Over 700 in use in New Brunswick.

THE Empire Clothes Wringer

Has Patent Purchase Gears, and Turns with half the labor of other Wringers.

The Bearing of the Rolls need no oiling; hence no oil to get on Rolls and Clothing.

Read what the Editor of the *Rural New Yorker* says:—"In all Wringers that have the crank attached to the shaft of the lower roll, that roll always has and always will turn on the shaft and give out before the upper roll is half worn."

The EMPIRE is the only Wringer in the market that does not have the Crank attached to the Shaft of either Roll. This will save the purchaser $2 and upwards for a new Roll, before the Wringer is otherwise worn.

I have sold this Wringer 6 years, and have not heard of Burst Rolls or breakage as yet.

New Brunswick, Victoria, S.S.

To the Sheriff of the County of Victoria or to any Constable within the said County Greeting:

L.S. WHEREAS R. Eugene Whittier, Administrator of the Estate and Effects of Nathaniel P. Whittier, late of the Parish of Grand Falls, in the County of Victoria, deceased, hath prayed that he may be allowed an extension of time in which to file his final account as such Administrator.

You are therefore required to cite the heirs next of kin, creditors, and all others interested in the said Estate, to appear before me at a Court of Probate to be held at Andover, in the County of Victoria, within and for the said County, on Tuesday, the twenty first day of June next, to shew cause (if any) why the said Administrator should not be allowed such extension of time.

Given under my hand and the seal of the said Court this twenty-sixth day of May, A.D. 1881.

Miscellaneous.

HOOPING A BARREL.—Putting a hoop on the family flour barrel is an operation that will hardly bear an encore. The woman generally attempts it before the man comes home to dinner. She sets the hoop up on the end of the staves, takes a deliberate aim with the rolling-pin, and then shutting both eyes brings the pin down with all the force of one arm, while the other instinctively shields her face. Then she makes a dive for the camphor and unbleached muslin, and when the man comes home she is sitting back of the stove, thinking of St. Stephen and the other martyrs, while a burnt dinner and the camphor are struggling heroically for the mastery. He says if she had kept her temper she wouldn't have got hurt. And he visits the barrel himself, and puts the hoop on very carefully, and adjusts it so nicely to the top of every stave that only a few smart knocks, apparently, are needed to bring it down all right; then he laughs to himself to think what a fuss his wife kicked up for a simple matter that only needed a little patience to adjust itself; and then he gets the hammer, and fetches the hoop a sharp rap on one side, and the other flies up and catches him on the bridge of the nose, filling his soul with wrath and his eyes with tears, and the next instant the barrel is flying across the room, accompanied by the hammer, and another candidate for camphor and rag is enrolled in the great army that is unceasingly marching toward the grave.—*Danbury News.*

The season is here at last when the adventurous small boy thinks he can make experiments with the sluggish wasp that he finds creeping on a window sash in the garret. He is not wholly ignorant of the foibles of the insect, but he has heard the saying that "wasps won't sting till the June birds sing. It is a great comfort for him to know this. It gives him a poor idea of a wasp and encourages him to insult it. Accordingly he removes it from the window sash, places it in his extended palm and tickles it defiantly under the ribs. Later on, two strong women are holding that boy's hand while the anxious mother is exploring his palm with a needle, and his little heels are churning holes in the nursery floor. Thus is childish faith in the truth of cherished sayings shattered; thus is the first idol of our lives broken and the first lesson of scepticism taught.—*Brooklin Eagle.*

AN ELEGANT PROGNOSTICATOR!

We are manufacturing, in a Neat Case, an Improved and Perfectly Reliable

Weather Indicator!

This Instrument predicts not only the correct changes of the weather in advance, but indicates with great accuracy the present humidity of the atmosphere. It is of intrinsic value when used in sick-rooms, sitting-rooms, school-rooms, conservatories and grape houses; also in cotton, silk and woolen mills, as well as other manufactories, to regulate the moisture or dryness of the air.

NO REGULATION IS REQUIRED, IT IS PORTABLE, NOT EASILY BROKEN NOR PUT OUT OF ORDER.

It is a signal triumph over all other high-priced Barometers or Weather Indicators, and excels in superiority of accuracy; being attractive, ornamental and low-priced, it will be a favorite in every household.

It bears testimonials and high recommendation from the most eminent and scientific gentlemen, as:—Jas. D Dana, Ph.D., LL.D.; Geo. Buckland, M.D.; Henry H Croft, D.C.L.; Jos. E King, D D., Ph D.; Arthur W Wright, Ph D.; H Y Hind, M.A., F.G S.; J Lawrence, Smith, M.D.; Ashley D Hurt, A.M.; J McCaul, LL.D.; Hamilton L Smith, A.M., LL.D.; George S Blackie A.M., M.D.; S Alexander, LL.D.; Arnold Guyot, LL.D.; J M Hirschselder, Ph.D.; Wm. Curry, A.M., M.D; Chas S Farrar, A.M.; M F Maury, M.D., LL.D.; and hundreds of others.

We have received from the Inventor of this Hygroscope the exclusive right to manufacture and dispose of said Instruments in the Dominion of Canada and Newfoundland.

For showing the temperature we had expressly made for our climate reliable 7 inch mercurial Thermometers in beautiful ruby colored tubes, encased in artistic and ornamental frames, attached to each instrument.

Sample sent by mail for $3.00: Send for sample and private direction and get exclusive territory. It will pay the agent.

SUBSTITUTES!

☞ The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this: When asked for a bottle of **Pain-Killer**, they suddenly discover that they are "sold out," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is to enable them to palm off their own stuff, which is made up to sell on the great reputation of the Pain-Killer; and being compounded of cheap and worthless drugs, are bought by the dealer at a much lower price than the genuine Pain-Killer. If you ask for the genuine Pain-Killer, and will not be satisfied with any other, you will get the genuine.

FOR CHOLERA MORBUS, CRAMPS, AND ALL SUMMER OR BOWEL COMPLAINTS PERRY DAVIS' PAIN-KILLER IS UNEQUALLED.

IT CURES ALMOST INSTANTLY.

The PAIN-KILLER is put up in 2 oz. and 8 oz. bottles, retailing at 25 and 50 cents respectively,—large bottles are therefore cheapest

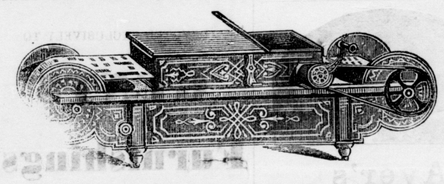
Mechanical Orguinette!



AN AUTOMATIC REED ORGAN!

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the Cabinet Organ, but the organ must be manipulated by an artist in order to produce music: the ORGUINETTE is on the other hand entirely mechanical in its action, and at trifling expense it can be made to furnish an unlimited supply of all kinds of music."—*Toronto Globe.*

"THE ORGUINETTE is indeed a musical wonder. It is a minature reed organ, with as strong and melodious a tone as the Cabinet Size. It surpasses the Cabinet Organ, for the reason that the ignoramus in music can play it as well as the most accomplished professor. THE ORGUINETTE is as strong and accurate in its mechanism, and consequently not liable to get out of order."—*Montreal Gazette.*

"THE ORGUINETTE is the most perfect automatic musical instrument yet invented; its repertoire is unlimited, the tone is remarkably good."—*Montreal Star.*

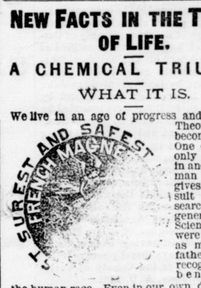
NEW FACTS IN THE THEORY OF LIFE.

A CHEMICAL TRIUMPH.

WHAT IT IS.

We live in an age of progress and discovery. Theories have become Facts. One discovery only culminates in another. The man of Science gives us the result of his researches for our general good. Scientists who were looked upon as mad by our fathers, are now recognized as benefactors to the human race. Even in our own day, among justly celebrated physicians, there is evinced a want of appreciation in their practice of the great part which the NERVOUS or MAGNETIC FORCE plays in the daily nutrition and growth of our bodies but more especially in the influence of Nervous Force over disease and its cure. It is not so in France.



In the Great Medical Schools in Paris, from which this Magnetic Oil emanated,

these Medical Science is cultivated in investigating new facts and drawing useful deductions therefrom. One result is

THE DISCOVERY OF THIS PREPARATION.

Throughout France it has a standard reputation. It is only new on this side of the Atlantic. From a knowledge of its virtues we claim for it a large share of the confidence of the public. We do it from knowing that what it promises to do, it does effectually. It knows no failure,—is the most speedy, safe and certain in its cures. The smallest particle of it is worth more than a dozen bottles of oils, which contain no Magnetism, —for, without Magnetism Death, for MAGNETISM is LIFE. It is composed of powerful vegetable oils, all combining MAGNETIC FORCE. It contains more than all the virtues of the best preparations which have ever been invented, because it possesses the invaluable addition of the Magnetic Power, which is wonderfully developed by its use. There never existed a remedy so striking and immediate in its effects, so simple and safe to use. Were a universal remedy possible, *THE FRENCH MAGNETIC OIL* is the only one that could lay claim to the name.

☞ Next month we shall tell you more about it.

IMPORTANT NOTICE.

THE Singer Manufacturing Co. have established an Agency in Woodstock, where their world-renowned Singer Sewing Machines, for Family and Manufacturing purposes, can be had at greatly reduced prices and on easy terms.

Positive Proofs that the SINGER is Superior to all other Sewing Machines.

1. It has taken the first prize over all other machines more than 200 times.

2. Companies have sprung up in nearly every part of the world, for making an "Imitation Singer Machine." Why are not similar companies formed for making imitations of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; Brass and Tin never.

3. After the Chicago fire, the Relief Committee undertook to furnish Sewing Machines to the needy women of that city. Applicants were permitted to choose from six different kinds of machines. 2944 applicants were furnished with machines. 2427 chose Singer Machines and 517 distributed their choice among the five other kinds of machines! These girls were to earn their living on these machines. Why did they choose Singers? Our experience was the same after the late great fire in the City of Saint John.

4. Over two millions of Singer Machines have been sold during the past nine years.

5. The year 1878 was a year of unexampled depression in business, yet we sold more machines than in either of the 25 years we have been in business.

6. Three-quarters of all the Sewing Machines sold in 1878 throughout the world were Singers.

Remember these are not our claims, they are facts shewing what other people think of the Singer.

For Durability and simplicity the Singer excels all other Machines.

We have Branch Offices in every part of the known world. Our principal office is at 34 Union Square, New York.

CAUTION.—A large number of people having, from time to time, been betrayed into buying imitations of our Machines, from parties representing same as Genuine Singers, we hereby respectfully notify the public, that our Machines can be obtained only through our regularly appointed Agents coming from the above address. As a further preventive against such deception we would also beg to intimate that all our Machines have our trade mark on the arm and any Machine without the trade mark is not genuine.
