PICNIC AT HILLSBORO' .- The picnic held at Hillsboro', Albert Co., on Tuesday, 24th ult., under the auspices of No Surrender Lodge, I.O.G.T., of Petiteodiae, was a most enjoyable affair. Members of all the Lodges in Albert, as well as a large number from ate, lying and being in the Parish of Wakefield, in the County of Carleton and Province of New Brunswick, and described as follows, that is to Brunswick, and described as follows, that is to five hundred persons were present. The Ready-Made Clothing, weather was everything that could be desired, and the affair passed off most pleasantly.

WE are in receipt, through the kindness of Mr. W. W. Hay, of a copy of the Report Gents' Furnishings of Officers to the Annual Session of the Grand Lodge, I.O.G.T. of New York, held at Cooperstown, N. Y., on the 24th ult. The report of the G.W.C.T., A. S. Draper, is a lengthy and able document; the following extract therefrom is alike applicable to the membership of New Brunswick as New York :

I also feel it important that the Gran Lodge should impress upon the temperance people of the state the fact that, the mere enactment of a law or the adoption of a conetitutional amendment or the earrying of a tewn for no-license will not of itself break up and root out the curse. Drink is an evil which will lurk in violation of law if it cannot be defiant under the protection of law. After a town has been carried by our friends and drink continues to be sold in se cret or openly to an extent, there is great danger of temperance men becoming discouraged and feeling that there is not enough difference between prohibition and license to DIECES Black Broad-Cloths, make it pay after all. The great end in view is to break up the traffic. That can never be reached through license. When a people declares itself for the prohibition of the business it is upon the right track. If the track is followed to its conclusion, the license between prohibition and license to the prohibition of the business it is upon the right track. If the track is followed to its conclusion, the license shirting Oxford Angels to that track is followed to its conclusion, the 120 Pieces Shirting, Oxford, Angola, &c. traffic will be destroyed. The first thing to 700 Pieces Prints, in New Styles, do is to get upon the right and then stick to 5 Cases Black Merinos, Lustres, Italians, &c.; traffic will be destroyed. The first thing to do is to get upon the right and then stick to it. What the temperance reform most needs is a better understanding of underlying prin-

ciples and then more back-bone. The total membership in the State of New York is 36,778, an increase for the year of forty-three Lodges and one thousand and eighty-six members.

The telegraphic despatches referred briefly to the speech delivered by Sir Charles Tupper at a public breakfast given in London under the auspices of the United Kingdom Alliance. Sir Wilfrid Lawson, M.P., presided and introduced Sir Charles Tupper, the full text of whose speech is thus reported : "Sir C. Tupper then addressed the meet ing, congratulationg the meeting on the progress made here on the Temperance question. The valuable measures now on the Canadian statute book had been inspired by Sir Wilfrid Lawson's efforts. (Cheers.) He held

it to be right that the people should have the House of Canada, in giving their unanimous vote in this matter, had only been giving effect to the matured public sentiment of the country. The Act prohibited the sale of in- TUESDAY, Oct. 5th, toxicating liquors when the majority of the electors of any district adopted it, and severe penalties were imposed on any persons breaking the law, because with the support of public sentiment they felt that in a few years they would be able-at no distant date even —to pass the total prohibitory liquor law.—
He had the honor of proposing such a law

plate adopting the Act-said :-The traffic in alcholic liquors was a lawful

business, and the question might be askedwas it right and just for us to interfere with private rights? in other words was it right for us to turn a man and his family out of doors; was this right and just, man with man. In response to this question he would say that there were cases when private rights must give way to public interests. In this case it was the public good against pri-vate rights, and the adoption of the Canada Temperance Act will be for the public good financially as well as otherwise. How is it there is so much poverty and so many half starved children in the country? why because the head of the family perhaps spends half his earnings in strong drink. On the lowest average a drinking man spends \$1.00 per week in liquor, and that he considered a low estimate; this amount during one year would provide his family with eight barrels of flour if he could be induced or prevented from thus indulging at the expense of the from thus indulging at the expense of the well being of his family. It was said that if you cut off the revenue by stopping the sale of liquors that direct taxation must be resorted to. He believed there was a way to keep up the public revenue without the imposition of duties on spirituous and malt liquors, and also that there were other means of meeting the claims against the County than by the issuing of licenses; one thing, the expenses would be less. The famous McCarthy case was referred to where \$12,000 was taken out of one county through the

effects of liquor.

It would be for the public good morally, and no one would deny that our County needed a high state of morals. Keep out liquor and the standard of morals is raised. Intemperance was the cause of two-thirds of the crime committed throughout the world, and believing this it was right and just for us to ignore private rights for the public good It would be for the public good spiritually. It hinders the growth of grace in a man's heart as well as lowers his standing physically and intellectually, and it was right and CLEAR Shining After Rain - Novel-by C. just to use any legal force to further the Cross Purposes-a novel-by Cecilia Findlay, carrying of the Canada Temperance Act. FACTS ARE STUBBORN THIS application to Medical Science, Facts the most

An efficient and convenient mode of application has long been desired, and has at length been occomplished. It has long been known to Scientists that Magnetism is stored up in many vegetable oils, and, by knowing how to combine them, a medicine may be made which, by using internally and externally, deficient Magnetism may be restored to the system. This has been done in the great Medical Schools of Paris, and given to the world under the name of French Magnetic Oil.

Pain cannot exist where it is used. It is the only article that restores the life-giving principle, Magnetism, to the sufferer, thereby increasing the vital power and electrifying the nervous system, sending the blood coursing and bounding through the veins, and withdrawing and allaying in a few moments all pains and and allaying in a few moments all pains and spasms, from whatever cause.

Neuralgia, Tic-Douloureux, that have resisted all other remedies, must retire under the use of the French Magnetic Oil. Rheumatism, Lumbago, Lame Back, Stiff Neck, Sprains, in all these cases relief is sure to follow its use, while Inflammation of the Bowels and Colic, Dysentery, are relieved at once. This any one seized with pain will be compelled to adknowledge who gives it but one trial.
