ding the depressed condition of agriculture, the area of land under cultivation has increased by 140,000 acres. Of late years the showing has been on the other side. There are 77, 728, 948 acres, cultivated and uncultivated. In the United Kingdom, including the Isle of Man and the Channel Islands. Of these, 47,586,700 are under crops, fallow, or grass; in England, 24,596,266 acres; and in Wales, 2,767,516 acres; in Scotland, 4. 738,157; in the whole of Great Britain, 32,101,909 acres; and in Ireland, 15,-357.856. There were in the whole Kingdom 10,972,086 acres in grain crop a decrease 100,000 acres in the year; 4.745,293 in green crops, a decrease of 70,000: in grasses under rotation, 6, 389,255, an increase of 66,000 acres; in permanent pastures,24,717, 1092, an increase of 90,000 acres. The tendency is evidently greater than ever toward increasing the culture of grain crops, and laying down the land to grass. Singularly enough. Ireland shows this tendency less grain crops is 1,766,424 acres, an increase Some of the English Ritualists are be- of 5,000; her acreage under green crops was coming violent. The Rev. H.
