REMARKABLE THOUGHT-READING TET.-London, June 3 .- W. Irving Bishop, the American thought-reader, gave a remarkable exhibition in London to day of his peculiar power. A canon of Westminster Cathedra consented to act as a subject, and after Mr. Bishop had been securely blindfolded, wrote FEHIS Machine is too well known to need desthe name of an object within a radius of one mile upon a slip of paper, which he continued to hold in his hand. Mr. Bishop then put a wire around the canon's wrist and dragged him out of the hall and through the streets, in the presence of a jeering and yelling crowd attracted by the novel spectacle, until he arrived in front of the designated object. There he stopped, and the canon proved by exhibiting the paper that he had fully accomplished his task.

Awarded the FIRST PRIZE in competition with other Mowers, at the Provincial Exhibition, held at St. Johr, in 1880. In this Machine, simplicity in construction lightness in weight, symmetry in form and elegance of finish are combined with trength, durability and efficient working qualities. It is less complicated, carier to repair and less liable to get out of order than other Mowers. Nearly 40,000, in use last season, went through the harvest without wearing of parts or breakage, having been subjected

to the severest possible test in field work, as to its strength and durability. Call and see us before purchasing elsewhere. We have also the ITHACA HORSE BAKE FOR SALE.
