

Mr. McCarroll recently in a political address, referring to the Senate, said:— I defy anybody to point out in France, Britain, the United States, or any other country, an instance in which a body not elected by the people, not responsible to the people, not capable of being controlled in any shape or way, is allowed to put a veto on decisions of things that would not be tolerated in England for instance. If the House of Peers should resist in opposition to the State people, there is no need of the State people, the means of bringing them to their senses. Should they refuse, for instance, to sanction any of the provisions of the Land Bill, Mr. Gladstone, the royal consent to the bill, at the polls he can go to the House of Commons, and if they sustain him, the bill is passed. The House of Peers, the means of bringing them to their senses. Should they refuse, for instance, to sanction any of the provisions of the Land Bill, Mr. Gladstone, the royal consent to the bill, at the polls he can go to the House of Commons, and if they sustain him, the bill is passed.

The Capital, referring to an article of ours on the development of certain resources of the County, says:— Well, there is about ten million dollars of capital in the Province, which is either idle or else drawing very low interest. Five per cent. city bonds find a rapid sale at present. Provincial bonds at the same rate of interest command a premium. It would really pay to invest in this great natural wealth of Carleton County, the money ought to be got without difficulty, one would think.

An exchange very pertinently says:— The discovery of the shipment of munitions charged with dynamite from America to England furnishes all the evidence that should be required by the United States Government to take steps to put down the actual warfare which has been carried on so long and so openly against a friendly Government, and which has been the subject of an official communication. There are two societies in America, which should both be subjected to strict investigation. There is the "Fonian Brotherhood," which is the original society formed for the purpose of making secret warfare by means of dynamite, etc., against Great Britain, with the purpose of separating Ireland from the rest of the Kingdom. **Ayer's Hair Vigor,**  
RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.  
It is the most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray hair, and red hair, to a rich brown, or deep black, as may be desired. By its use the hair is thickened, and baldness often though not always cured. It checks falling out of the hair immediately, and causes a new growth, which is peculiarly beneficial to the scalp. It keeps the hair cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.  
Ayer's Hair Vigor is indispensable. It is colorless, does not soil the clothing, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and highly useful in its excellence.
