And bere we may remind those interested that in ence has been made to the probable value of the old buildings and land, or to the revenue that may be derived from offices, &c., in new court house. This may fairly be regard ed as an important asset or offset toward the debt to be incurred. For reasons previously stated we have been unable heretofore to give these points consideration.

Our present correspondent has his reference to the town and its interest in the matter. Well, since this agitation has been going on we are safe in asserting that we have not heard the subject mentioned in any Leather, lamb, sheep, buck, deer, elk and way by half a dozen residents of the Town antelope, dressed and colored, or not, 10 per hence we conclude a strong interest in the subject is not felt. As to th point about the Town taxing the County buildings, all we can say is that w Marble in blocks 15 cubic feet and over, know that the County owned for many years a building in the Town as it now owns land here, and we are safe in saying that property has never paid taxes. So that the disposi tion of the Town has not been grasping or grinding in that direction. When the pro perty of the County enjoys the protection provided at the expense of the Town, the matter of taxes is not a large one anyhow. We remind our correspondent that a bond is not a mortgage, and the use of the latter term is not correct in this connection.
