An efficient and convenient mode of application has long been desired, and has at length been occomplished. It has long been known to Scienti its that Magnetism is stoled up in many vegetable oils, and, by knowing how to combine them, a medicine may be made which, by using internally and externally, deficient Magnetism may be restored to the system. This has been done in the great Medical chools of Paris, and given to the world under the name of French Magnetic Oil.

The moment this Great Remedy is applied externally or taken internally, the most excruciating pains cease to exist.

Pain cannot exist where it is used. It is the only article that restores the life-giving principle, Magnetism, to the sufferer, thereby increasing the vital power and electrifying the nervous system, sending the blood coursing and bounding through the veins, and withdrawing and allaying in a few moments all pains and spasms, from whatever cause.
