SATURDAY, OCTOBER 22, 1881

SENTINEL Office, in Brick Building, directly opposite Post Office, up stairs. WOODSTOCK EXTRACT WORKS.

The appearance of smoke issuing from the tall chimney of Shaw Bros. new Hemlock Bark Extract Works on Thursday, reminded us that the time had arrived for a promised

On enquiring at the works for Mr. Crocker, the agreeable and fitly chosen Woodstock manager, we learned that he had not returned from Montreal, to which city he had gone to establish a life partnership of a personal and domestic kind, in which object he has been we trust, the bappiest results.

Introduced to Mr. Drake, the construction superintendent of this, as he is of the most of Messrs. Shaw's establishments, we find him attentive and communicative; of his petence the works of his hands do testify as do, also, the firm in whose employ he has been the greater part of his life.

We were fortunate enough, also, to meet before the visit was concluded, Mr. Wm Shaw. one of the firm, and to enjoy a very pleasant conversation relating to matters connected

MESSRS, SHAW BROS Before entering upon any detail of their Woodstock works, it may be of interest to refer to some general facts as regards the very familiar to the people of this part of the Province, and with whose business operations they are likely to become more practically

acquainted. The firm of F. Shaw & Bros. was formed some 30 years ago and consisted of Fayette, Brackley and William Shaw which firm control their tanneries, etc., in the State of New York, Maine, and New latter State and Province, Mr. Thaxter Shaw interest. In Quebec and Ontario a Mr. Cassells, of Montreal, is of the firm, which is there styled, Shaw Bros. and Cassell's. Each of the Shaw Bros has one son to take. " according to the eternal fitness of things,"

his place in and perpetuate the firm. Some sixteen years ago, a Mr. Miller, of Montreal, first applied the principle, of reducing under vaccum, to the liquor from Hemlock bark; with Mr. Miller the Shaw Bros. became associated, and so remained for six

The Shaw Bros. have devoted themselves nearly entirely to the leather interest, and have gone on continually extending their fuel required to generate steam and heat. operations, until they have now some twenty- From the leaches the liquor passes into four tanneries and seven extract works, in filtering tank and thence into a reservoir New York, Maine and Canada. The importance of these industries and the financial into the pan into which it is drawn by the interests involved, may be best appreciated by vaccoum as required. consideration of a few

GENERAL FIGURES. The two raw materials used consist of hides and bark. Of hides the firm consume cords is in Maine and New Brunswick, or will make the current year in the seven factories 52,500 barrels, or say 21,000,000 pounds. It is to be observed that the Messrs. Shaw do not put any of their extract on the theirs is not reducen so much as is that which tract being for their own use, the Messrs. is made for sale, and it is not, therefore, worth | Shaw do not reduce it in consistency as much so much per pound, but estimating it at 12 From the pan the extract passes into a tank cents, the extract, the Messrs. Shaw make, that holds some twenty barrels and from this Cotswold ram,

will be worth \$315,000. The result in leather, based on the statements above, is 30,000,000 of pounds-each ten cords of bark representing a ton o leather - that quantity of feather, at 20 cents from its base, which is a foundation that exper pound, equals \$6,000,000. OUTLAY INVOLVED.
