WOODSTOCK, N. B., SATURDAY, AUGUST 26, 1882.

Poetry. EXCHANGE Children of the Rich and Poor Con-trasted.

JAMES RUSSELL LOWELL. The rich man's son inherits lands, And piles of brick, and stone, and gold, And he inherits soft white hands. And tender fish that fear the cold, Nor dares to wear a garment old; A heritage, it seems to me, One scarce would wish to hold in fee.

The rich man's son inherits cares-The bank may break, the factory burn, A breath may burst his bubble shares; And soft white hands could hardly earn A living that would serve his turn; A heritage, it seems to me, One scarce would wish to held in fce.

What does the poor man's son inherit? Stout muscles and a sinewy heart, A hardy frame, a hardier spirit; King of two hands he does his part In every useful toil and art; A heritage, it seems to me, A king might wish to hold in fee.

What does the poor man's son inherit? A patience learned of being poor, Courage, if sorrow comes, to bear it, A fellow feeling that is sure To make the outcast bless his door ; A heritage, it seems to me, A king might wish to hold in fee.

Both, heirs to some six feet of sod, Are equal in the earth at last, Prove title to your heirship vast By records of well-fill'd past; A heritage, it seems to me, Well worth a life to hold in fee.

Select Tale.

Arthur Fairfax's Will.

'And so poor Miss Lucy is disinherit-

fax all the rest.' 'It is very queer that his nephew daughter's only child. Gilbert Fairfax has got everything in his own hands. He will have his own servants, too, and now that he is master of Woodlawn we who have served his uncle so many years will be turned adrift. We think too much of Miss Lucy to stand any chance him in his coffin the next day.'

The above conversation took place between the gardener and the housekeeper of Woodlawn, who had grown gray in the service of its late owner. Also, prepared to Re-plate Knives, Forks, Spoons, Castors, Cake Baskets, Watch Cases, Jewellery, &c., and all old ware, for half the price new can

Agriculture,

PROMOTING MILK.—The following from the London Live Stock Journal is a good state-

ment of some practical points suggesting the extent to which milking qualities are dependent on treatment and training:

"A copious flow of milk, sustained through many months, is a quality which has been wild produced by art in domestication. Wild cattle rarely provide more than enough milk to rear their own offspring, and the flow of it is of comparatively short duration. Small in volume, the milk is rich in quality, but of course, is in harmony with the requirements of the young animals in a wild state, and is a corelation of the roving life and the hap hazard feeding of the dame. More milk than the calf requires under such conditions would be a waste of maternal energy which nature does not encourage. It would, moreover, be an encumbrance to the mother. Wild cattle are neither good milkers nor good fatteners, and in parts of England where calves are allowed to run with their domesti-Local & foreign Items. cated dams generation after generation, the breed of such is not famous for milk giving.

> glands, and this development has become hereditary in our best milking breeds. 'The ewes of the Larzac breed of sheep, from

> whose milk the famous Roquefort cheese is a made in France, have been hand milked for quantity of milk all the while. The population of Egpt is 5,517,627.

The extraordinary commercial value of the excess of any previous year. The revenue in 1870 was about \$1,000,000 derived from 486 ships; in 1875 it was about \$5,500,000 from Of the barque "Mary Lowerson." 1,494 ships, and in in 1881 as above stated, Robinson's Phosphorized Emulsion of Cod the revenue amounted to \$10,000,000, which The Pyramid of Pueblo, in Mexico, covers quoted to day at \$400 and have been as high price of the stock."
