sake of others." 1 Cor., 8: 1-13. engaged a good deal of attention from Sunday joyed the regard of all who knew him, and School workers, but no more perhaps than it warm and hearty desires and hopes for his Co. rent, \$40. merits. Several courses of Bible Study and future prosperity and the happiness of Mrs. supplemental lessons have been given to the Ress. Among the speakers, besides the study was given and the work commended, P. Baird, Chas. McKeen. and we believe it was adopted in one locality. This space is too limited to give the question sional reference to it comes in appropriately. apparently, that invites him to the West.-Attention was called to this matter last week and a tew questions of a primary nature that will command success, and we wish him given and answered. Other questions in the ell good luck. same course will now be given, and we will expect to receive answers from as many as

may take an interest in the matter. One difficulty to be considered is the time to be allotted to these questions in the Sunday School session. Many of our schools find the length of session only long enough now to get [ through with their ordinary opening and closing exercises, lesson study and review and we cannot resommend that any one of these should be left out or even abbreviated, as the former should not be considered and the latter must be left to the judgment of the pose, in a few days, leaving Woodstock, to avail Superintendent and teachers. If, however, they can find time for introducing these sup plemental questions, they would doubtless prove very beneficial. We would suggest that the scholars at home, with the aid of their parents and older brothers and sisters, look up the answers to these questions and answers from each school.

with the regular work of the school, but it help to both.

## Broadcast Seeders!

How to sow Grain and Grass Seed evenly has the average farmer has had to solve. Compara- Peas; Yellow Six Weeks, Black Wax, White tively few men could sow with anything like Kidney and Broad Windsor Bush Beans; Dutch uniformity, and when grain is sown unevenly Case Knife, Early Lima, Scarlet Runners and the spots where it falls thickly ripen earlier than other Pole Beans, he rest; the consequence is that in harvest time portion of the grain will be dead ripe while the ages by mail postage paid. est is quite green. The over ripe grain shells ouble less. In order to sow Grass Seed the Oats; Nebraska Peerless Oats; Best Lapland farmer must choose a time when there is no winds, and often just when his field is ready to seed there White Clover; Choice Timothy. will be several days of bigh winds causing bim to wait until the iavourable time has passed. The result is he has a very interior crep of hay the With MANN'S BROADCAST SEEDER all his difficulty is obvixted. By means of an index and dial you guage it to sow any quantity to the acre, and any boy who can drive a horse can sow as well as a man. The mouths of the grain ubes are so low that the wind takes practally no effect upon grass seed so that it is never necessary to delay seeding on that account. During the last few years a large number of e farmers of Carleton have pur hased them and
