FREDERICTON, Feb. 25, 1882. DEAR SENTINEL, -Intimations are to the effect that the session will be sh rt. Private m asures and resolves are being urged forward with a'l possible speed, the despatch of business being accelerated by the Government. Of course thus far, n-cessarily, the busin ss is preparatory and the notice paper is being filled fast.

Legislature, having stated in his place that

Mr. White to-day introduced a bill to

amend sec. 32, cap. 68., com. stat. of high-ways in Carleton Co. Prov. See said no charges had been preferred against the late Sheriff of Queen's John Palmer, nor against Mr. Vail, late Sheriff of Gloucester. He also stated that Government intended to introduce a bill relating to schools, but do not contemplate any changes in the but do not contemplate any changes in the management of the educational department or the Board of Education—also that Government do not intend to make any alterations in the law relating to timber lands.

Mr. Palmer's motion for an official reporter was lost. The session will be shortened in

surprise that this long standing matter had not yet been settled. Corn and Oatmeal, Hon. Mr. Fraser said that in 1869 the Dominion Government were called upon for the claim, and negotiations were had with the International Contract Company, by which the latter were satisfied in full and agreed that the Province were to have any claims against the Dominion that the Company might have had. In the first place the company was to have owned the road and afterwards was to have owned the road and afterwards the Dominion Government. When the arrangement was made in 1869 the Government of New Brunswick had no option in the matter but insisted that they had a right to be recouped for the \$150,000 that had gone into the roads from the Provincial treasury.

The Government expected to have a decided answer from the Dominion Government soon and might have further information to lay before the House shortly.

In reply to Mr. Willis, Hon. Mr. Adems said that the Government, believing that 80 cents an acre for our lumber lands was less than their value, brought certain portions of the public lands to sale with a view of ascertaining their value and bona fide applications were made to carry out that object, and which lands were brought to sale and sold to bona fide purchasers for prices at an average of \$1.54 per acre.

The attention of the Minister for Agriculture had been called to the advisability Oysters, raw, riculture had been called to the advisability of the Dominion Government co-operating, but as yet no formal reply had been received.

Mr. Blair, in moving his resolution for a committee of enquiry into the disposition of receipts from the Clerk of the Pleas, showed that these receipts had been growing less and less; he claimed that they had not been properly accounted for, and that as a result of the enquiry it would be shown that the accounts furnished to the House from time to time were not to be relied upon, and the
