This stallion is a striking copy of his sire in color, motion, form and disposition, and, notwithstanding that late development is a characteristic of this blood, has already proved himself a superior stock horse. Many of his colts exhibit speed, and are valued at high prices, while nearly all of them are strong, vigorous animals with a fine, easy carriage and an abundance of spirit The attention of horse owners and breeders is directed to his pedigree, which is a sufficient guarantee of the value of his service : Norridgewock was by Gen. IN THE PALACE CAR, - Well Both this beats everything our eyes have ever seen! We're ridin' in a palace fit for any king or queen. We didn't go as fast as this, nor on such cushions rest, when we left New England years ago to seek a home out West. We rode through this same country, but not as we now ride-you sat within a stage coach, while I trudged on behind : instead of ridin' on a rail, I carried one, you know, to pry the old coach from the mire through which we had to go. Let's see; that's fifty years ago-just after we were wed; your eyes were then like diamonds bright your cheeks like roses red. Now, Betsy people call us old, and push us off one side, just as they have the old slow coach in which we used to drive. I wonder if young married folks to day would condescend to take a wedding tour like ours, with log house at the end. Much of the sentimental love that sets young cheeks aglow would die to meet the hardships of fifty years ago, Our love grew stronger as we toiled; though food and clothes were scarce, none ever saw us in the courts a-huntin, for divorce; love levelled down the mountains, and made low places high, love sang a song to cheer us up when clouds and storms were nigh. I'm glad to see the world move on, to hear the engine roar. and all about the cables stretchin' now from shore to shore. Our mission is accomplished: with toil we both go through; the Lord just let's us live a while to see how young folk do-Whew, Betsy, how we're flying! See the farms and towns go by! It makes my gray hair stand on end; it dims my fallin, eyes. Soon we'll be through our journey, and in the house so good, that stands within a dozen rods of where the log one stood. How slow-like old coachesour youthful years went by ?-The years when we were livin' neath a bright New England sky: swifter than palace cars now fly our later years have flown, till now we journey hand in hand down to the grave alone. I can hear the whistle blowin' on life's fast flying train; only a main. Soon well reach the home eternal with its glories all untold, and stop at the blest station in the city built of gold.

THE Singer Manufacturing Co. have established an Agency in Woodstock, where their world renowned Singer Sewing Machines, for Family and Manufacturing purposes, can be had at greatly reduced prices and on easy terms. No claims for allowance after goods leave the Warehouse.

Positive Proofs that the SINGER is free by mail to every one. The Specific MediSuperior to all other Sewing Machines.

1. It has taken the first prize over all other machines more than 200 times.

2. Companies have sprung up in nearly every mail on receipt of the money by addressing, THE GRAY MEDICINE, CO., 2. Companies have sprung up in nearly every part of the world, for making an "Imitation Singer Machine." Why are not similar companies formed for making imitations of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; Brass and Tin never.

3. After the Chicago fire, the Relief Committee undertook to furnish Sewing Machines to the needy women of that city. Applicants were per-

itted to choose nom six different kinds o machines. 2944 applicants were furnished with machines. 2427 chose Singer Machines and 517 distributed their choice among the five other kinds of machines ! These girls were to earn their living on these machines. Why did they choose Singers? Our experience was the same after the late great fire in the City of Saint John.

4. Over two millions of Singer Machines have been sold during the past nine years. 5. The year 1878 was a year of unexampled depression in business, yet we sold more machines than in either of the 25 years we have been in

sold in 1878 throughout the world were Singers. Remember these are not our claims, they are facts shewing what other people think of the For Durability and simplicity the Singer excels We have Branch Offices in every part of the known world. Our principal office is at 34 Union Square, New York. CAUTION.—A large number of people hav-ing, from time to time, been betrayed into buy-ing imitations of our Machines, from parties re-

ing imitations of our Machines, from parties representing same as Genuine Singers, we hereby respectfully notify the public, that our Machines can be obtained only through our regularly appointed Agents coming from the above address.
