Beston, Nov. 4.—A. M. Sullivan, M. P., lectured in this city to-night. In sketching the work of the Land League since 1879, he declared that, in their wildest hopes and most ambitious demands, they never asked for as much as was given in Gladstone's last Act. Already something like 30 per cent. of the whole rental of Ireland has been taken from the shoulders of the people, which was the greatest and most tremendous revolution ever accomplished by legislative effort in Europe. AT ALL SEASONS, but particularly during the winter, persons whose lungs and chests are weak should take every precaution against a cough or cold, as the breathing organs if naturally feeble speedily succumb to its ravages. In spite of sanitary precautions, however, coughs are very apt to fasten themselves upon weak lungs. In such a case ordinary prudence dictates the prompt use of a reliable specific. The best substitute for them is the highly sanctioned, long recognized remedy, Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of lime and soda. As is well known the action of Cod Liver Oil is particularly marked in lung, rheumatic and strumous diseases. In this preparation it is characterized by peculiar purity. The phosphorus in hypophosphites furnishes a vital element of the blood, brain and nervous tissues, and the lime and soda supply the strengthening properties to the bones of which they are natural constituents.
