PRINCIPALLY MULES. MESSES. EDITORS,—While railroad com-panies have extended their lines all through and over these mountains, in many places tunnelling, at others encircling and climbing allowing no obstacle no matter how difficult to overcome ot prevent them reaching cities, towns, villages, mines or agricultural cen-tres where freight is to be found for tranaportation or human beings to fill their passenger cars, still there are many points not yet reached, and to many the erection of a road will not pay, and other modes of conveyance have to used. The mule is frequently met with, and thousands of them are constantly at work hauling lumber, coal and produce to the stations; generally four compose a team; the driver is mostly found on the back of the near pole mule, provided with a saddle; instead of four reins as is common in driving four horses the teamster handles but one line called a yea line, and the arrangement is such he can guide them or turn them in any direction he desires, still there is on his part a good deal of loud alk "yaw and haw, go on there, pull you The Annapolis Journal records that "a mean." 'Well, to tell the truth,' stammered Sam, 'I've lost the way. I don't get the bearings just right.'

'I'll soon find it for you.'

'No, you'll not, Colonel,' said Sam, decisively. 'You never were in these an not to understand the force of this statement. He sat still, though impatient and scolding, while Sam got down and tramped through the interminable rows of black pillared trunks, seeking vainly for some landmark.

'They're all so confoundedly alike,' the muttered, scrambling to his seat.

'Ef only the stars were out."

'How far have you gone?'

'Ten miles—or mebee five. This hyar snow is so blindin' an' confusin', said Sam. 'Gee up, now,' whipping up his four horses with a faint show of energy.

'I have but two charges left.'

'Then we are lost!'
