should have public water works?" The ques- tisements in the SENTINEL, at our best rates. is for after consideration, and involves num-erous questions which cannot be discussed to The Garleton Sentinel. any advantage until the report of the committee, appointed by the Mayor, at the citizens meeting, is laid before us. There are few, I think, who will deny that a water supply would be a great public benefit to the community; and fewer still I hope, whose faith in our resources, and the enterprise of our people, is not sufficiently strong to forsee that sooner or later the town must and will have public water works. It is a reasonable action on the part of the Town Council and the cit zens to take proper steps towards as held on Thursday evening of last week; was certaining the different water systems practicable, and the cost of each. When we learn definitely what can be done and what it will cost to do it, we will be in a position to discuse work should be undertaken. The matter secretary. should not be gone into hastily, merely upon an impulse of the hour, but should be carerespects, and gone about in a regular business- called, and briefly stated the object, like and methodical way, remembering that the town is growing and has a future before it, and if the time has not yet arrived when the population is sufficiently strong in prosperity which is at present noticeable will protective and domestic uses. soon bring us to that happy condition.

accumulation of wealth in the community. It will be allowed that the buildings in Woods the exceptions to this somewhat sweeping section, are an inferior class of structures—stock, are an inferior class of structures—the exceptions to this somewhat sweeping section for the principal reasons for this I believe is, that the stores and other buildings have been respective excellencies; to the adorphore in the stress of the subject. Mr. Connell referred to the different systems of the measure, no sound argument can be urged, while on the contrary it is one just in itself, to. Calment the part of the part of the part of the part of the measure, no sound argument can be o draw-back to the town, I would not think it the town, on the members of which he bepossible to doubt, were it not that I have stowed much praise, and in regard to the heard such a doubt expressed. It has actually rates of insurance, would amount to a sum been advanced by some that the insurance money collected after the late fire fully made equivalent to the amount of annual outlay up to the community the loss entertained. involved, even if the more expensive of the Parties who make such statements, not only systems is adopted. Of course the sysdestroyed, compared with the amount of the insurance collected, but forget that the ener- so far as general principles go-the supply gies of those citizens whose properties were burned are diverted from their ordinary means. Mr. Connell presented the latter as the cheapof earning money, to providing a home for est. themselves and families, and the business of the place is retarded in consequence. But it Mr. Connell stated that the people of the is not only those who were actually burned town had been paying some \$15,000 in inout that have suffered by these fires. I believe surance premiums, while the present intimascarcely a merchant can be found in Wood- tions are that the rate is to be largely instock, to-day, who has not in some way, to a greater or less degree suffered directly or inhouses curtailing their usual expenditure do, lessened the amount of insurance upon with in the spring, causing a falling off in their property, under the feeling of safety town trade this winter of which we hear and ready protection which would follow the general complaints. If your readers will fol- establishment of water works. Then he eslow out this line of thought many other arguments will occur to them, all going to prove the water at \$3,000 per annum; this estithese fires cause inestimable financial trouble mate is very nearly the same made by the and pecuniary loss to the community, and re- SENTINEL awhile ago, which is probably much tard the town in its onward progress. If too low—and at all events it is a revenue that waterworks will enable us to check and con-trol fires as they occur, who will say it is not will be constantly increasing with the indesirable to have them? and what town in crease of postation, of habitations and of the Province, or I may say in the Dominion, industrial establishments.

moted for the wealth of its citizens; the old appearance of the business portions of the town are standing monuments of the excellence of its water supply, and the value of its public water works. I lived for five or six years in that city, and witnessed many fires in it, and during all that time I never knew of a fire being allowed to extend beyond the supplements of the being allowed to extend beyond the supplements of the complement of the save themselves, until the flames overwhelmed them and they fell in their last embrace.

Thus another is added to the long list of railway horrors, the result of stupidity or allowed to extend beyond the office protection, sanitary, domestic and method and special possition to the re-appointment of Mr. Tapley had expended wrongly some that Mr. Tapley had expended wrongly some th building was of woods stone or brick. I am not prepared to say how much of the well was seconded by Col. Tupper, and known wealth of the Haligonians is attributable to the protection their property has had from fire, which has so much crippled and retarded the accumulation of wealth is other ready appointed by the Town Council, should places, but it is safe to say that this protection the latter consent : Messrs. John Fisher, Jr. has greatly facilitated and accelerated its Wm. Drysdale, B. Lynch, H. A. Connell,

The first resolution at the citizens' meeting and Wm M. Connell. was to the effect that a water supply is desirable for fire protection, sanitary and mechanical purposes. Perhaps I have said enough about fire protection, as probably it is the purpose the desirability of which will meet with least opposition; at all events no objection can be made to the Lorislature of the lorisla But an objection to the second purpose, viz , sanitary, was raised because the water would be used for baths, &c. That the want of water in our houses for baths and other down water in our houses for baths and other down water in one of the greatest draw visable to erect for the supplying of said Town rose.

We take pleasure in adding our testimony f the good effects of the Pain-Killer. We have sold a great quantity of it during the past nine years, and believe it to be a good J. D. TULLY & CO., Druggists.

HOLLOWAY'S OINTMENT AND PILLS .- A requent cause of gout and rheumatism is the nflammatory state of the blood, attended with bad digestion and general debility. A few doses of the Pills taken in time are an effectual preventive against gout and rheu-matism. Anyone who has an attack of either should use Holloway's Ointment also, the powerful action of which, combined with the operation of the Pills, must infallibly effect a cure. These Pills act directly on the blood.
