \$11,000 out of that old man in a day and a half. I should have held on to those springs but for the badness of the roads and the difficulty of getting the gold to market. I consider that gold-yielding water in many respects remarkable; and yet not more remarkable than the gold-bearing air of Catgut Canon up there toward the head of the auriferous range. This airor this wind-for it is a kind of a trade wind which blows steadily down through 600 miles of rich quartz croppings during an hour and a quater every day except Sundays, is heavily charged with exisitely fine and impalpable gold .-Nothing precipitates and solidifies this gold so readily as contact with human flesh heated by passion. The time that William Abrahams was disappointed in love, he used to step out doors when that wind was blowing, and come in again and begin to sigh and his brother Andover J. would extract over \$1.50 out of every sigh he sighed right along. And the time that John Harbison and Aleck Norton quarelled about Harbison's dog, they stood there swearing at each other all they knew how-and what they didn't know about swearing they couldn't learn from you and me, not by a good dealand at the end of every three or four minutes they had to stop and make a dividend-if they didn't their jaws would clog up so that they couldn't get the big pine syllabledones out—and when the wind was done blowing they cleaned up just a little over \$1600 apiece. I know these facts to be absolutely true because I got them from a man whose mother I knew personally. I do not suppose a

person could buy a water privilege at calistoga now at any price; but several good locations along the course of the Catgut Canon Gold-Bearing Trade-Wind are for sale. They are going to be stocked for the New York market. MARK TWAIN.

MESSES. SCOTT & Bowne:—Gentlemen—In September, 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter, I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning coughs, night sweats, short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life, and was an object of pity to all my triends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I then bought a dozen bottles and have taken all with the following results: Cough subsiding, night sweats stopped, appetite returned. pains in spine disappeared, strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your Emulsion and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks, what cured you, and I answer, Scott's Emulsion of Cod Liver Oil, &c. About the 25th of last April I got a bottle of your Emulsion, and at that time I was so prostrated that no one who saw me thought I could live but a few days at most. I could retain nothing on that no one who saw me thought I commenced the use of the Emulsion in small doses; it was the first thing that would stay on my stomach; I continued its use. gradually increasing the dose; and from that hour I commenced mending, and now am able to ride and walk and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.

I am gratefully yours, Randolph Co., Ind., July 2nd, 1878.
