It was estimated that 500 persons visited the grounds during the day. The sports were varied, consisting of swings, merry-go-rounds, a ten pin alley, dancing rostrums, &c., &c. Several booths were erected for the sale of ice cream, beer, lemonade, eatables, &c , and there was a large dining booth in which dinner and supper were served. The British and American flags and ensigns were used for decorations. Every one seemed anxious for the comfort of every one else, hence every one was happy. The very best of order prevailed. The object of the picuic

was to raise funds towards finishing the Priest's residence, a fine new structure on the site of a new one destroyed by fire some two years ago. Mayor Fraser, of Halifax, N S, accompanied by his sister, Mrs. Thompson and her son, reached here on Thursday evening of last week from Grand Falls, leaving next morning in steamer "Florenceville," for Halifax. While here his Worship was waited upon by Mayor Jones and other citizens. Mayor Fraser expressed himself, in warmest language, delighted with his trip to the up river sections of the St. John, than which, he says, the tourist may seek in vain for a more interesting field of natural scenery or rural pleasures. He was not only charmed with the sublimity and grandeur of the scenery at the Falls, but was as well captivated with the home comforts given him and party at Miss Watson's hotel, and pleased with the attention and information received at the hands of that Prince of Jehu's, Fred Howard. July 11, 1883. Since last our quiet little place was heard four doors from Main Street, from through the columns of your paper things then represented as doing well still continue to do so. Farmers have finished the putting in of crops and are now soon to begin the work of cutting hay, having enjoyed little or no rest between seed time and harvest. The hay crop as well as other crops never promised to be much if any better. Hoeing is being done as well as work on highway roads.

Strawberries have been very plentiful but owing to large quantities picked and advancement of the season they are becoming scarce. Some of our friends were in attendance at District meetings held at Fort Fairfield last week and report a pleasant and profitable time. School closed on Friday for vacation. The attendance has been good so far this term. The attendance has been good so far this term. The teacher Wm. F. Hamilton intends visiting his friends in Westmorland Co., during the term.

Mr. Geo. Squires, Sr., for the past six months has been very low and still remains so. On Tuesday, 3rd inst., Ellis Olmstead, son of Albert Olmstead of this place, had a narrow escape from drowning, while bathing along with Thos, Turney and Nelson Estabrook, in the Meduxnakik, near A. Stephenson's, Eeq. The current was quite strong and going off, suddenly, into deep water he was borne down stream. His comrades were not conscious of his danger so no attempt was made to rescue him. Seeing he was getting some distance below them and they failing to see him the thought was that he was drowning, when Estabrooks immediately swam after him and found him (as water was not very deep) in an eddy, and to all appearances dead. He was immediately taken to the bank where the fearful yet brave fellows did what seemed best to restore him to life, and after working patiently for some time were happily successful CHILDREN'S PERAMBULATORS patiently for some time were happily successful in seeing signs of consciousness, and in a short time he was so far recovered as to be able to walk to a neighboring house. We spent that night and the next day in St. John. On Saturday, June 2nd, we left St. John for Halifax, N. S. The day was bright and beautiful, all that either traveller or farmer could desire. The parts of country through which the I. C. R. passed were seen at their best; the secenery was very fine. Lakes and rivers, intervales, thriving villages and rising towns, with new, pretty residences, successively and rapidly burst upon our view as the Iron Horse drew us onwards to our gaol. At dark we arrived at Halifax, which is 276 The minister who was on the lookout for Hungarian Patent Flour. me missed me, so I spent the day in peace, and had the pleasure of listening to two excellent sermons in Grafton St. Church ; that in the morning being preached by the Rev. F. H. W. Pickles e one in the evening by the Pastor, Rev. J. S. Teasdale, who admin-istered the ordinance of Baptism to two candidates, and received several others into the Church. I spent a very happy Sunday. On Monday, 4th June, after a walk round the "citadel," we embarked on board the S. S. "Hibernian," and sailed at 12.30, p. m. Our ship was neither the fastest nor largest -the fastest being the " Alaska," and the largest the "Great Eastern"—but a good, strong sea-worthy boat, 375 feet in length, of strong sea-worthy boat, 375 feet in length, of 3,240 tons, and engines of 1,900 horse power, No sun was visible when we sailed, and an hour and a half after we were in a dense fog which necessitated the constant use of the fog whistle for a long time, to the great annoyance of the passengers who numbered China, Crockery, about one hundred in all. The fog continued till 9, a. m. On Wednesday, the 6th, immediately after the fog lifted, we sighted land and soon after passed Cape Race Light House, which is connected with St. Johns, Newfound-land, by telegraph; we signalled, and were reported at St. Johns.
