SORE LIPS !

Chapped Hands, Tender Face after shaving, and all ailments of a similar character find in PHILODERMA a remedy that soothes and heals at once. It contains nothing injurious or unpleasant to the most delicate Skin, neither will it soil the finest cambric, which properties make it the most popular and saleable article in the market. Prepared only by E. M. Estey, Pharmacist, Moncton, N. B. Sold by Druggists everywhere.

DURING

THE months of March, April and May the system undergoes a change. The blood becomes thin and requires looking after. To bring about the desired result, there is no remedy that has the same power to perform the work as

Estey's Iron & Quinine TONIC.

By its use the blood is purified. It removes that low, despondent feeling that most people experience during the Spring. After using it for a short time they will find their appetite improved, their spirits become more cheerful and they feel and know that every fibre and tissue of their body is being braced and renovated.

AT THE NEW ORLEANS EXPOSITION.

No 5.

A SABBATH DAY IN NEW ORLEANS.

Such a day! The clear, blue sky, the warm sunshine, the green grass, budding flowers! What a treat after a busy week to feel that not only the day but all that we see this beautiful morning is such as to cause any one to give thanks for such a beautiful world as we live in. But by 10 a. m. the scene has changed; man has got around and the din and noise is terrible; the crowds are on the move as we have never seen them here before. We attended Presbyterian church in the morning and heard the Rev. Dr. Palmer preach from Matt. 25th, Chap. 40th and 41st verses. But for northerners, the attraction for many who went to church was the colored churches. For singing we heard but one opinion expressed, and that was for any who had not heard them sing in some of the first colored churches to be sure and do so. While the churches were all well attended where we went, Sunday also appeared the day for sports of every kind. Theatres in full blast; horse racing, also circus; pigeon shooting by Capt. Burgados; a match between the Capt and another crack shot, 300 bats turned loose in a building to shoot at; Buffalo Bill and 30 warriors giving exhibitions of Sioux battles, etc. Here is a band bill entire of another sport indulged in in New Orleans.

"TWO NIGHTS RARE SPORT."

Gaff fight of ten cocks, between Texas and Tennessee.

At the Louisiana Cock Pit, Corner Douaine and Roman streets.

Sunday Feb. 1st, 1885, commencing at 7 p. m.

Everybody having a chicken to fight, will have no trouble to get him a fight, as there are weights for all comers.

Take the Domaine street cars, ten minutes run from city station.

The Mexican band gave a concert in Exposition Building this afternoon.

Sunday morning is the harvest morning at the French market, they sell more than upon any other day, as parties on this day lay in a week's supply. This market includes three distinct markets—fish and meat, vegetables and fruit, and the bazaar. Anything and everything is to be found here either to eat or to wear or for ornament. Near by are the sugar and molasses sheds, containing thousands and thousands of barrels of each. Near by is the French Cathedral, which is very much praised, but it will not compare at all favorably with "Notre Dame" at Montreal. Jackson square and Jackson monument, almost in front of the Cathedral, are handsome; the walks are of shell, bordered with Southern flowers, while beautiful, bright plumaged birds, flit from the orange to the magnolia and banana trees. It is but a step to the Levee where are steamers and all kinds of craft both large and small loaded with crowds of gay companies whiling away the time in mirth and music. Then excursion trains also leave Canal street every 20 minutes for different points of interest; and too often the interest is a dog fight, a bull fight, a cock fight, or a man prize fight. New Orleans is said to be the wickedest city in the United States, and I sincerely hope it is, for if they have any worse they had better have them quarrantined.

To spend the time as profitably as possible we had all our plans made one or two days in advance. The first engagement for Sabbath was to visit the Carmelite Monastery, at 6 o'clock in the morning, with an acquaintance from Chicago, a member of the Roman Catholic Church. But as we were not awakened in time at the hotel we attended Monday morning instead. On our way, we had the pleasure of seeing the sun rise. The whole sky is a brilliant red, far surpassing any thing we have ever seen before in the sky for color. At very many of the street corners are fruit stands, or more properly tables, as they are from 10 to 20 feet long, they are stationary and are protected from the rain by verandas. At other corners are refreshment stands, coffee and biscuits, tended by colored women. The colored populace is quite numerous here, there are colored Judges, colored Lawyers, members of the Legislature, Doctors and in every vocation you will find them. There are very many monuments and statutes, many of them very handsome, while others show the marks of time. Among the fine buildings are the New Cotton Exchange, U. S. Mint, City Hall, St. Patrick's Hall, Louisiana Jockey Club House, Charity Hospital, Post Office and U. S. Custom House. For a view of the city, the Great Mississippi River, the Lakes and other scenes, we go by elevator to the tower on Exhibition Building, and as far as vision can reach there are sights to gladden the eye, while with a powerful glass for the use of which you pay 10cts. per hour you can look away to the waters of the Gulf of Mexico, and far away over the level country.

But here we are back to the Exhibition again, and it is the big attraction after all. No matter what a man's business or occupation he will be in his element here. If a machinest he can profitably spend weeks or longer; if a school teacher he can ascend to the galleries and see the Educational system of each state and of the different colleges and institutions of learning in the country, from the simple A. B. C. up to the highest grade or attainment. If a musician, how the beautiful instruments will please the eye and delight the ear. If a doctor then here is case upon case filled with all the different parts of man. So the time passes very pleasantly and we hope profitably.

On our way to the hotel one afternoon we strolled across a small common to have a good look at the magnificent live oaks and to gather some of the moss which looks in the distance very much like white muslin hanging in the trees. Soon we heard a very odd noise and in answer to inquiries we were informed that it was some young folks enjoying themselves coasting. Coasting? why, how do they coast without snow? Oh, it is roller coasting! so we concluded we too must have a slide down hill in New Orleans. To accomplish our purpose we had to walk up an inclined platform about 50 feet in the air to the starting point, and take a seat on what very much resembles a lounge; it is a cushioned seat with foot-board, it is on rollers like rail-cars and it runs on a rail track two and ½ feet wide; there are three different tracks. Here goes on one of them, down a big hill, up a little one, away on the level, up another hill, down a big one, up another, almost to the place we started from, to which we are pulled by a machine.

The dwelling houses nearly all have verandas and piazzas and such beautiful gardens, they are so different from anything we have ever seen. The inhabitants, those which are young, are healthy looking, while the older people all have a sickly, weak look, compared to northerners, and we saw very few who were over 50 or 60 years of age. The chief products of the farms are rice, corn, cotton and sugar. The State of Louisania produces one-sixth of the sugar consumed in the United States.

In the exposition the exhibits are so extensive and numerous that at first we were afraid it would take a good while in the morning to find where we left off the previous night, but it is so arranged that we found no difficulty here. In the main building the rows of posts that run one way are numbered, while cross ways of these they are lettered, so that if you wish to see every thing you can start on Row No. 1 from that to No. 2 and so on; if you wish to leave at the middle of any row you have but to mark down No. 17, letter B., or No. 50, letter W.; when the letters are all used up they begin again AA, BB, and so on two letters instead of one. While in the Government or State building you can go from State to State, and if you get tired of walking you can hire an easy chair on rollers and be wheeled around to see the sights.

Before leaving New Orleans we must say we are well satisfied with our visit and thankful to the many who were so kind and obliging; we will look back to these days as a sunny spot in our lives. So it is good bye to New Orleans; good bye to the World's Exposition 1885; and good bye to the green fields and blue skies of the sunny south, from these we turn with shivering expectations.

WOODSTOCKER.

In a debate in the Nova Scotia Legislature the other day on the extent of jail limits, a member remarked that "in Shelburne a man 'on the limits' could not go out in his boat to catch a codfish for his family." The same restriction works awkwardly in some other respects in that town. One day a debtor was to be baptized by immersion near the shore of the harbor; suddenly his securities made their appearance and prevented a ceremony which would have made them legally responsible, the water's edge being the limit of his liberty in one direction.—*Wesleyan.*

For the cure of all the delicate disorders to which females are subject no remedy has been devised that can be compared with Hanington's Quinine Wine and Iron. It renovates the entire system, animates the despondent, restores the bloom of health to the sallow cheek and replaces melancholy with vivaciousness of youth. Ladies who feel that they are *growing old before their time* should use Hanington's Quinine Wine and Iron. Beware of Imitations. See that you get "Hanington's," the *original* and *genuine*. THE ST. CROIX SOAP MANUFACTURING CO.

WHAT THE TRADE SAYS.

WE the undersigned GROCERS of St. Stephen have much pleasure in recommending to all dealers in Laundry Soaps, the products of the St. Croix Soap Manufacturing Co. Their "SURPRISE" especially as being superior to any other Soap for general Laundry purposes as well as for the Toilet. Our customers claim that it washes equally as well in cold water as other soaps do in the old way by boiling; saving its cost in fuel alone, also the disagreeable results from boiling, filling the house with Steam, &c., and we believe that it is well deserving the name it bears, **SURPRISE**' the great Self Washer. Their other Brands have given entire satisfaction and we believe they are all they claim for them.

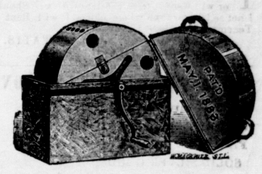
PERFECTION at LAST.

THE Missouri Steam Washer.

IN OPERATION.

The Best Washing Machine in The World.



OPEN.

Thousands of inventors have tried, during the last fifty years, to produce a washing machine which would replace the wash-boiler, and that relic of the dark ages, the wash board. All have failed, however, until the recent invention of the MISSOURI STEAM WASHER, which utilizes the principle well known to scientists, that *steam is the greatest known cleanser, bleacher* and *disinfectant.*

This Washer is a small portable machine, and can be used on any cook-stove. It requires no more skill or attention to run it than the stove upon which it is placed.

It is made *entirely* of metal, and provided with a system of perforated tubes, by means of which steam and motion are communicated to the contents, and steam is passed through the clothes.

The result is that the dirt is thoroughly dissolved and eradicated by the operation, and after the clothes are rinsed, they come out whiter and cleaner than any woman can wash them by hand. As steam is far more penetrating than boiling water, this process will remove *fruit stains* and many other stains that cannot be washed out by hand. It washes equally well a *lace collar* or a *heavy overcoat*, and is so easy of operation that a *child ten years old can use it* (see cut). As it washes the clothes without rubbing or wearing them, it stands to reason that it will save money to any family using it, for it is a well-known fact that rubbing clothes on a washboard wears them more than actual use.

The country has been flooded with worthless so-called washing machines; but please do not denounce this Washer as a humbug until you have tried it. Remember the sewing machine and the clothes wringer were once called *humbugs.*

PRICE ONLY $12 00. *Machines sent to any part of the Province, on receipt of price. MONEY REFUNDED IF NOT AS REPRESENTED.*
