Centreville Items.

March 12, 1882. Our temperance meeting of last Tuesday evening was a success. In the absence of the President the Senior P. P., James Clark, took the chair. The speakers were C. A. West, S. A. Couilard, Elder Taylor and Elder LePage; these all urged the duty of parents to persuade their children to be away from the rum shops and from rums king company. The choir fur nished excellent music, Miss West presiding at the organ.

Business is now quite brisk. During the thaw the roads were rendered very bad, and many teams came out of the woods. Some more of our young men have come home from the West; some more are going West this

A man from York County has opened a new store in Mr. Hartley's building, near Captain I. F. A s' mill. We wish him success. We tracthe next time that Mr. S. comes this way he will not be seen loading his organs and driving them from our village on the Sabbath Day; such a thing should not be allowed. We wish some capitalists would come here this spring and build a Cheese Factory ; within a radius of six miles from Centreville there are about 185 farmers all having cows. Mr. J. E. Alexander, has sold his property to Dr. Fank Kilburn, who intends commencing the practice of his profession here soon.

Bristol Items. March 9, 1882. R. D. Pearson cut some lumber in his new steam mill to-day; it will be kept in steady operation now; he will put his shingle machine to

work in a few days. Lockhart & Curtis' new shingle mill, on the Big Chickdehawk, one mile from its mouth, is turning out a first-class article, and giving employment to several hands. Oakland Lodge, U T. A., is trying to educate the young in temperance principles, and to reclaim all the inebriates that it can. The decision of the Judges in favor of the Scott Act will give

new energy to temperance work. Three young men left Wicklow for Colorado last week, namely, Washington Parker, Howard Parker and Charles Giberson. This should not be! the bone and sinew of our country going to swell the coffers of other lands. There is a good chance here for a first-class harness maker.

Police Record. WM. DIBBLEE, Esq., Police Magistrate. Alex Tracey, drunk, \$4 and costs. BEFORE J. McCAFFERY, J. P.

On Tuesday, Herbert McIntyre, colored, was examined before Justice John McCaffery, on a to attend more fully to the wants of our numercharge of breaking into D. Thompson's house and stealing money therefrom. He was committed for trial at the Supreme Court.

Corns! Corns!—Tender corns, painful corns, soft corns, bleeding corns, hard corns,

corns of all kinds and of all sizes, are alikremoved in a few days by the use of Putnam's
Painless Corn Extractor. Never fails to cure,
never causes pain, never leaves deep spots
that are more annoying than the original discomfort. Give Putnam's Painless Corn Extractor a trial, Beware of substitutes. Sold

The Medical Faculty were among the first to recognize the value of Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda as a remedy for throat and lung affections, premature decline and general debility. Physicians not only recommend it for incipient consumption, bronchitis, asthma, and minor pulmonary and bronchial troubles, but speak in the highest terms of it as a means of enriching the blood and counteracting a hereditary tendency to consumption. In every part of highest terms of it as a means of enriching the blood and counteracting a hereditary tendency to consumption. In every part of the Domitsion and throughout the United States it has attained a popularity as widespread as it is deserved, and the evidence at testing its efficacy is voluminous and convincing. The Cod Liver Oil, which is its pulmonic constituent, is absolutely pure and does not nauscate the stomach, while the Hypophosphites, superaded to end chemically blended with this ingredient, possess in invigorating properties which render it most desirable in diseases involving such a tremendous waste of tissue and loss of bodily substance as incipient consumption, which it checke with a promptitude truly marvellous. In addition to its pulmonic effects, it imparts tone to the whole system, and being a fine blood depurent, counteracts a tendency to sorofula. Moreover, it is sold at a reasonable price, the cost of the smaller bottles (the contents of one often sufficing to break up a bad cold) being 50 cents, and one of the larger, \$1.00. Prepared by Northrop & Lyman, Toronto, Ont.—2m-9.

LITERARY NOTICES—Frank Leslie's Sunday Sheriff's Office, Woodstock, Magazine. The number for April is an unusu- County of Carleton, March 16, 1882. ally attractive one; the editor, Rev. Dr. Talmage continues his interesting papers, "People I Have, Met" he also describes "What I saw of Mormonism," and in the "Home Pulpit" is a Sermon by him on the subject "Longevity." There are admirable articles, finely illustrated, entitled "A Missionary Explorer, (David Livingstone,) Reminiscences of an old New Yorkingstone,) Reminiscences of an old New Yorker," A Journey to the Oldest City in the World,"
"The Recent Canonization of saints at Rome," etc., etc. In the department of fiction "Prudence Winterburn and Margaret's Enemy are continued; a new serial by Geo. MacDonald, L. L.D., Weighed and Wanting, is commenced, and there are short stories, sketches and essays by distinguished writers. The poems possess great merit, and several are beautifully illustrated. The miscellany is, as usual, abundant, entertaining and instructive, There are besides, those interesting features, Editorial Comments,

"Religious Facts and Fancies," The Collection
Basket," Obituary Notices, etc., etc., so that as
regards the variety and excellence of the contents
the Sunday Magazine may challenge comparison with the best of its cortemporaries. The price of a single number is 25 cents, the annual subscription, \$3, postpaid. Address, Frank Leslie, 53, 55 and 57 Park Place, New York

Blackwood's Edinburgh Magazine for February, republished by the LEONARD SCOTT PUBLISHING Co., 41 Barclay St., N. Y., bears so close a resemblance to the originial that but for close a resemblance to the original that but for the imprint it is difficult to distinguish the two. In this number we have the second letter Juliet by Lady Helena Martin in which she explains the conception of her character, following its developement closely through the entire play. In 'The fixed Period' one is tempted to think the President of Britannula a trifle prosy, but the President of Britannula a trifle prosy, but the prosent applies to the new story. nothing of that sort applies to the new story "Pentock," which carries us right into the sea breezes. The review of Bishop Thirwall's letters is full of quotations and anecdotes, and in 'Romance in business' a chat about the Rothchilds, speculators and speculations, shows us the romance in the second speculations and speculations, shows us the romance in the second speculations of the second speculations and speculations are speculations.

Speculators and speculations are speculations are speculations and speculations and speculations are speculations and speculations and speculations and speculations are speculations. mantic side of bury lives. 'Electric Progress' is not an essay for scientists, but plain talk to ordinary people about what electricity has done and may do; and in confusion 'Maga' explains to its own satisfaction that 'Ireland is ruined,' and warns England to set aside her present ministers ere she meets with a similar fate.

GIVEN UP BY DOCTORS.—" Is it possible that Mr. Godfrey is up and at work, and and get their Wheat. Orders will be taken up to cured by so simple a remedy ?" "I assure you it is true that he is entirely A lot of Choice FAMILY FLOUR on hand at cured, and with nothing but Hop Bitters; the Mill. and only ten days ago his doctors gave him Geerge—I know hops are good."—Salem

times. A great want supplied to those that require green forage, and who does not? It is within the easy reach of every farmer and gardener in the Dominion and United States. From 60 to 100 tons of Green Feed Grown to the acre. 10 tons dry. It is the first Green Food in the Spring and the last in the Autumn. In fact it grows vigorously the entire season that the ground is open from frost. We cut plants this season on the first of June that weighed from Seven to Nine Pounds per Plant.

To the citizens of Carleton, York and Victoria As there has been much said about this plant I have taken the trouble to correspond with re- And I am selling better TEA for less money spensible men, and get extracts from reliable agricultural papers. I find that the Prickly Com-frey is especially adapted for the Feeding and Fattening of all Farm Stock, and for increasing the milk of cows. It grows more rapidly and luxuriantly than any other green soiling plant, producing three crops per season. No plant is so easily cultivated. The plants nce set and the weeds kept down for a short time, no further labor is required but the liberal aplication of manure each year, the roots remainng in the ground year after year.
Comfrey leaves are the first product of the εοίl in early Spring. It is claimed that with sets planted in the autumn the yield per acre of the first season will be twenty tons of green leaves, of the second. fifty tons, and of the third, eighty to over one hundred tons, and one of the best products for Encilage.

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, EXTRACTS FROM THE AMERICAN AGRI CULTURIST. "Prickly Comfrey as well as being a valuable plant for sei ling cattle, yielding an enormous amount of green fodder, is a native of the Caucasus Mountains, and withstands the coldest cli-mate; the animals thrive well upon it, and it is Tooth, Ear and Headache, Frosted equal in richoess to green maize."-American Agriculturist. January Number, 1877. "The leaves are greedily eaten by horses. No Preparation on earth equals St. Jacobs OIL as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its oattle and swine."-American Agriculturist, August Number, 1877. " It will improve the yield and flavor of milk very much. Comfrey and water will grow pigs fast."-American Agriculturist. November. 1878. "It is especially valuable for furnishing poultry confined in a yard with a supply of fresh vegetable food."—American Agriculturist. March,

A Protected Solution of the Protoxide of Iron

Is as easily digested and assimilated with the blood as the simplest food. When the blood does not contain the usual quantity of Iron, the deficiency can be supplied by the use of the PERUVIAN SYRUP. It cures a "thousand ills" simply by Toning Up, Invigorating, and Vitalizing the system. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon. This is the secret of the wonderful success of this remedy in curing
