One of his favorite topics was reform in the administration of affairs in the Indian empire, and so fully were his efforts in that direction appreciated that his entire election expenses in 1875, when he was returned for Hackney. were paid from a fund raised by Hindoos for that purpose. In the House of Commons, on account of his warm interest in Indian matters, he was styled the "member for India." As an author, Mr. Fawcett was much esteemed; his writings are chiefly on political economy. The career of the late Postmaster General is the more remarkable because of his blindness. When some 23 years old, and studying for the bar, after a promising univ. raity course, he was out with a small party one day partridge shooting. He had become separated from his party, a small of assumpsit for work and labor done by hillock intervening. One of his companions plaintiff in the remodelling of the Methodist fired at a covey of birds which flew over this church at Woodsteck, and which is now behillock, just at the moment when Mr. Fawof the leaden shot lodged in the retion of his eyes, causing instant and total blindness.
