He did make several mistakes at first, but Coryphe corrected them so pleasant- ly that his embarassment was triffing, and soon quite wore off: and, after a few turns his mathematical head as as male	shionable shops are French, but there are a few first-rate English and American ones. A large class of Turks hawk their wares in the street. They are for the most part fine, stalwart, civil-spoken men. They shoulder enormous baskets containing cheeses, creams, fruits, vege- tables, and many other comestibles, and furnish more than half the alimentation of the city. The habits of these men are very simple : they live chiefly upon bread and fruit ; but they also know the secret pot an feu, and often I have seen a knot	In life it is difficult to say who do you the most mischief, enemies with the worst intention, or friends with the best. As a province of Canada it has not proved a much greater success, but with its great mineral wealth, of timber, fish, land fit for the cultivation of wheat, cattle, hops, its good climate, abundant harbors and peaceful Indian population, its proximity to the United States, it will go hard with the province if before long a new and better era in its history is not begun.
