THE END OF THE WORLD.—Pro-gramme of that interesting event as arranged by an Italian.—Leonardo Aretine, an Italian of the 14th century, predicted the end of the world for the 15th of November, 1881. Behold the exact programme of this catastrophe which will happen in a few months:

November 1—The ocean will overflow its shores.

November 2—The earth will be soaked with water.

November 3—The fish in the rivers will die.

November 4—All the water fowl and fish will die.

November 5—The birds in the air will die.

November 6—The houses will fall down.

November 7—The rocks will fall down.

November 8—The earth will tremble.

November 9—The mountains will fall down.

November 10—The men will become speechless.

November 11—The tombs will open.

November 12—The stars will fall.

November 13—All the men and all women will die.

November 14—The heavens will disappear and the land will be no more.

November 15—A general resurrection and the last judgment.

HOW HE FOUND HER A TROTTER.—

"Stranger," said the stage driver,

"this was how I found out her speed:

I was driving along the railroad track

just as a big load of hotel furniture started.

The freight car wouldn't hold it all,

but they managed to squeeze everything

except a long bar mirror which they

tied to the side of the car. The mare

saw her reflection in the glass and

thought it was another horse spurting

for the lead. You couldn't have held

her back with a steam windlass. She

just laid back her ears and snorted

like a twenty inch shell. The passen-

gers all began to get excited. They

rushed out on the platforms and began

to make bets. The conductor stood up

and began to shout. The engine

engineer pulled the throttle valve wide

open and tore along at ninety-nine miles

an hour. Soon the mare was abreast of

the cowcatcher. At San Bruno we had

to spend the day, to little Edith. "Are

you glad to see me again, Edith?" Edith

"Yes m'm, and mamma's glad, too."

Mrs. Smith—"Is she?" Edith—"Yes,

m'm; she said she hoped you'd come

to-day, and have it over with." Mamma

blushed scarlet, but Mrs. Smith simply

smiled.

It was their first night aboard the

steamer. "At last," he said, "I

am all alone, out upon the dark blue

sea, and your heart will always beat for

me as it has in the past?" "My

heart is all right," she answered, lan-

guidly, "but my stomach feels awful."

ory Spokes.

The TEETH are three inches longer and heavier than heretofore.

We fully warrant these the BEST RAKES MADE or brought here.

CONNELL BROS.

Woodstock, July 1, 1881.

SUBSTITUTES!

The public are cautioned against a custom which

is growing quite common of late among a certain

class of dealers, and which is this: When asked for

a bottle of Pain-Killer, they solemnly discover that

they have no such thing in stock, and then they

offer you a substitute, which is usually some

inferior article, and which they sell at a profit.

For CHOLERA, COLIC, CRAMPS,

AND ALL THE AFFECTIONS OF THE

STOMACH AND BOWELS,

PERRY DAVIS' PAIN-KILLER

IT CURES ALMOST INSTANTLY.

The Pain-Killer is a most valuable remedy, and

is sold by all the leading druggists.

SOLD BY ALL MEDICINE DEALERS.

MECHANICAL ORGINETTE!

"THE ORGINETTE" may now be called a celebrated instrument. In tone it is akin to the

Cabinet Organ, but it is entirely mechanical in its action, and at trifling expense it can be

made to furnish an unlimited supply of all the music which the human ear can appreciate.

"THE ORGINETTE" is indeed a musical wonder. It is a miniature reed organ, with a strong

and melodious tone as the Cabinet Organ. It surpasses the Cabinet Organ in the range of its

melody and in its mechanism, and consequently no liable to get out of order. "Montreal

Gazette."

"THE ORGINETTE" is the most perfect automatic musical instrument yet invented; its re-

pertoire is unlimited, the tone is remarkably good. "Montreal Star."

PRICES, \$10 TO \$16.

W. F. ABBOT
