OUR

Our business records show that we have over twelve hundred customers in the County of Carleton and adjacent Parishes in York and Victoria. We have always had a good staff of local agents in the district, but they were hampered in their operations by the depot of supply for re-pairs for goods sold, being so far away. As our business shows a large and steady increase each succeeding year, that of 1882 showing a propor-tionately greater ratio of increase over 1881 than

of 1881 over 1880, we determined to build a Warehouse at Woodstock and dwelling for a supervising agent, so as to foster and maintain our cordial relations with the Farmers of this Our New Building,
