LOND N JULY 23.—The Marquis of Salisbury, addressing a Conservative demonstration at Sheffield, yesterday said it was absurd to suppose that the members of the House of Lords, who were mostly landlords, had any cause to dread the agricultural laborers. He insisted on the necessity of appealing to the electors before the franchise bill was passed and said the Government insisted on the franchise measure in its present shape because it desired a change of tribunal before the matter was brought before the jadgment of the people The Government was airaid to ask a verdict of public opinion where all ne the verdict was legiting a obtained, but summoned a procession, in agining that 20,-000 radicals amusing themselves in London on a given day expressed public opinion. This attempt to legislate by pie-nie had a dangerous side. Nothing was more dangerous for a popularly governed state than an attempt to decide public policy by demonstration in

streets of the metropolis. Sir Stafford Northcote in address yesterday at Kings Lynn, said an early appeal to the electors was imperative to solve the difficulty between the House of Lords and the House of Commons.

THE SUN CHOLERA MIXTURE .- Now that it has been ascertained that the cholera has appeared in Europe, prescriptions are in de mand by correspondents, who write to the editor as if he were a personal friend and family physcian. For more than forty years what is known as " The Sun Cholera Medicine" has stood the test of experience as the best remedy for looseness of the bowels ever yet devised. As was once vouched for by the New York Journal of Commerce, " No one who has this by him and takes it in time will ever have the cholers." Even when no cholera is anticipated it is an excellent thing for the ordinary summer complaints - colie, diarrhoes, dysentery, etc.,-and we have no hesitation in recommending it. Here it is: Take equal parts of tineture of cayenne, tineture of opium, tincture of rhubarb, essence of peppermint, and spirits of camphor. Mix well. Dose, fitteen to thirty drops in a wine glass of water, according to age and violence of the attack. Repeat every fifteen or twenty minutes until relief is obtained .- Chicago

A SINGULAR LAWSUIT.—An uncommonly queer question is now awaiting decision in one of the English courts. The question co nes down to this, has a man such a right to his own head that he may lawfully dis pose of it to another, the delivery to occur when the head shall have become a dead head? It seems that some years ago an Englishman, who presumably had no nonsense about him, sold his head to the local doctor with a view of providing for his funeral expenses. The owner of the sold head is now dead, and the doctor claims his head, accord- 1 ing to contract. But the friends of the late lamented decline to accede to the doctor's bequest, doubtless deciding that it smacks too much of Shylock. Hence the lawsuit.

The United States Emigration Commissioners have decided that no more assisted Carvers, Slicers, Butcher Knives, Table Knives pauper immigrants shall be permitted to remain in the country if objection is made by one member of the Board.

In a recent interview Dr. Kock stated that cholera is caused by an absorption of microbes, which he holds are transmissible only by excrements or objects soiled by excrements.

Hence it follows that the first precaution to
be taken is to subject the linen of cholera patients to heat, hot air and and phenic acid more or less concentrated. The microbes develop and multiply in damp surroundings, hence every means should be taken to produce dryness. No soiled object is dangerous when perfectly dry, because the microbes streets and boulevards during a cholera epidemic is dangerous, and the dryer and dustier

Notice is hereby given that by virtue of a Power of Sa'e contained in an Indenture of Mortgage bearing date the Twentieth day of Deare dead. From this it follows that to water

During the month of June there were 167 eight hundred and eighty two, and made between the said Adam Hunter, and Ana his wife, of the fires in the United States and Canada; the one part, and William H. Quian, of the City of aggregate loss by which was in the neighbor- Fredericton, in the County of York, and Province hood of \$5,800,000, while the smaller fires aferesaid merchant, of the other part, and duly which have escaped notice would probably increase this total by many thousands. The total loss by fires in United States and Canton Canton of Mortgage, default having been made ad since January 1st is estimated at \$53'750,- in payment of the interest on the moneys so se-000, an excess over the fire loss for the first cured, be sold at Public Auction, in front of the six months of 1883 of more than \$9,000,000. NEW POST OFFICE, in the Town of Woodstock in the County of Carleton, on WEDNESDAY, The average cost of the fires in the two countries during the past ten years for the first o'clock, noon, the lands and premises mentioned half years has been about \$45,000,000.

During an Arctic exploration Lieutenant Ray investigated the depth to which the County aforesaid, bounded as follows, to wit ground was frezen. He says:-"I dug an Beginning at a post standing on the Eastera side earth shaft thirty-eight feet in depth for the purpose of testing the temperature and found, on calculation, that it was frozen to a depth for the on calculation, that it was frozen to a depth five St. John, thence running, by the magnet, of the Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company's Office of the Stock of the New Brunswick Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company will be held at 10 o'clock, a m., on Thursbury Railway Company Railway Co of 300 feet. A bucketful of the stuff taken along the Eastern side of said reserved road, day, Angust 7th 1884, in the Company's Office, out of the shaft, when thawed out, separated into earth and water, about four inches of the latter standing on top. This proved that if the ground there were ever warmed sufficif the ground there were ever warmed sufficiently to be resolved into its original parts it would be found to be quite incapable of supporting anything on its surface. It is really frozen slush."
