IMPURITIES OF THE BLOOD.—The decided alternative action of Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime, adapts it in a remarkable degree as a blood purifier well worthy of the trial of those suffering from a diseased condition of the circulating fluid. The unsightly blotches, pustules and pimples that disfigure the face and neck, as well as other portions of the body, of so many persons, are indications of a diseased state of the blood induced by, as well as associated with, depraved nutrition, feeble digestion and imperfect assimilation. The continued use of the Phosphorized Emulsion invariably cleanses the blood from all these impurities and restores the system to a state of healthfulness that is manifested in increased constitutional vigor, mental activity, and lightness and buoyancy of spirits.
