Aroostook, April 13, 1881

the land I thought it right to give it my support in order to give it a fair trial, as we do election, as they did in the late election in 42 feet at low water and 30 feet at high Washington Irvine in his Knickerbocker says pound and confound the laws so that no perboth unjust and oppressive, for there are United States, and there we are met with a many school districts in which the people are either too poor or otherwise so situated that they cannot run a school the year round, but while the people find themselves unable to keep up their own school they are compelled under this law to pay nearly half enough to run their own school, which goes to support schools in more wealthy districts. Now I ask is there anything just or equitable in this. I am aware that this was enacted in order to compel people to have regular school. law will compel people to keep a school uncessities Another evil connected with the struction has been referred to, and I propose to County fund is that people not knowing how criticize very briefly, some of the remarks that of Mr. Thos. Hoben.
