FOR THE CARLETON SENTINEL. OUR LUMBER TRADE. MESSES. EDITORS,-I find the Editor of the St. John Telegraph follows in the steps of his learned predecessor, harping away at the "National Policy," and imagines he has

added another spoke into his wheel, manufactured out of the letter sent to Sir John McDonald by one Mr. Mackasey, of Halifax, " on the lumber trade.

justified the burdens he imposed in his tariff upon them the responsibility of an Exhibition Debec. The Editor says: "It is yet fresh in the upon the lumber trade, by saying that it was "a waning industry." In no way could the Minister have better illustrated his well known reckles ness, in making statements of alleged facts. The lumber interest of Canada is far from being on the decrease." As for Mr. Mackasey's indictment framed against our National Policy and laid before Sir John necessary. McDonald, the Telegraph fails to say how Leonard's recklessness not worth the paper wick is concerned, it is well known Sir Leon. | give below the entries that contested. ard Tilley's remark as to our lumber trade being on the wane, is perfectly correct, and chie, M. Philbrick; Mr. Murchie acting as those who are doubtful of the fact let them starter. Timers-W. P. McFarlan, Woodstock, s. g., Major Anderson prize in the lumber trade, to build mills and stock them, to meet the wants of our pioneers devoted to agriculture. While our monopolists can lay-back robbing our forests of her virgin wealth. And as a recompense to assist the opening up of our country, they will bring or send some Sub., with a scanty lot of provisions and a large amount of shoddy, to palm off on the farmers for their hay, oats, beef and farm produce; or they will allow a chance to the farmer to hau! logs for them, off of their locked up farms at \$4 per M. Superficial feet, and when the season closes, and and Dominion Boy. the survey bill rendered with bill of particulars, the operator finds his logs has cost him \$7 per M., to get them, which he only gets
\$4 for. paying the lumber trader \$3 per M. for the liberty to toil for them. And if the farmer has a valuable horse, cow or sheep, out of a great compliment they may take it to reduce the debt, if the logs failed to square the bill. So if the Editor of the Telegraph and Mr. Mackasey can point out any locality that has been built up by the lumber trade, where the lumber was taken from it to be there is some virtue in it. But my impres sion is the way its now carried on, by monopolists, its more than a curse to our country, where it grows, than a blessing; and no agricultural pursuits are healthy when the trade exists, unlesses it's manufactured before it leaves. It's high time for some of our men monopolists on the same footing we are.

Most Respectfully, Yours, P. O. BYRAM. Madawaska, Sept , 1883.
