NOVA SCOTIAL ENTERPRISE. - We copy the following from the Weekly Telephone, of the 7th inst., which we trust will be read with

interest by our readers : For many years MINARD'S LINIMENT Was but little known from the fact that the inventor did not believe in using Printer's Ink, yet it gradually found its way into every house in Nova Scotia, on its own merits, and but one opinion prevails both by the users and those who have witnessed its wonderful cures, that it is the best Pain reliever and Inflammation allayer in the world.

In the early part of 1881, W. J. Nelson, of Bridgewater, N. S., purchased the patent right to manufacture this justly celebrated medicine, and by the free use of printer's ink, coupled with "push," their sales have reached during the past two years many thousand dollar's worth ; and now MINARD'S LINIMENT is a household word, and the standard cure-all in Nova Scotia, New Brunswick, P. E. I. Island, Newfoundland, Bermuda and the West Indies, with a rapidly increasing demand in the United States. As a result of this success the proprietors intend starting a Branch Factory in Boston, Mase., during the present year. The worst types of Erysipelas, Salt Rheum and "Old Sores" often when pronounced incurable by medical men, are treated by the proprietors of this medicine free of charge, and in most cases cured. The output from the Bridgewater Factory for the past year has been over fifteen million of bottles, and there can exist no doubt but that the enterprising proprietors of MINARD'S 98 LINIMENT will, by the free use of printer's ink and the merits of their Liniment in a few years, be recognized as the largest manufacturers of patent medicine in the Dominion,

FOR THE CARLETON SENTINEL. THE MANUFACTURE OF PIPE ORGANS

The attempt has been made several times to build pipe organs in St. John, but owing to the fact that the pipes which are the most organ could be manufactured for in St. John. Through the enterprise of Messrs. Greenwood, Paine & Wetmore, this difficulty has heen entirely overcome by the introduction of pipe manufacturing in connection with their organ factory in this city.
