

The young ladies of the F. C. B. Sewing Circle did themselves infinite credit in their arrangement for the carrying out of their Fancy Sale and Supper, on Thursday evening. It was well patronized, and a very pleasant and successful affair.

As we go to press the accounts from St. John regarding the result of the vote on the Scott Act are conflicting. The most authentic statement, however, is that the Act is carried by a majority of one from one to three votes. A recount may alter the vote one way or the other.

Owing to a collision between the Night Express and outgoing morning train from St. John, on Wednesday morning, no St. John mail reached here either Wednesday or Thursday evening.

Local Legislature was opened on Thursday last, by His Honor the Lieut. Governor, in the following

ADDRESS:
Mr. President and Honorable Gentlemen of the Legislature of the Province of New Brunswick, and of the House of Assembly:

I am happy to be able to express to you my full appreciation of the auspicious circumstances under which we meet. The affairs of the Province appear to me to be in a very favorable position; our people are reaping the rewards and the advantages of their own industry; the labor of the farmer has been followed and crowned with the blessing of Divine Providence; and the commercial and trade depression, which for so long a time was so general and injurious, is rapidly leaving us, it has not already wholly passed away. We should be devoted to the study of the Supreme Giver of all good for those manifestations of His mercy and goodness toward us.

I congratulate you, also, that the provision made for the construction of Legislative Buildings has resulted in the completion of this handsome edifice. I trust and think it will be found well adapted for the purpose to which it is to be devoted, and a fitting place for the meeting of the representatives of the people in the Legislature of their own Province. While it is our duty to preserve steadily our internal and independent rights, in legitimate subjection to the recognized functions of the Federal authority under the Constitution, it is equally important to maintain those institutions which are essential to the efficiency of the service and the good government of the Province, with the dignity becoming their importance, at the same time having due regard to economy consistent with our financial ability and public requirements.

You are aware that a good deal of attention has been particularly directed to the subject of the agricultural affairs of the Province. For some time past my advisers have devoted much time to their consideration. It is quite to be expected that in a young country like ours, great interest will be felt, especially by the younger portion of the population, in all those subjects which are intimately connected with the welfare of the Province and their own success in life. This is a subject peculiarly within our competence and jurisdiction. The right discharge of our duties in relation to agriculture will necessarily afford additional incentives to our young men to settle themselves contentedly within our boundaries on our valuable lands so easily accessible to them. This is a matter of present and pressing importance. I believe the policy of my Government on this subject has thus far not only evoked your approval but also the approval of the people at large. I am glad therefore to assure you that the money granted by you during the last session for the improvement of improved breeds of stock has been expended in a way which I think warrants me in hoping for gains and improvement in that direction of a rural culture. In continuation of that policy and influenced also by conviction matured after careful consideration of the opinions of the Board of Agriculture and of Agricultural Societies, and of leading agriculturists, my advisers concluded to issue for a term of years a property to be used as Provincial stock and breeding farm, and to utilize a certain portion of the recent importation of cattle for stocking such an establishment. The purpose of this property is to be, respectively, will be laid before you on an early day, and I confidently rely upon your sanction of a transaction so deeply associated with the public weal.

The further settlement of the Public Lands is a matter of great importance, and my Government have fully considered the expediency of obtaining and disseminating accurate information in relation to them. It is understood that the general geological survey now proceeding under direction of the Federal Government is approaching completion, and I have no doubt the publication of the results of the survey will place us in possession of valuable knowledge of the geological and other characteristics of our lands—of which it is the intention of the Government to avail themselves as circumstances may suggest, so that all additional desirable information may be brought within the reach of intending settlers to a practical and convenient form.

Mr. Speaker and Gentlemen of the House of Assembly:
The income of the accounts and expenditure of the past year as well as a statement of the receipts and payments of the current year up to the opening of the present session, will be laid before you.

The estimates of the probable income and of the necessary expenditure for the current year will also be submitted to you, and I think you will find the estimates of expenditure have been prepared with due regard to the public weal.

Mr. President and Honorable Gentlemen of the Legislature Council:
Mr. Speaker and Gentlemen of the House of Assembly:
Bill relating to the collection of debts: in amendment of the Acts relating to County Courts, whereby increased jurisdiction may be given to such Courts; conferring additional powers upon Trustees of Schools, and by which the building of school houses may be rendered less burdensome to the ratepayers; and other measures of importance, will be laid before you, and to these I invite your careful consideration.

Commanding you to Divine direction, and trusting in your wisdom and patriotism, I leave you to the discharge of your honorable and responsible duties.

UNEXPECTED SUCCESS.—PROVINCIAL ESCAPE OF SHIPWRECKED VOYAGERS.—At 3 o'clock on the morning of the 30th of last December, the steamer Moravian, of the Allan line, bound for Liverpool via Halifax, when on her way from Portland to the latter place, ran ashore on the southern point of Mud Island, some fifteen miles from the town of Yarmouth, Nova Scotia. A still breeze was blowing at the time and a heavy surf running, and the situation was one of peril. It was found that the forward compartments had filled with water and orders were given to lighten cargo while preparations were made to land the passengers on the island, with a supply of food and clothing. The landing was safely effected, but the cold was intense and some of the party were severely frostbitten. On the ship's manifest was a consignment of St. Jacobs Oil, which the Toronto House of Vogel & Co., of Baltimore, Md. had just shipped to Francis Newberry & Sons, London, to sell in English orders. The part it played in the catastrophe is described in the following article, which we quote from the Yarmouth (Nova Scotia) Tribune of January 18th:

"The passengers given to Divine direction, and trusting in your wisdom and patriotism, I leave you to the discharge of your honorable and responsible duties.

Mr. President and Honorable Gentlemen of the Legislature Council:
Mr. Speaker and Gentlemen of the House of Assembly:
Bill relating to the collection of debts: in amendment of the Acts relating to County Courts, whereby increased jurisdiction may be given to such Courts; conferring additional powers upon Trustees of Schools, and by which the building of school houses may be rendered less burdensome to the ratepayers; and other measures of importance, will be laid before you, and to these I invite your careful consideration.

On the ship's manifest was a consignment of St. Jacobs Oil, which the Toronto House of Vogel & Co., of Baltimore, Md. had just shipped to Francis Newberry & Sons, London, to sell in English orders. The part it played in the catastrophe is described in the following article, which we quote from the Yarmouth (Nova Scotia) Tribune of January 18th:

Poverty is bad, but the worst kind of poverty is poverty of the blood; this makes a man "poor indeed," for it takes away his strength, courage and energy; but enrich the blood with its vital element, iron, by taking the Peruvian Syrup (a proteid of iron), and you will feel rich and "as good as anybody." Try it.

A GOOD HOUSEWIFE.—A good housewife, when she is giving her house its spring renovating, she has in mind that the dear inmates of her house are more precious than many houses, and that their systems need cleansing by purifying the blood, regulating the stomach and bowels to prevent and cure the diseases arising from spring malaria and miasma, and she must know that there is nothing that will do it so perfectly and surely as Hop Bitters, the purest and best of medicines.—Concord (N. H.) Patriot.

Mack's Magnetic Medicine is an unailing food for the Brain and Nerves, and by its rejuvenating effect on these organs never fails to cure nervous exhaustion and all weaknesses of the generative organs. See advertisement in another column.

"Must say it's the nicest thing I ever used for the teeth and breath," says everyone who has tried "TANBRAY," the new toilet gem. Get a 5 cent sample.
