Jottings.

The members of the Woodstock Cricket Club are requested to meet at the Office of the Secretary Treasurer on Monday evening, March 31st, at 8 o'clock, when the ways and means of raising money to repair the grounds of the Club will be considered. A full attendance is requested.

We learn that the Bloomfield Friends are making an effort to secure funds for the erection of a building for public purposes.

Rev. A. Chipman, who has been the pastor of the Jacksonville Baptist Church for the past two years has resigned his position and gone to Nova Scotia.

Handford Shaw of Pembroke, hauled from the stump, at one load, for Wm. Leslie, on the Aroostook, 3.717 feet of logs. The load was chopped by Thomas Ryan, of Newburgh, who is a hard man to beat on a big load. Brighton Tom will have to try again.

The Sabbath School Concert held in the Baptist church, Jacksonville, on Tuesday evening, was largely attended, and a very interesting programme consisting of readings, recitations, music, &c., was finely rendered; while the parts were all admirably performed, especial reference deserves to be made to the recitation of "The Seventh Plague of Egypt," by Rev. E. P. Miller. Rev. J. C. Berrie made a brief and pertinent address. Mr. Robt. Hannah ably presided; the funds go to the Library Fund of the School.

In reference to the Rutledge Publishing Co., whose notice of a Biblical Prize appears in this issue, we have to say we know nothing further than that so far as their dealings with us go we have found them prompt and honorable.

A chemist of Pittsburg, Pa., has re-discovered the long lost art of making obsidian or black glass.

Mr. Anglin, in an address on St. Patrick's day, at Toronto, advanced arguments to prove that St. Patrick was not a myth; was not a Protestant; was not a Dutchman; and that he was descended from a Roman family.

In a railroad accident near Dayton, Ohio, on the 17th, the engine turned over and the fireman was caught under the boiler, where he slowly roasted. Retaining consciousness he for four hours directed the train crew in their efforts to extricate him, expiring soon after his rescue.

Messrs. Wetmore and Colter, in the local, have done themselves honor, while rebuking the too prevalent spirit which gives party claims the preference over all other claims, for voting with the government for measures of general importance.

It will pay you to call and inspect the fine stock of spring goods at A. Henderson's Furniture Wareroome, Upper Woodstock.

The hotel at Centreville has undergone a state of renovation and now, under the management of Mr. Wm. Balloch, is a most inviting and comfortable house for the traveller.

Harper's for April comes to us from Messrs. T. O'Brien & Co., 53 King street, St. John, for which our thanks are extended to the enterprising firm.

Tobique River Items.

The amount of lumbering done on the Tobique this winter is only about half of last winter's operations. This tends to make matters quiet here, but as last year's crops, with us, were above the average, contentment pervades the settlement.

The quantity of plaster hauled from here, this winter has not equalled that of last season. One reason for this is that the Maine farmers, who are extensive purchasers of the rock, do not intend, next year, to raise so many potatoes, on account of the low prices that are ruling the markets. Another cause why less of the plaster has been taken away this winter, and in the removal of which obstacle we are deeply interested, is the circuitous route that the farmers living on the lower St. John have to make in order to reach the locality. The difficulty could be obviated by opening a road from either Johnville or Glassville to Trout Brook, which would give a direct line to the plaster rocks. The road would not only serve the interests of the farmers in this connection, but would open up a fine country for settlement. We hope that our present Government will see the advisability of doing this at an early date; if they have the development of the country in view, they cannot afford to delay so important a work unduly.

Mr. James McNair has bought a site for a saw mill at the mouth of this river, upon which he intends to erect, in course of time, a grist mill as well.

Messrs. Simmons & Burpee, the contractors of the Fredericton Bridge, and who are residents on this river five miles from its mouth, have rented their saw and grist mills to Mr. Samuel Bocne, who will have charge for the next two years. The mills do a good business and could not be dispensed with.

We regret that so much liquor is sold in this County and fondly hope that the day is not far distant when its sale will be prohibited in our midst. Four years ago, there was only one liquor store in the parishes of Perth and Andover, while now there are five or six, besides several places where it is surreptitiously sold.

There is a good deal of snow up here, being over four feet in the woods; lumbermen are getting through in good shape however.

October 10th, 1876.

Mr. J. H. Robinson,

Dear Sir.—In reply to your letter of enquiry, I would say that your *Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime* is the best preparation of the kind I have ever seen or taken.

I was ordered by my physician to take it, and commenced about the last of August, and since that time I have felt a different man, and also look differently, and all for the better, as the doctor can testify.

I was unable, in the summer to walk any distance without much fatigue I can now take my gun and *travel all day and feel first-rate at night, and eat as much as any lumberman. Have not bled any* since I took your preparation, and can now inflate my lungs without feeling any soreness, and I think I can inflate them up to full measurement, same as before I was sick; have also gained in flesh, my weight in the summer was 173 lbs, and now it is nearly 190 lbs., which is pretty well up to my former weight.

The foregoing is a correct statement which I am prepared to swear to, and I hereby authorize you to give it publicity in my name.

I am, dear sir, yours truly,
(Signed) C. H. S. CRONKHITE.

We, the undersigned, hereby consent to have our names published as a witness to the effects of *Robinson's Phosphorized Emulsion* on the person of Mr. Cronkhite, and do assert that the foregoing statement is correct in every particular.

GILLIES'

PATENT FLEXIBLE

IRON HARROWS

HAVE been sold to New Brunswick farmers, in the River Counties north of Fredericton, and every harrow has proved itself a great labor and time saver, and saved many dollars besides to its owner, by reason of its strength and durability.

We have brought down seven car loads of these Harrows from the factory this winter, and about one half of them have been sent to us made of

SOLID STEEL,

Bars; Teeth, Hooks, Straps and all.

All the Harrows received by us for this season's trade have hooks for attaching the drawbar on both sides. This will enable the farmers who buy them to wear out the Teeth without removing them to be sharpened. In harrowing foul land by reversing the drawing end the teeth will be freed of accumulated clods. The steel used in construction of these Harrows is not "CAST" but a tough malleable steel which is one half stronger than Iron of the same size

We offer these Harrows in both Iron and Steel at low prices; considering their worth, and on favorable terms.
