CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills makes a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

LAND RECLAIMED IN RUSSIA.—The St. Petersburg *Ved mosti* gives particulars of the reclamation of a vast tract lying between the Rivers Dnieper, Pripet, Beresina, and Poltshja, known as the Polesie region, which has been hitherto useless and in great part impassable. The works began in the year 1874, and by the end of last year a canal system of about 1,695 versts (1,130 miles) had been completed, which had already drained 1,141,000 desjatinas, (over 5,000 square miles) Nearly one sixth of this vast tract that had hitherto been an impenetrable morass has been changed into meadow land. An area of over 1,250 square miles of forest, which was totally useless, being traversed by a network of swamps, has been thoroughly drained, the lines of swamp being cleared, deepened, and converted into drainage canals, which, unfortunately, can have only a very slight fall. Another large piece of forest, over 750 square miles in extent, hitherto practically inaccessible, has been opened up by canals and made available for useful purposes; and the remainder, amounting to about 740,000 desjatinas, (over 2,800 square miles), has been drained and brought into a condition fit for cultivation or pasturage. The work is said to have been executed at an annual expenditure of 265,000 rubles, or a little less than £40,000.

AN AGREEMENT EFFECTED.—London, Nov. 18.—The *Standard* says that the Tory leaders are prepared to recommend that the House of Lords pass the franchise bill simultaneously with a motion to be made by the Government for a second reading of the redistribution bill in the House of Commons.

The Conservatives of both Houses of Parliament held a meeting at noon to day at the Carlton Club, to consider the compromise offered by the Government last night with reference to the franchise bill. After some discussion, the Conservatives decided to accept the proposals of the Government. They will agree to pass the franchise bill, provided the Government shall immediately produce a redistribution bill which is satisfactory to both parties.

In the House of Lords to-day, the franchise bill passed the second reading without division. On Thursday the Marquis of Salisbury will move to postpone the committee stage of the bill for a fortnight.

The report of the Bureau of Industries for November deals chiefly with the grain and root crops of Ontario. The harvest of grain crops has been even more bountiful than they appeared by the August estimates. The quality of the grain is generally excellent, being plump, hard and heavy, excepting the barley, which is badly discolored by the rain, and the bulk of it does not rank higher than second grade. Wheat is remarkably free from defects of any kind The average yield of spring fall and varieties is twenty two bushels per acre, or nine more than last year. Beans and corn show an average of twenty-three and seventy-four bushels an acre, respectively. The root crop is generally excellent. Fruit trees are in healthy condition, but with exception of apples, the crop of the season has been less than the average. The average of fall wheat sown this year is somewhat less than last year.

The coming winter is likely to be the dullest in the lumber trade which this district (Western Ontario) has yet seen. There have been very few sales of lumber this summer and all the mills are overstocked in consequence. The Parry Sound Lumber Company's mill here has been closed down, possibly for the season, and unless shipments are made immediately the Conger Lumber Company's mill will have to shut down for want of piling room. The mills at Byng Inlet, belonging to the Georgian Bay Consolidated Lumber Company, are also to be closed down for the season shortly. The upper mill is expected to run about three or four weeks, and the lower mill is to run only about two weeks and, it is said, will be closed down the whole of next summer. All the different lumber companies are going to largely reduce their winter operations in the woods and the cut of logs this winter will not be one half as large as that of the former seasons. Altogether the outlook in the lumber trade in these districts is anything but promising.—*North Star.*

It has been a good year for the Maine Central, despite the fact that railroad business in general has been bad. The financial statement for the year ending with September shows total receipts of $2,825,372 against $2,864,614 for the previous year. Here is a falling off of about $40,000 in business, but that is more than offset by decreased operating expenses, interest and rents so that the net earnings this year are $224,461 against $197 864 last year. The building of the Mount Desert branch increased the passenger traffic $50,000 during the three summer months.

CHLOROFORMING A STREET.—A Bordeaux paper relates a somewhat incredible incident as having occurred there recently. A pedestrian in the vicinity of the Rue St. Jacques observing only sleepers in the shops, ran to inform the police of the strange occurrence, the cause of which was quickly discovered. The employes of a large druggist's establishment in the street had carelessly over turned on the pavement a huge receptacle filled with chloroform, and the authors of the accident were the first to suffer from its effects. The street being a narrow, ill-ventilated one, the vapors of the powerful drug did not escape, the consequence being that all the trades people on the ground floor were rendered insensible. The restoratives, speedily administered, brought them round before long.

Bradley & McManus of the London House are showing a magnificent stock of new French Dress Goods.

In two recently excavated houses at Pompeii the paintings on the wall are as fresh as if just put on, and the halls are rich with decorations. Some of the marble tables are still standing; the fountains in the atrium and peristyles, with their pretty little statues and mosaics, look as if they might begin to play at any moment; the kitchen hearths, built like ranges, seem ready for their pots and kettles; a few flower pots are still set in the gardens; in the storerooms are some oil jars and wine jars; it is as if one might begin housekeeping to-morrow and invite one's friends to dinner the day after.

Ninety-three Scandinavian Mormon converts arrived at New York on Sunday, and left at once for Utah. Forty are single persons, the rest mostly married couples. There are very few children. One of the accompanying elders was asked: "Do the wives in these families favor polygamy?" "I don't know," he replied; "I never preached it while abroad I simply placed our simple facts before the people. These people admire our freedom and are anxious to share our happiness." Several of the single persons in the party said they had not given the subject of a plurality of wives a single thought. They were anxious to come to America, and had embraced the opportunity offered by the Mormon missionaries to come and settle with them.

The question often occurs, at what height can men live? A recent traveller in Asia, Mr. Webber, states that in the mountains of Thibet he has lived for months at the height of more than 15,000 feet above the ocean with the following results: His pulse, normally only 63 beats per minute, seldom fell below 100 beats per minute during the time he lived at that altitude. His perseperations were often twice as numerous as under ordinary circumstances. A run of 100 yards would quicken both pulse and respiration more than a run of 1000 yards at the sea level, and the higher the altitude at which he resided the greater he found the difficulty of walking or running fast.

It is a somewhat instructive comment upon English policy in Ireland, remarks the London *Truth*, that last year a force of nearly 25,000 officers and men was found necessary to garrison the country, while only 3,320 were stationed in Scotland. Unless, however, something is done to reform the Scotch land system, the same journal thinks another Ireland will be upon English hands. Already the Skye crofters are in a state bordering on rebellion, while those of Tiree have passed a resolution to seize a tract of land by force, if it is not given up to them within a stated period.

One of the features of the World's Exposition at New Orleans will be a united encampment of the veterans of the Federal and Confederate armies.

TIRED.—How often we hear one say, "I feel so tired and languid and yet have done nothing to cause such a feeling." The trouble is that their system is out of order and requires, a good bracing Blood stimulant. To such we would recommend Estey's Iron and Quinine Tonic. All Druggists sell it.

Shephard's lumber and timber yard at Hammersmith, Eng., was burned Friday. A pile of lumber 100 feet high caught fire at midnight and is still burning.

A word to the wise is sufficient. Bob will furnish Oysters, Ham & Eggs, Baked Beans, Beef Steak, Pork Steak, Lamb Steak, Sausages, Roast Turkey, Duck, Chicken and Goose; Hot Tea and Coffee at all hours; and remember I sell the best brands of Tobacco and Cigars, and keep fruit of all descriptions on hand, and sell below zero.

P. S.—The man that leaves his account unsettled until Jan 1st, 1885, I shall place it in the fire, where it shall be destroyed from the face of the earth, and that man's credit will not be good, even in case of starvation for a peanut shell hereafter.

Yours truly,
R. H. SEABORN.

Woodstock, Nov. 22, 1884.

It matters little by what name we designate such complaints as Scrofula, Erysipelas, Salt Rheum, and all skin eruptions, their origin is in the blood and by the use of no outward application can a cure be effected. The blood must be purified and the stomach kept in a healthy condition. To do this use Hanington's Quinine Wine and Iron, and Tonic Dinner Pills Beware of imitations. See that you get "Hanington's," the *original* and *genuine*. For sale by all druggists and general dealers in Canada.

No Lady who delights in Flowers, and likes to see them do well and bloom abundantly, should be without *Hanington's Food for Flowers*. Ordinary packages 30c.—sufficient for 20 plants for one year.

Carter's Little Liver Pills will positively cure sick headache and prevent its return. This is not talk, but truth. One pill a dose. To be had of all druggists. See advertisement.

Well Susie, my dear, how is your Grandma's Rheumatism this winter? Does she suffer as much as usual? Why, no! Did you not know that she is entirely cured. You know she has for years walked with a cane, and at times her limbs were fearfully swollen. She used "*Penetrating*" Liniment, and is now as smart as any of us. For sale by all druggists and general dealers in Canada.

Extracts from a Letter from C. H. S. Cronkhite, Esq.

Canterbury Station, York Co., N. B.
October 10th, 1876.

Mr. J. H. Robinson,

Dear Sir,—In reply to your letter of inquiry, I would say that your *Phosphorized Emulsion of Cod Liver Oil, with Lacto-Phosphate of Lime* is the best preparation of the kind I have ever seen or taken.

I was ordered by my physician to take it, and commenced about the last of August, and since that time I have felt a different man, and also look differently, and all for the better, as the doctor can testify.

I was unable in the summer to walk any distance without much fatigue. I can now take my gun and travel all day and feel first-rate at night and eat as much as any lumberman. Have not bled any since I took your preparation, and can now inflate my lungs without feeling any soreness, and I think I can inflate them up to full measurement, same as before I was sick; have also gained in flesh; my weight in the summer was 173 lbs., and now it is nearly 190 lbs., which is pretty well up to my former weight.

The foregoing is a correct statement which I am prepared to swear to, and I hereby authorize you to give it publicity in my name.

I am, dear sir, yours truly,
(Signed) C. H. S. CRONKHITE.

We, the undersigned, hereby consent to have our names published as witnesses to the effects of *Robinson's Phosphorized Emulsion* on the person of Mr. Cronkhite, and do assert that the foregoing statement is correct in every particular.

CHAPTER I.

"I was taken sick a year ago
With Bilious Fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles, I am not only sound as a sovereign, but weigh more than I did before To Hop Bitters I owe my life." R. FITZPATRICK.

Dublin, June 6, '81.

CHAPTER II.

"Malden, Mass., Feb. 1, 1880. Gentlemen—I suffered with attacks of sick headache."

Neuralgia, female trouble, for years in the most terrible and excruciating manner.

No medicine or doctor could give me relief or cure, until I used Hop Bitters.

"The first bottle
Nearly cured me;"
The second made me as well and strong as when a child.
"And I have been so to this day."
My husband was an invalid for twenty years with a serious
Kidney, liver and urinary complaint,
"Pronounced by Boston's best physicians—
"Incurable!"
Seven bottles of your bitters cured him and I know of the
"Lives of eight persons"
In my neighborhood that have been saved by your bitters,
And many more are using them with great benefit.
"They almost
Do miracles?" —*Mrs. E. D. Slack.*

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised, and then you will want to know *how to get well*, which is answered in three words—Take Hop Bitters!

☞ None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.
