Temperance Column,

This column, by special arrangement is un der the control of the Executive of the Grand notices in it may be regarded by the Lodges At corner Main and Court streets. Feb. 26. and Deputies as official.

SUNBURY County has adopted the Canada Messrs. Perry Davis & Son & Lawrence, Temperance Act. Very little interest ap pears to be been manifested by the tem-perance friend. Only about one-fourth of the electors voted.

FRATERNAL MEETING. - On Tuesday evening, 15th inst., the members of Le Blanche Ledge No. 5, Amherst, N. S., to the number of about eighty, made the members of True Reform Lodge, Sackville, fraternal visit. The members of above Lodge had carefully consisting for sisting for sistengers for sisting for sistengers for sisting for sistengers for sistengers for sisting for sistengers for sistengers for sistengers for sistengers for s discrumental, all of which was preformed in an admirable manner. Th meeting broke up at an early hour, all having passed a most enjoyable time.

A LADY friend in Boston has sent us a copy of the Daily Evening Traveller, containing a lecture by Mrs. J. Ellen Foster, delivered in Tremont Temple, Boston. It is a most eloquent and exhaustive treatment of the Temperance question," intended as a reply to Dr. Crosby's recent "Calm view of the Temperance question. We feel that this column cannot be better used than in a reproduction of a few of Mrs. Foster's references on the question of the disease producing effects of intoxicating liquors and here-

dity. She quotes :has to treat, to the ordinary and daily use of in the hope of a glorious resurrection.

fermented liquors. First, sweet sleep (having never known what sweet sleep was.) I sleep like a baby or ploughboy. If I wake no needless terrors, no black visions of life, but pleasing hopes and pleasing recollec-tions." (Bell's "Report," p. 47.)

Not one of the transmitted wrongs, phy-

sical or mental, is more certainly passed on to those yet unborn than the wrongs that are inflicted by alcohol."—[Cantor Lecture,

land for sixty years, says that fully six-tenths of all the cases of insanity in that country Dr. Crosby claims that alcohol is "nature's provision." Science says:

"Alcohol is a purely artificial product, obtained only by carefully carried out chemical methods. It exists nowhere in pature."

Our appeals to the public are exclusively for the Church Building; and other expenses are paid by the

Application of the foregoing truths: It is the duty of every temperance man, woman and child to labor with head, hand, and heart for constitutional prohibition.

And thus the clever lecturer concluded:

In the sands of Egypt by the shores of the Nile, there stands the great pyramid; for twenty centuries it has stood and looked unwinking at the sun; it covers thirteen acres of solid masonry; it mounts up and up as if it would pierce the skies; it has been the wonder of the centuries, and in its proportions, its angles, its measurements, is hid great truths of physical science, geometrical, astronomical, anathematical, geoistical. Discoverers and scholars walk about its base and look up at its huge sides and say, "We wonder who built the pryamid?" For though much surmise as to its origin and intended use has been indulged in, history does not tall us. studies of this great wonder of the world, have thought they discovered physical truth set forth in base and capstone, in measurement and line, but that Scripture truth is suggested also; that in its openings, its passages, its chambers, in the finishing of the stones which pave the floors and line the sides, and are in the ceilings, in the number all the latest improvements in the Art, we and size of these, in their setting here, and position there, is written dimly sometimes, but still discernable to the careful student, the history of God's past and present, and his future dealings with the human race.

CRAYON WORK That it is to physical truth, what the Bible is to spiritual—a revelation— is the "altar anto the Lord in the midst of Egypt."

Wonderful is the suggestion and bold the faith that grasps and holds its lessons.

Dear friends, there is being built on these western shores a great pyramid, an altar un-to the Lord, its foundations were laid by the church of God, its sockets were set by men brave and true and strong, its base is the Fine Sterre square of the circle of all the influences Grand Falls. that cluster about our homes, about our national life. With great labor was the rubbish cleared away to give it room, and

carefully were the first stones put in their places, slowly has the pyramid arisen.

Do you see the builders? There comes the Washingtonian throng with pledge and song and great huge stones, the Recabites, the Sons of Temperance, the Good Templars, the Temple of Honor, and many men and women who carry no flag and walk under no banner, but carry stone and mortar, square and chisel, and help to build.

Then comes a band of little children, with will celebrate its Second Anniversary, by banners and music, they sing,

"I'm glad I'm in this army, "I'm glad I'm in this army," and they help to build. Then comes a band of reformed men, with ribbons of red " Hold the fort, for I am coming,"

rings out full and strong, and they help And last of these I see there comes a band of praying women. They walk very slow,

"My Now voks up to thee,
Thou Las of Calvary."

And thus they build! And the stones these multitudes have brought have been kept in place and squared into line by righteous law. And so this pyramid is being built, and by and by it shall be finished, and Bark of Nova Scotia. with singing and shouting the capstone shall be put in place, its crown and glory its band of perfectness. What shall the capstone be? National prohibition. And then the pramid shall stand, and though the waves beat upon it, it shall not though the waves beat upon it, it shall not fall, for tis founded on the rock of God's YORK, BOSTON, and all Towns in the Fancy Worsted Coatings—Single and Double eternal truth.
