Communicated.

FOR THE CARLETON SENTINEL.

MESSRS. EDITORS,—Your correspondent, N. B. C., treats your Madawaska correspondent very cavalierly. It is not in good taste for those who have had superior educational advantages to twit those who may not have enjoyed such privileges. I have not been able to procure a copy of your correspondent's celebrated challenge, so I shall deal principally with his article of April 22nd. And I remark that in a literary point of view, his first sentence would not be allowed to pass as a school boy's exercise: The word "Gent," is improper in the mouth of a "savant;" the word "from" is improperly used; the word "who" was improperly left out, it should have followed the word "Madawaska." Further, he charges Mr. Byram with "hiding himself," behind his initials while "shooting his missele." This from a writer who hides himself behind an *alias*—N. B. C.—while shooting his miseiles is certainly living in a glass house and throwing stones with a vengeance. But, again, he asks, "Is it true that the constituency stand in the position of *masters*, and the chosen representatives as *servants*?" This he answers in the affirmative, and he thinks *any one* of the former has *a right* to offer his advice to the latter for the concern. Well, Mr. Elitor, there are some 3,000 voters in Carleton County, and if these as individuals have a right to tender advice to Mr. Irvine by letter or through the press, I opine it will take most of his spare time from now to the meeting of Parliament to read and ponder said advice, with the likelihood of advice given later driving that given earlier (including that of N. B. C.) out of his mind! But, sir, *masters* have a right to do something more than *advise*, they have a right to *command*. Poor Irvine! Just think of it; and even should the Liberal-Conservatives of Carleton waive this "right," Mr. Irvine's supporters are by no means agreed among themselves. Some of them want Free Trade, others a Revenue Tariff, and others Protection; Mr. Irvine, himself, does not object to the principle (but only to practice) of protection: Some of his supporters claim that *bread stuff* should be free of duty; others that the farmer should have a protection of 30 per cent. on *all* he produces! Only let the Grit factions of Carleton get it into their heads a right to dictate to the candidate elect, how he shall vote in Parliament, and he might as well be thrown among a pack of wolves; he would be in danger of being torn to pieces—Acts 23 chap., 10th verse. No, Mr. Editor, Conservatives do not accept such doctrines as correct. When we elect a candidate, we don't consider him a mere *puppet* to be pulled hither and thither, but as a man of understanding, who is capable of managing public affairs with the lights he has at command and agreeably to his pledges. We don't think the *full* private has a right to command or even advise the General. We don't think the people of the U. S., as individuals, have a right to dictate to the President how he shall govern the nation. There is no such right either in theory or practice. Stump speakers sometimes put forth such preposterous claims,—that is all. Your correspondent charges Mr. Byram with calling mortgaging a farm "progress," and says, that in Carleton Co., it is considered a greater sign of progress to lift a mortgage. Granted. What then? How is a Carleton Co. man to exhibit the *greater* progress unless he first exhibits the *lesser*? How can he lift that which does not exhibit? N. B. C. appears to be quite tertile in new ideas. Mr. Byram will please note: Our Dominion Government will require to borrow money in order to complete some necessary public works, this N. B. C. calls mortgaging; well, have it so, this is the *lesser* progress, and in due time Government will exhibit the *greater* progress by paying off the indebtedness. There is good land in our North West, sufficient to pay every dollar of Dominion Government indebtedness present and prospective, if said land is properly managed.

Yours, truly,
WILLIAM BOYLE.

Nortondale, May 16, 1881.

FOR THE CARLETON SENTINEL.

GOVERNMENT ECONOMY.

MESSRS. EDITORS,—I wrote a few weeks ago, a very necessary article on Government economy, which I have caused also to be inserted in several Upper Canada papers, for the purpose of bringing it more immediately under the notice of the Government. As I don't write for mere writing's sake, as you well know, for my contributions to your liberal paper (liberal in the *true* sence of the term) have been few and far between, I do not profess to answer every scribbler who chooses to assail me, although I am perfectly willing to encourage all sensible communications to our immediate local paper. If P. O. B. wants me to "come on," as he calls it, he must be a great deal better informed before he is fit to discuss the matter at all, as his remarks exhibit the most profound ignorance of the subject he writes about, and consequently his blunders are of the most ridiculous description. His conclusions are consequently erroneous. Lord Byron was a misanthrophe, and also a great reader of the French and English Divines, and some of his brightest ideas (says one of the Edinburgh reviewers) were taken from their writings; it is therefore more than likely he got the estimate of mankind that P. O. B. gives us from their descriptions of the unconverted natural man. P. O. B. may therefore apply it *truthfully* to himself, unless he is converted.

I have no time to explain to him as (you know) I believe in brevity and concentration when writing to a paper, but perhaps he may get some idea of the nature of his remarks when I inform him that the whole amount over which the Government have control, is at present *less* than twelve millions.

Yours, truly,
N. B. C.

N. B.—I would encourage every one who takes an interest in our local paper, but would also advise that he inform himself thoroughly before he attacks one of the Editor's *temporary* staff. No sooner has P. O. B. a taste of his own banter than his spleen is stirred and "Pop goes the *weasel*."

FOR THE CARLETON SENTINEL.

MESSRS. EDITORS,—In your issue of the 9th ult., Mr. W. A. Smythe asks the views of teachers on a certain subject, and when in response, I stated my unbiased opinion, he takes that as a target at which to fling another lengthy and rambling epistle. Moreover he is not satisfied with that for which he asked, ("independent views,") but complains that my statements were proofless, and therefore valueless. Nevertheless, had he asked for *proven* statements, I should have felt no inclination to write differently. Imagine a school boy coming up to the black board to demonstrate an axiom, (which is a statement admitted *without proof* and according to Mr Smythe must therefore be valueless), how his fellow students would hoot him! No less childish would it appear in me, to attempt to prove statements that are axiomatic to every reasonable and intelligent person.

Next, in Mr. Smythe's letter, follows an essay on drawing, under the guise of an illustration; and I would infer from what he writes, that he would be more of an adept in the art of drawing than in pointing out the demerits of our prescribed "School Course." The remainder of his letter contains but a few points worthy of serious consideration. He says:—"very few teachers can be found conscientious enough to run the risk of diminished salaries, to attend judiciously to the mental as well as the physical growth of the pupils." Now, what teachers *do* and what they do *not* do, is not the question under consideration. The "course" is laid down on the supposition that it will be worked out by the proper method; and if teachers fail in this respect, it is not the fault of the "course" but of those who are trying to put it into imperfect operation. Dr. Rand, in his report, says:—"That which destroys individuality is the sack-filling process—the imposing of instruction upon a pupil without the co-operative exercise of his powers; seeing for the pupil, thinking for the pupil, doing for the pupil. This process so increases the mind that its innate forces are suppressed, its individuality crushed. The Course of Instruction is not designed to impinge our freedom in teaching in any respect, though it properly assumes on the part of teachers a knowledge of modern methods." Now, Mr. Smythe thinks we run a "risk of diminished salaries," by using the "modern methods," and just there, is where he is laboring under a vast mistake. It is by the use of those methods that the teacher can, with *pride*, present his pupils for inspection at the inspectoral examination. By those methods he is enabled to retain the attention of his pupils, without unnecessary means, and gain a regularity of attendance, that cannot be *reached* through the merits of any *cramming* process, either ancient or modern. Mr. S. makes special reference to the many subjects contained in the 10th Standard, but he could have mentioned a similar variety under one of the primary standards; and is not a variety what we need to keep up an interest in school work? The absence of variety is what has been the cause of so much dullness and stupidity on the part of pupils. If Mr. S. would attempt to note the variety of subjects that present themselves to the mind of an intelligent child, during one day, I feel assured that he would *no more* cry down a variety of interest. I agree with my friend in saying that our professional men, educated under the modern system, are not yet universally filling positions of honor, but *many* have attained and others are rapidly approaching such positions; and while they continue to aspire, the time must come, when those educated under the more ancient system, will be crowded back into the *forest primeval* and ignorance banished forever.

I am,
A. H. SHERWOOD

Hartland, May 30, 1881.

FOR THE CARLETON SENTINEL.

MESSRS. EDITOR,—We learn from the last issue of the SENTINEL, that there are to be two tea meetings held on the 1st July, one of which was said to be announced last October.

In order to show our position to our friends and public, we would state that we were not aware of the announcement spoken of, and think there must have been some omission, as the SENTINEL was the only paper published here at that time; you can inform us if the announcement was inserted or not, and oblige the members of the

ALBERT ST. BAPTIST SEWING CIRCLE.

Woodstock June 2, 1881.

NOTE—The announcement was not, we think, made in the SENTINEL but, if we understood our informant, it was made in the Institute at the close of the Baptist entertainment in October last.—EDS. SEN.

TERMS OF THE SENTINEL.

Subscription $1 50 a year in advance.

Transient Advertisements should be accompanied by the money to ensure insertion.

Short notices not exceeding 6 lines, 50 cents first insertion; 15 cents each subsequent insertion.

This paper may be found on file at GEO. P. ROWELL & Co.'s Newspaper Advertising Bureau (10 Spruce Street), where advertising contracts may be made for it in New York.

MR. J. H. BATES, Newspaper Advertising Agent, 41 Park Row. (Times Building), New York, is also authorized to contract for advertisements in the SENTINEL, at our best rates.

The Carleton Sentinel.

SATURDAY, JUNE 4, 1881.

SENTINEL Office, in Brick Building, directly opposite Post Office, up stairs.

PORTIONS of Ireland are in a most unhappy condition. Resistance to the officers of the law in their attempts at ejectment, by the mob have, in some instances recently, been successful, and the governing powers have found themselves almost helpless. It would look as if either lawlessness must be left to rule or most extreme measures have to be resorted to. Meantime fresh cases of murder are reported.

It seems that while Mr. Gladstone and his Government are strenuously endeavoring to ascertain how by law to reach and meet the valid grievances of the people of Ireland, some of those people are determined not to wait, but are desperately intent upon a lawless course. Despatches of the 28th and 29th May are as follows:—

MITCHELLSTOWN, County Cork, May 28.

A serious affray took place here on Friday, in consequence of the attempt of the sheriff to evict five tenants on the estate of the Countess of Kingston. The sheriff was assisted by 250 police and military, including a troop of dragoons, but the resistance of the people was so determined that the work was only partly accomplished. The chapel bell of Mitchellstown began ringing in the morning to warn the country that evictions were about to begin. The chapel bells 10 miles around took up the refrain, calling the population to assemble. The police attempted to stop the bells, but did not succeed. Ten thousand persons assembled here in less than an hour. A large number gathered around the police and military. While the first eviction was proceeding, eggs, stones and other missiles were thrown at the sheriff and his assistants. Three evictions were carried out, to execute the next two it was necessary to pass through the town. The people obstructed the street and sent showers of stones into the constabulary. Then the cavalry charged and drove them back, but they only returned in greater force and with new daring. While passing a yard behind which a large number of rioters were concealed, a heavy volley of stones was delivered and one of the cavalry horses was killed. The police charged through the yard and dispersed the assailants at the point of the bayonet. Several were wounded. One man's jaw was cut open. Twelve soldiers were struck and many police were injured. The Riot Act was read twice without effect, and in consequence of the resistance it was decided not to proceed further with the work of evictions. The excitement lasted late into the night, but there was no further disturbance.

DUBLIN, May 29.

The past week has been one of grave anxiety and alarm to the authorities of Ireland. The situation cannot last. The police are rapidly becoming demoralized. Every man's hand is against them. After a long and fatiguing march they find in some country village that the wells are defiled with mud and rubbish, so that no man can quench his thirst. No patrol can venture far except in great force. At night the country is left in the hands of marauders, who carry on their lawless practices with the utmost impunity. The governing powers are almost helpless.

ONE Charles Smith, said to be well known to lumber operators, had a contract with Guy, Bevan & Co., to get out logs by the thousand, and had a number of men engaged in driving on the south-west Miramichi. He drew a few days ago, $5,000 to pay the driving wages, but instead of appropriating the money to its intended purpose he left Fredericton on Sunday before last, drove to Woodstock, where he sold his team, and then went west, leaving his family, including his sick wife, who died the following Tuesday, and the men who were working for him, unprovided for. It was not until after Mrs. Smith's death that the facts of the case regarding Smith's movements were discovered. Beside the stream drivers, he has left several creditors minus, in the aggregate quite a large sum. We notice that in some papers Messrs. Baloch, of Centreville, are mentioned as having lost considerable by him.

The above is substantially from the *Capital*. We are told that the amount of money drawn and taken away by Mr. Smith, is much less than above stated. It is also suggested that he may have been influenced by a telegram he received to the effect that his logs had all gone out to sea. This information has proved incorrect, and the financial result of Mr. Smith's winter operations are said to be very good.

THE Board of Agriculture had a meeting in Fredericton last week and resolved, with the sanction of the Government, to make immediately an importation from Great Britain, of cattle and sheep to the amount of the appropriation for that purpose, we presume, of $10,000. The stock is to be purchased by an agent resident in England.

A discussion took place regarding the purchase or leasing of a farm suitable for a stock farm. Nothing final in this matter was done, but it was resolved to advertise for offers from parties who have farms for sale, in the *Maritime Farmer*, and *Telegraph* and *Sun*. We presume the Board suppose that these papers are read by all the farmers of the best agricultural districts. We give them this notice free.

AMONG the many who lost their lives by the sinking of the steamer on the Thames, near London, Ont., were two young people, Willie Glass and Miss Cooper, who were to be married in June. They died and were afterwards buried side by side.

This disaster, by the way, occurred on a stream so small as scarcely to be designated as a river, and it was the result of overcrowding the steamer and the unruly behaviour of a part of the passengers.

ON Friday of last week, a boy some fourteen years of age, son of Mr Charles True, Jacksontown, was so severely kicked by a horse as that it was supposed his recovery was impossible. The boy was hauling out manure with two horses; one of the animals was much slower than the other and in order to keep this one up to his work young True had fixed a goad stick with a brad in the end of it in such a way to the front part of the waggon as that when the horse lagged the brad would prick him. The contrivance did not work just right, and the boy was in the act of readjusting it when the animal kicked, hitting him with both feet, breaking his upper jaw bone and crushing the skull above the temple. His father who was at work near by, saw the boy fall, and at once carried him to the house. Drs. Colter, Smith and Connell, soon arrived, and finding a portion of the skull pressing upon the brain, had to perform the operation of trepanning. This was skillfully and successfully done, and the boy at present writing is doing well and giving every evidence of complete recovery. It will be a surgical triumph indeed, if the boy should get well.

OUR contemporary, the *St. Croix Courier*, says:—

We have the authority of the *Bay Pilot* for the announcement that there is not a vacant house in St. Andrews, and that of the *Carleton Sentinel* for the statement that scarcely a tenement or shop in Woodstock is without a tenant and that, in the business portions of the town, all the flats of the stores are occupied by persons engaged in different industries. *This latter information, coming from the supporter of a party, whose policy it is to decry the country, is especially gratifying.* Both the statements are but local illustrations of the general prosperity, and flat contradictions of the former assertions of the supporters of Canadian Liberalism to the effect that the N. P. would drive the country to the dogs.

We would really like to have our contemporary explain the sentence in the above which we have italicised. Who are they whose policy it is to decry the country? How or when has the SENTINEL supported such a policy, or made itself amenable to the charge of decrying the country? Is there such a party in the County where the SENTINEL is a local organ? We shall be very glad if the *Courier* can show that these "local illustrations of the general prosperity" are proofs direct in favor of the National Policy and its operation here as elsewhere.

As previously announced, the Woodstock Branch Bible Society held a public meeting in the Albert Street Baptist Church, on Monday evening. The attendance was fair, although not by any means what it ought to have been. The President of the Society, L. P. Fisher, Esq., occupied the chair. After the singing of the opening piece, Rev. Mr. Ballentine read a portion of scripture and Rev. Mr. McDonald offered prayer. Fine addresses were delivered by the chairman and by Rev. Messrs. Seely, W. W. Colpits, Ballentine and McDonald; the writer also briefly spoke. The singing by the choir, under the skilful leadership of Mr. John Fisher, jun., was excellent. The collection was a good one. During the remarks of the chairman, the fact was developed that Woodstock's contribution to the Bible Society for the past four years had been $8.40, an average of $1.68,—a showing not at all creditable to this christian community.

DR. BEATTY, resident physician at Vanceboro, Me., met with a most serious accident on Friday evening last. He was being brought over to McAdam Junction, to visit a patient, on a hand car, one of the kind called a pumper, and had thoughtlessly seated himself on the front of the car. When nearing McAdam, it would appear his foot caught on a sleeper and he was thrown from the car prone upon the track, between the rails, upon his face. Instinctively throwing out his arms one lay on each of the rails and the car went over him, badly crushing one of his arms near the shoulder and breaking the other near the wrist, while the central cog wheel of the car coming in contact with the back of his head, inflicted a very bad wound. The unfortunate gentleman was carried back to his home at Vanceboro, as quickly as possible, Dr. Crawford, of Canterbury, being meantime sent for by a special engine. The doctor suffered immensely and on Wednesday it was found necessary to amputate an arm. The patient lies in a very precarious situation, though his medical brethren have hopes of his recovery. He has resided for many years in his present location, and is very highly esteemed.

THE Revised New Testament which, by the way, has not reached the hands of Provincial readers very promptly, has met, in England particularly, a not very gracious reception at the hands of the critics. The changes made are regarded by some as uncalled for, and by many as remarkable if not startling. It has taken some ten years, by the learned men to whom the revision was committed, to prepare the new version for publication, and it will probably take an equally long time for the christian world to become familiar with and reconciled to the change.

It may be that the new version is a more correct translation of the original, but it certainly is no improvement in beauty and effect of language, in many instances, upon the old time-honored scriptures.

It was generally acceded that a new version was required, but it is perhaps doubtful whether now that such a version has been made the public will readily be prepared to adopt it. But study and reflection is needed before any one may pronounce a just opinion.

ABOUT midnight, Sunday, flames were seen bursting through the roof of Mrs. Samuel Holmes' dwelling house, located a short distance above the residence of L. P. Fisher, Esq. The alarm was given and a large number of citizens gathered at the scene. The steamer took position at the north end tank, but it was not thought necessary to throw water. The house, with all its contents, was burned down. The U. P. Company, under the leadership of Capt. Ervine, did good work in saving the adjoining buildings from burning. Mrs. Holmes was away at the time of the fire, and had not been home since the day previous, during which time the house had been locked up. On Saturday the chimney had burned out, and it is supposed that smouldering soot had in someway caused the fire. Loss probably about $700; insured for $400.

THE Fortune Bay, Newfoundland, difficulty has been settled by Secretary Blaine and Sir Edward Thornton. The American claim was for $103,000. The agreement effected provides for the payment by the British Government of £15,000 sterling in gold coin—this to be in full.

OUR sporting correspondent furnishes the following:—

A trotting match for $5 00 a side took place on Wednesday morning last at 5.30 a. m., on the Grounds of the W. P. G. Association, between the celebrated trotters, "Lady Wildcat" and "Baby Bright," owned respectively by "Bob" and "Sleepy." The race was (½) mile heats best two in three. In the first heat the "Wildcat," at the word "go," forged to the front, took the pole and kept there, coming in an easy winner. This somewhat elated "Bob," for he thought he had a dead sure thing. But, in the next two heats, "Sleepy" woke the "Baby" up, and she gallantly responded and captured both heats, winning the race. We have not seen the official time keeper, but we understand the time was 2 55, 2 45, 2.13, which, considering that the horses were not properly fitted, and also taking into consideration the state of the track, was remarkably ——

P. S—Since writing the above, we have heard that "Sleepy" intends challenging "Dickey."

Jottings.

"Mr. Charles A. Hallett, who six years ago left home a poor boy, is now Superintendent of the Chicago and North Western Exploring and Mining Company, receiving a salary of $5000 per annum. He is also owner of an extensive iron mine worth $50,000, which he found and explored himself. So much for our smart New Brunswick boys. Mr. Hallett was born near Hartland, in this County." So writes to us a gentleman from Iron River, Michigan, May 21st.

Mr. Newton Jonah, while working at Bourne's Planer, on Friday of last week, shaved a portion of one finger off. Dr. Smith officiated.

An interesting ceremony occurred at the last meeting of Reform Club Lodge, I. O. G. T., namely the presentation to Miss Inez Shaw of a handsomely bound volume of Cowper's poetical works from Mr. W. W. Hay. The prize had been offered by Mr. Hay to the member who should, during the quarter, propose and have initiated the greatest number of candidates.

After a shut-down of two weeks, owing to high water, Mr. Hugh Davi's grist, carding and saw mill are again in full operation.

The Jacksonville Cheese Factory will resume operations on Monday next.

The County Lodge, U. T. A., meets at Centreville, on the 14th inst., at 10. A. M.

Master Guy Donoho, son of Mr. Thomas Donoho, while playing with an ignited fire-cracker, the other day, had one of his eyes injured by the explosion of the powder. Dr. Bruce was called.

It is strange that so many conflicting reports touching the future movements of the Princess Louise and the Governor General should find currency. One week, the latter, it is definitely stated, proposes to resign in the fall and the next it is contradicted. The Princess, it was stated, would reach Canada in June, and again the intelligence is printed that the Princess will remain in England indefinitely.

We learn from the *Capital* that Mr. Mallory Raymond, formely of this town, is having an immense iron building erected in Boston. The centre will be devoted to roller Skating, then there will be a bycicle ring, and on the outside a platform for spectators. The Messrs. Raymond Brothers are proprietors of a new roller Skate, which is meeting with an enormous sale.

We would call special attention to the advertisement in this issue of I C. Merrill & Co., the well-known Nurserymen of Lewiston, Maine, who are in want of a few more salesmen.

A son of Mr. Wm. Bowles, Grafton, while playing, with other boys, around some waggons, on Friday of last week, was in some way thrown down and run over by a waggon, breaking the bone of his right wrist. He was attended by Dr. Connell.

A total eclipse of the moon, commencing at 12.15, a. m., may be witnessed by those who look for it, on the night of the 11th inst, providing, of course, clear weather prevails.

Commodore Nutt, the celebrated dwarf, who visited Woodstock once or twice, with Gen. Tom Thumb, died on the 25th ult; at the age of 37 years.

"Perfectly lovely" is the exclamation of the ladies as their gaze falls upon the "cunning little flower garden," recently so tastefully laid out by W. W. Hammond, Esq.,

Mrs. J. T. Smith, and Mrs. John Fisher, Sen, were thrown from their carriage on Friday of last week. Mrs. Smith was considerably shaken but received no serious injury and was able to drive herself and Mrs. F. home. Mrs. Fisher received a severe shock and was badly bruised but is, we are pleased to learn, under Dr. Colter's treatment, rapidly convalescing.

The Mr. John Walker whose name appeared in the "Police Record" last week, was not a citizen of Woodstock but of the *genus* tramp.

We were shown the other day a pulpit Bible, supplied by Mr. J. A. Thompson, at an astonishingly low price, for the Albert Street Baptist Church. It is a superbly gotten up work, a perfect model of binding and printing.

Mr. B. Lynch's store was entered on Monday night, and some few goods stolen therefrom. Entrance was effected, from the wharf, through a window. The till was wrenched open but only a few cents obtained. The robbers made their exit through the front door. Our night watch will have to be on the alert.

Mr. Crabb, of Debec, met with a serious accident, at Houlton, Thursday of last week. His horse becoming frightened at a passing waggon, threw him out upon his head. When picked up he was unconscious, and lay in that state for some hours. Finally he was restored to consciousness and on Saturday he was taken home where, we believe, he still suffers much from his injuries.

There will be no service in St. Luke's Church, 11. a. m. Sunday next, 5th inst. There will, however, be the usual service at 6.30, p. M. on that day.

Everything is growing with unusual rapidity. If amount of bloom is any indication, fruits of all kind will be abundant.

Mrs. James Hayden died very suddenly, about midnight, Friday of last week. Mrs. Hayden had been troubled somewhat of late by a heart affection, but on Friday, tlll quite a late hour in the evening, was about the house as well as usual. About midnight the family were aroused, and before all her children could be summoned to her bedside, Mrs. Hayden died. Mr. Hayden and family have wide spread sympathy.

On Tuesday some young lads were fooling with a pistol when it accidently went off, the bullet striking Charles Ruel on the knuckle joint. Dr. Connell dressed the wounded finger, and no serious consequences are anticipated.

The dwelling house, with a large portion of its contents, of Mr. John Riordon, Lower Woodstock, was consumed by fire on Sunday evening last. It is supposed the fire was caused by a spark from the chimney falling on the roof. Loss about $1,000; insured in the London, Liverpool and Globe for $500.

While working among his potatoes, on Tuesday, Mr. David Jones discovered four full grown potatoe bugs.

The steam shovel for use in excavations on the N. B. Railway, reached here on Monday evening.

Rail laying has been begun on the siding to the site of Messrs. Shaw's proposed tannery.

The *Capital* says Lord Elphinstone and a brother of the King of Denmark, will be in Fredericton about the middle of this month, and will spend several weeks on the upper St. John.

Sir Leonard and Lady Tilley, went to St. Andrews, on Saturday last, where the Finance Minister will enjoy a few days rest from official cares.

The "wangun" boat on Colter & Hagerman's drive, was swamped by striking against one of the piers of the new railway bridge, on Friday of last week. The boat contained a number of barrels of pork and flour, handspikes, peevies, with camping accoutrements for four crews, all of which were lost,—some, however, may be recovered at low water. The loss must have been $500. Mr. Colter was in the boat and had a narrow escape with his life.

John McCaffery, Esq., has leased the Trotting Park for the season. He informs us he intends having a first-class meeting the 1st July. The competition will be between some of the very fastest of the high-flyers.

Mr. James Hemphill, of Ferryville, has been troubled for many years with a lame knee, and having injured it afresh some three years ago it has, since the latter period, been giving him so much constantly increasing trouble and pain that the doctor's some time since, advised him to have his leg removed. Mr. Hemphill finally consented and, on Wednesday last, Dr. Colter, assisted by Drs. Smith and Sharp, after administering ether, successfully amputated the leg a short distance below the hip. The experiment proved that had the limb not been removed the patient would not have lived many months. Mr. Hemphill rested comfortably last night, and is at present progressing favorably. We sincerely trust he may speedily and entirely recover.

Some idea of the extent to which agricultural machinery is being introduced into this County, may be formed from the fact that a consignment of three car loads of horse rakes and mowers, from Johnston & Co., reached their agent here, Mr. J. G. Emery, last week. The lot consisted of 156 rakes and 36 mowers, accompanied by notice that another car load was on the way.

A fire broke out on Tuesday in the large store house of John Anderson, George street, Fredericton, which with its contents of 120 bbls. flour, a quantity of tea, kerosene oil, cornmeal, 200 bus. oats, 200 bus. buckwheat meal and other goods was destroyed. The following adjoining houses were badly damaged—John Anderson's, Mrs. George Anderson's, J. Massey's, Marvin Hartt's, and Joseph Doherty's.

Hon. Isaac Burpee was in town the latter part of last week.

The Queen Hotel, Fredericton, was reopened on Monday. We wish the gentlemanly landlord, Mr. John Edwards, abundant success.

The first salmon of the season was served at the "Gibson House," on Tuesday last.

Master Lynch has arrived home pretty well recovered from the effects of injuries, received a short time since, by a blow from a bat on his head.

Mr. S. J. Jenkins, Secretary of the National Lodge, U. T. A., will address a public meeting, on temperance, in the Methodist Church, Ferryville, on Monday evening next, when an effort will be made to resuscitate the dormant Lodge in that place.

Our Foreman, Mr. Wm. Wallace, has been able to resume work, having completely recovered from his recent severe illness.

Rev. J. McG. McKay, left on Monday morning to attend the meeting of the Synod in Nova Scotia.

There was a frost here on Wednesday night.

A crew of Gipsies are camping up Connell road, near Mr. Jacques'.

The following were elected office-bearers of the Woodstock Bible Society for the current year on Thursday evening last. L. P. Fisher, President, Messrs. Jas. Watts, D. J. Holder and Dr. Sharp, Vice Presidents: G. L. Holyoke, Secretary, David Munro, Treasurer, Hugh Hay Depositary. The committee consists of two members from each church, and the resident clergymen.

Rev. Thos. Todd will occupy the Presbyterian pulpit Sabbath first, at usual hours.

Don't forget the "Apron Fair," in the Town Hall, Thursday evening next. The proceeds go toward the Building Fund of St. Luke's Church; the object is a worthy one, and the occasion, doubtless, will be an enjoyable one. Patronize it!

Rev. Mr. Kingdon, Coadjutor-Bishop, was expected to reach St. John, Friday.

The "Revised Edition" has come—see W. H. Everett's advt.

Knoxford Items

The SENTINEL a short time ago gave notice of the drowning of Lewis McLaggan, son of Mr James McLaggan, of Knoxford. The body of the young man was found on the 17th May after an unceasing search by two men. Information was sent to his employer Mr. Stephenson, who immediately had the body brought to the city and buried in his own lot in the cemetery. Too much cannot be said in praise of Mr. Stephenson, as well as very many others for their extreme kindness and constant attention to this matter. Mr. and Mrs. James McLaggan, and a great many friends wish to acknowledge through the SENTINEL their heart felt gratitude for the great pains taken in finding the body and in the burying of it. Everything goes to show how highly Lewis was esteemed although among strangers. Perhaps there never was a young man left these parts more highly esteemed than was he. Our hearts ache when we think we shall see him no more. We tender to the bereaved friends our deep sympathy.

Debec Junction Items.

May 25, 1881.

Our little village is advancing rapidly and on some days presents quite a town like appearance. Mr. Wm. Maher is erecting a fine dwelling house and store combined.

Father Gainor, the Roman Catholic Priest, has been located here, and his people have put him up a fine stable and will soon have a parsonage, the foundation of which has already been laid.

The potato trade has been very brisk here during the latter part of winter and spring. Mr. J. Law and Mr. Maher have been the principal buyers.

Mr. T. McDonald has sold his fine residence and blacksmith shop to Mr. Johnson.

The neighborhood is quite healthy now. Diphtheria, that dreaded disease is not prevailing to such an extent as a short time ago.

Dr. Wiley, who came to our little village but a few months since, is meeting with much success in his practice.

Oysters packed in ice; ice cream packed in ice; pop beer packed in ice; Lemonade packed in ice; strawberries packed in cream, at SEABORN'S, cor. Main & Court streets.

June 3, 1881.

Buckwheat meal (grey)	$2.00 to $2.25
Maple Sugar,	9 to 10c
Candy	15 18c

NOT THE SLIGHTEST AFFINITY exists between the numberless cough mixtures with which the market is flooded and that successful preparation—Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of lime and Soda. It stands alone, distinct, is like itself, and nothing else. It embodies the best results of advanced pharmaceutical science. It accomplishes positive, decisive results, effectually relieving coughs (when the lungs are not tuberculous or hopelessly affected), colds, laryngitis, and diseases of a scrofulous origin. While it does not cure Consumption, it is the most reliable means of defence against that dreaded scourge. The invigorating properties of the hypophosphites reinburse the system debilitated by the constant tear and wear of a cough, while the paroxysms rapidly diminish in violence, in consequence of the soothing emollient action of the cod liver oil upon the inflamed lung membrane. The phosphorus, lime and soda, in combination with it, are all natural components in the construction of the bodily edifice, which, in a state of decay, lacks a sufficiency of those elements. These the hypophosphites supply, increasing the nutritive properties of the blood, and building up and rehabilitating the tottering human structure with a degree of promptitude as astonishing as it is gratifying to the invalid. A preceptible gain in flesh as well as in strength is one of the consequences of using this standard preparation, which both time and experience have demonstrated to be fully worthy of the confidence reposed in it. Prepared by NORTHROP & LYMAN, Toronto, and sold by all druggists.

A BAPTIST MINISTER'S EXPERIENCE.—I am a Baptist Minister and before I ever thought of being a clergyman I graduated in medicine but left a lucrative practice for my present profession, 40 years ago, I was for many years a sufferer from Quinsy, "Thomas Eclectric Oil cured me," I was also troubled with Hoarseness and Thomas Eclectric Oil always relieved me. My wife and child had Diphtheria, and "Thomas Eclectric Oil cured them" and if taken in time it will cure seven times out of ten, I am confident it is a cure for the most obstinate Colds, or Coughs and if any one will take a small teaspoon and half fill it with the Oil and then place the end of the spoon in one nostril and draw the Oil out of the spoon into the head by snuffing as hard as they can until the Oil falls over into the throat and practice that twice a week, I don't care how offensive their head may be, it will clean it out and cure their Catarrh. For deafness and earache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like recommending and I am very anxious to see it in every place, for I tell you that I would not be without it in my house for any consideration, I am now suffering with a pain like Rheumatism in my right limb and nothing relieves me like Thomas Eclectric Oil.

Dr. E. F. CRANE,
Corry, Pa.

Our trade in Dry Goods has doubled within a year, the best indication we can give a stranger of the excellence of our services.

WATTS & TURNER,
56 King Street.

St. John, Dec. 1, 1880.

BRISTOL, ONT., 10th March, 1880.

Messrs. Perry Davis & Son & Lawrence, Montreal.

I have sold your Pain-Killer ever since I commenced business, and I still continue to sell more of it than of all the other proprietary medicines put together. This I consider the best recommendation I can give you.

I am, &c., &c.,
ARCHD YEILL.

MARRIED.

May 26th, at the bride's residence, city of Lynn, Mass., by Rev. Oliver A. Brown, Mr. William F. Cogswell to Miss Mary E., eldest daughter of Elder G. E. Orser, all of Lower Wakefield, C. C.

May 24th, at the residence of the bride's father by Rev. G. W. McDonald, Mr. John B. Dogherty and Georgia H., youngest Daughter of Amos E. Hartley, Esq., of Wicklow.

DIED.

At Pembroke, on the 20th inst., of congestion of the lungs, Wesley E., aged 21 years and 6 months, beloved son of Elisha and Eunice A. Shaw. He died in the belief of a glorious resurrection.

At Lower Wakefield, on the 26th April, of measles and diphtheria, Claribel, aged 3 years, 3 months and 18 days; on the 18th, Maudie Clementine, aged 6 years, 9 months and 9 days, children of Albert W. and Mary A. Shaw.

At her residence, Windsor, Carleton County, May 7th, Adaline Stockford, in the 29th year of her age, leaving a husband and four children to mourn their loss. Her end was peace.

On the 17th ult., little Charlie E., youngest son of the late William and Adaline Stockford, aged two months. The deceased mother and child have gone to be at rest with Jesus. Funeral service by Rev. Colby D. Turner.

At St. John, on the 24th ult., Thomas Laskey, in the 22nd year of his age.

At her son's residence, in the Parish of Wilmot, on the 22nd of May, Martha, relict of the late Daniel Savage. She leaves three sons and four daughters, who deeply feel the loss of a kind christian mother; but their loss was her eternal gain.

At Waterville, Carleton County, on the 20th ult., after a lingering illness, of consumption, Levina, wife of James Plummer, Jr., aged 38 years. She professed religion a number of years ago, and was a member of the F. C. Baptist Church, Waterville.
