Jottings.

Mr. C. R. Watson has his new store, corner of Main & Connell streets, fitted up in a most attractive style. The inside, with its rail and counter of ash and walnut, its carpeted floors, elevated platforms, and neat arrangement of handsome organs and various styles of sewing machines presents a very pleasant aspect, while outside, over the door, stands a finely executed sign, imported from Toronto. Mr. Watson informs us that he has just secured the agency for the celebrated "New Williams" sewing machine.

I. G. Hersey, Esq., of Houlton, delivered an address on "The Scott Act," under the auspices of Storm Club Lodge, I. O. G. T., in the Town Hall, on Tuesday evening. The chair was occupied by J. T. Fletcher, Esq., and the meeting opened with a few pertinent remarks from Rev. G. M. Campbell. Mr. Hersey delivered a sound, practical discourse, showing the necessity for, the justice of and the duty of citizens in regard to prohibitory liquor laws. Owing to the heavy rain the audience was not large.

When are the sidewalks of the town to receive the attention that their fearful condition so imperatively calls for. On Chapel street, especially, the condition of the sidewalk is dangerous in the extreme.

Rev. W. R. Pepper, having received leave of absence for a period, accompanied by Mrs. Pepper, left Benton on Thursday morning, en route for Halifax, to take steamer for England, to visit his friends there. We wish Mr. and Mrs. P. a pleasant and enjoyable trip and a safe return.

Through S. Milbury, Esq., Wicklow, we are in receipt of copies of the *Two Republics*, the only English paper printed in the city of Mexico, from his son F. S. Milbury, who is now practising his profession in that city.

On the 24th May the noble bridge structure connecting New York and Brooklyn was opened to public use. It was a grand fulfillment of a stupendous undertaking.

During the week numbers of Italians from Boston have been brought to Fredericton to work at pipe laying in the streets of that city. The Water Works contractor was unable to find sufficient laborers at home for the purpose. It is anticipated that water will be turned on on the 1st July.

Mr. W. B. Mills, of Beaufort, died at his own residence, the 24th inst., after a brief illness of congestion of the lungs. The deceased had very many friends in this county who will be pained to hear of his demise.

The Emperor and Empress of Russia were crowned on Sunday amid unrivalled magnificence of ceremony and without any manifestation of violence on the part of the people.

Lydia J. Irvine, Peel, sends us a copy of the first number of the first paper published at Moosejaw, North West Territory, for which she has our thanks.

Thanks are returned to S. D. Wood, Butte, Montana, for papers.

Rev. Alfred Trafton occupied the F. C. B. pulpit, morning and evening, Sabbath last.

Harper's for June comes to us from Mr. W. H. Everett. It is an interesting number.

Canterbury Items.

May 29, 1883.

It is high time, Messrs. Editors, that you heard from this section of the country again.

SKIFF LAKE

is already receiving a goodly share of tourists and sportsmen from Boston and various parts of the United States. The Messrs. Jefferson, who spent some time there last summer and sent such glowing accounts of the place to the N. Y. papers, are expected back this summer, accompanied by other members of their family and friends. We are promised some musical and theatrical entertainments by them on "Jefferson Island." Many of your overwrought fellow townsmen, Messrs. Editors, would be wonderfully refreshed and recuperated by a week or ten days' inexpensive and innocent recreation and rest among its numerous islands and under its sylvan shades. At the foot of the Lake there is a house built for the convenience of tourists, provided with a cook stove, where rest and quiet may be found. Provide your food and raiment, go to Canterbury Station by N. B. R., hire a team to take you to Mr. S. Gould's or Jas. McMullin's, who will safely sail you o'er the silvery tide.

JAMES H. CARR & SONS

are doing a good, pushing, paying business with their steam saw mill, which manufactures a great deal of lumber, shingles and clapboards, to the convenience of the farmers in the vicinity.

AT CANTERBURY STATION

business is tolerably brisk. The Messrs. Cummins are erecting a very fine building to be used as a general store with dwelling house overhead. We understand these enterprising gentlemen intend to do a "cash" business, taking for their motto "small profits and quick returns." The residence commenced by Jas. H Carr last summer will be finished this summer, and is expected to be the handsomest building here; though the Station is becoming noted for its fine residences. Dr. H. C. Keith, who has been here but a few months, is winning golden opinions and meeting with general favor. We have been favored with religious services from Rev. Messrs. Orser, Pepper and Blair; the latter gentleman will preach here regularly through the summer. But we have too much rum and too little religion. There is some talk of a Temperance Society being organized, which we hope will be the case.

AT EEL RIVER

Religion has been well to the fore for the last few weeks. *Special* services have been held by Messrs. Wiggins and Baker and Revs. J. B. and A. Trafton, with gratifying success. In all about thirty-four candidates have been baptized. The doctrine of "Entire Sanctification" has been prominently and successfully brought forward. Rev. W. R. Pepper and Ed. T. Miller have maintained their ordinary fortnightly services. The former on Sabbath last preached his farewell sermon here, baptized one candidate and received two members into the church. He leaves here, with the respect and good wishes of all, for his home in Great Britain next week.

CROPS FOR 1883.—*New York, May 21.*—The *Times* in a twenty-one column crop report, covering 129 special points in thirty different States, shows that the wheat crop will probably exceed that of the average of the last ten years—354,000,000 bushels—but will fall below last year's enormous product of 502,000,000 bushels. The Central States will yield from 20 to 25 per cent. less than in 1882, against which is offset a great gain in the North, West and central Western States and Territories. A considerable part of the falling off of the wheat product is due to the fact that large Western farmers find it desirable to turn their crops into corn and feed the corn, thus producing cattle which can be most easily handled and at a less expense.

It says editorially:—"The most notable and significant feature of the reports is that they afford a hopeful view of general crops other than those which enter most largely into exports. This is largely due to an increased acreage. The hay and oat crops promise very large yields. Upon a careful survey of the whole field, we believe the inference is fully justified, that while we shall not have a booming year, which is not to be regretted, there is a solid basis for a healthy, progressive, profitable general trade."

OYSTERS come packed in ice this month at Seaborn's. Strawberries and ice creams every evening. Young ladies will provide themselves with liberal beaux for the season. Married men bring your better halves, and treat to Oysters, ice cream or Strawberries and Cream, and thus prove to them the pure, genuine love that lies buttoned up under the left side of your vest.

May 31st, 1883.

Those who deaden sensation and stupify the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. *This method, carried to the last extremity, would kill the patient to end suffering.* It is not presumed that Lydia E. Pinkham's Vegetable Compound will raise the dead but it often does restore those who are given up as hopeless cases.

Napoleon Paquette, of Montreal, writes:—
65 St. George Hypolite Street,
St. Jean Baptiste Village,
Montreal, Feb. 17th, 1883.

Mr. L. A. Knight:

DEAR SIR,

I have suffered from Asthma since 1876, and since 1879, have had it constantly until I found relief in your medicine.

I commenced taking your ASTHMA CURE the 1st, of last Sept., and in a very few days after taking it and bathing as directed, I was greatly relieved.

Since that time I have constantly kept it in my house taking it as needed.

KNIGHT'S ASTHMA CURE is the best medicine I have ever taken.

I send this testimonial as an appreciation of what it has done for me and for the benefit of suffering Asthmatics.

Yours truly,
NAPOLEON PAQUETTE.

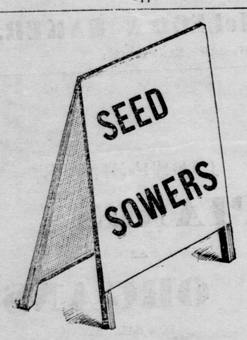
The Hambletonian Stallion, BAY DOUGLAS
AND HIS BREEDING

GEN. WITHERS, the leading breeder in Kentucky, makes the generous admission that the daughters of Seely's American Star have produced double as many Trotters with records below 2 20 than all the daughters of Hambletonian and Mambrino Chief combined, and Rysdyk's Hambletonian most famous sons and daughters were out of dams by Seely's American Star. In this distinguished group are, Dexter, 2.17¼; Nettie 2 18; Dexter, 2 18; Robert McGregor, 2.18; Orange Girl 2 20. Hambletonian did not furnish a single 2.30 trotter from any other family. The insignificant sum of one hundred and fifty dollars, when he was low in this world's wealth. The colt grew into favor and at two years of age he gave him the name of Rysdyk's Hambletonian and at once commenced his stud duties. In this season he got the most famous colt of his life, Alexander Abdallah, sire of Goldsmith Maid, record 2 14 for many years Queen of the Turf, with which laurel she retired at the age of 21. This horse sired Almont—sufficient renown for any horse—with twenty of his get in the 2 30 list and four better than 2 20. Old Hambletonian's fee the last seven years of his life was five hundred dollars by season, his only terms, and limited to thirty mares. Dying at the age of twenty-seven years, the most celebrated horse of any period. This revenue from this horse lifted his owner to a position of influence, leaving to his family over three quarters of a million of dollars when he died. The breeder will understand the fascination there is in the name Rysdyk's Hambletonian, and the strong inducements to get up a fictitious and fraudulent pedigree. An approved pedigree can alone come from John H. Wallace, of New York, to whom all persons should apply when buying an American bred horse the owner's pedigree is not reliable at all times. Bay Douglas is a great-grand son of Rysdyk's Hambletonian, and brother in blood to J. P. Morris, who has shown trials in 2.15 and 2.16, with a record of 2.20¼ made in the Grand Circuit in the States. I will keep this horse's performances before the readers of the SENTINEL as soon as he opens the season. The dam of Bay Douglas was got by Vesuvius imported from Kentucky in 1865 by John H. Reid, long identified with the agricultural interests of York County, and his thorough knowledge in this line admits of no dissension. Vesuvius was out of Lux, a celebrated long distance racer. Her greatest achievements were at four miles. This mare was by Wagner, greatly distinguished for his four miles winnings. He being an inbred Diemed, the most celebrated sire in his day, and the only blood with Messenger to beget trotters, as I shall now make substantially plain to the breeders.—Continued.

BAY DOUGLAS will make the season of 1883 at $5.00 single service; $8.00 season, to be paid when served; and $10 00 to insure with foal, $2 00 at time of service.

JAS. D. REID,
Opposite Gibson House.



SOWING SEED

By hand is an uneven operation. A part of the land gets no seed, and part gets too much—Where the crop is well grown it makes a bad showing on this account. Sowing seed by hand is a very extravagant way, more is sown to the acre in that way than there is real need of.

Seed Sowing Machines

are so constructed that those who ride them can sow any given quantity per acre. Some are elaborate in construction, with complicated gears liable to break and very costly. Others are much more simple in make, do equally good work, and cost from one-half to two-thirds less than the first named.

Using our best judgment as to the needs of our customers, we secured the agency of

MANN'S
Broad-cast Seeders.

They are made as an attachment to Horse Hay Rakes, and as independent Seed Sowers for either one or two horses. They will sow every kind of seed from fine to coarse at the rate of an acre in eleven or twelve minutes. Any boy who can read coarse type and drive straight can properly adjust the MANN SEED SOWERS and sow any kind of seed or Fertilizer used in this Province. It works well in very windy weather, sows evenly then and always, and

SAVES A LARGE QUANTITY OF SEED,
and much time and heavy walking.

We can guarantee them to give satisfaction upon the experience of eighty leading farmers in this Province who purchased MANN'S SEEDERS from us in 1881 and 1882.

Hop Bitters are the Purest and Best Bitters Ever Made.

They are compounded from Hops, Malt, Buchu, Mandrake and Dandelion,—the oldest, best, and most valuable medicines in the world and contain all the best and most curative properties of all other remedies, being the greatest Blood Purifier, Liver Regulater, and Life and Health Restoring Agent on earth. No disease or ill health can possibly long exist where these Bitters are used, so varied and perfect are their operations.

They give new life and vigor to the aged and infirm. To all whose employments cause irregularity of the bowels or urinary organs, or who require an Apetizer, Tonic and mild Stimulant, Hop Bitters are invaluable, being highly curative tonic and stimulating, without intoxicating.

No matter what your feelings or symptoms are, what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use Hop Bitters at once. It may save your life. Hundreds have been saved by so doing. $500 will be paid for a case they will not cure or help.

Do not suffer or let your friends suffer, but use and urge them to use Hop Bitters.

Remember, Hop Bitters is no vile, drugged, drunken nostrum, but the Purest and Best Medicine ever made; the "Invalid's Friend and Hope," and no person or family should be without them. Try the Bitters to-day.

SPRING BEDS
—AND—
MATTRESSES!

HAVING secured the sole right for the County to sell the HUTCHING'S SPRING BEDS and MATTRESSES, I am now prepared to fill all orders in that line cheaper than any one in the trade.

Mattresses
In Wool, Flock, Excelsior, Fibre, Corn Husk or Curled Hair;

FEATHER BEDS AND PILLOWS.

FURNITURE

of all kinds on hand and made to order. HALL, CHURCH and SCHOOL FURNITURE a specialty. I have a good $5,000 stock on hand from which to select and at prices to suit my customers. Parties wanting Furniture need not leave home to purchase it, as I can do as well for them as the outside markets. I have a Sample Room in Town, opposite G. W. Vanwart's Dry Good Store now, but will remove—May 1st—to two doors below Gibson House, where I shall have a full line of Goods. Having good Machinery and a Dry House, and the best workmen that can be got, and an experience of thirty years in the business, I feel that I can do justice to the public.

Thanking my customers for the very liberal patronage in the past, and hoping for a continuance of the same,

I am, yours truly,
A. HENDERSON.
