WHY BOYS HATE FARMING -M. Quad Charles Lewis |, in the Detroit Free Press, makes some very wise observations on why farm life is so distasteful to so many farmers' boys: The old man is contented with some improvement on the idea of years ago. He can't see how any one should want anything better than bare floors, Windsor chairs, and cowhide boots. He would as soon go to meeting without a collar as with one. He rather likes the music of an organ, but if he buysan organ he wont feel like building an addition to the barn. He can't see how any one can sit down and get in erested in books, and why Henry and William should want real paper collars is a deep conundrum. When 8 o'clock comes he gets ready for bed, and he can's see how the boys and girls can bear company who keeps them up until 10. The farm is conducted after a fashion of a quarter of

the last century. They live in a new world -father is in an old one. No matter how little schooling they may have had they are better educated than he is. No matter it the father refuses to do more than subscribe to a weekly paper, his boys are fairly posted on daily happenings all over the world. He wants to farm after old ideas-they after new ones. He got along without knowing whether England was east or west from the United States-without grammar, orthography or being able to write more than his own name -without collars and cuffs, or necktieswithout books or papers or amusements, and he is quite certain his boys can do the same.

The boys are held to serve their time like so many slaves or convicts and the amount of

cash finding its way yearly into their pockets would not keep a boot-black in stock to do Is the picture overdrawn? I can add 20 per cent, to the strength of each assertion and ben not exceed the truth.

And now what is the matter with farmers' boys? Is there a remedy? Let us sec. In the first place farmers' sons are overworked. There is no doubt that the farmer is too, but that does not alter the case. That Queen of Perfumes for When you rout a boy out of bed at 4.30 or 5 o'clock in the morning and work until seven or half past you are making a white slave of him. You not only peril his life but deform Davis & Lawrence Co., (Sole Agents his body. That's the cause why to many sons of farmers are loop sided or bowed backed or otherwise deformed and the origin can be traced to over exertion while growing. There isn't a farm in the country on which the hours

of labor could not be shortened to 10 hours without the loss of \$25 per year. If 10 hours is enough for a ditch digger it is all that far- Suffer from that Distressing Complaint ners should be called upon to endure. If there are two hours between 6 o'clock and darkness on a summer evening, the boy can take up a book or a paper, or put it into good when by using a few Bottles of ESTEY'S IRON use in some other way. As it is now he AND QUININE TONIC ase in some other way. As it is now be knows he is expected to slave from daylight untill dark, and when night comes he is weary in body and aggravated in spirit. And the remedy is not altegether in short-ening the hours of work The boys must when it has failed. Hundreds can and do testify when it has failed. Hundreds can and do testify

and make one. The game of howless a healthy Four Druggist Leeps it. exercise, and furnishes plenty of sport. It one boy has a taste for music help bim on with it. L t him have a fiddle, accordion, Prepared only by

> A sad accident occurred the other day near Lisdoonvarna. It appears two sisters, named Anne and Mary Contell, residing at a place called Roadfins, went out upon precipitous rocks to gather sea-weeds. In order to obtain a quantity which adhered to the bottom of the cliff, Mary tied a rope round Anne's body and let her down over the rocks. The strain upon the girl above was so great that she was dragged over the edge. Both were precipitated into the sea, and drowned. The bodies of the sisters, whose ages were 20 and 23 years, were found clasped in one another's

Until recently, liquor saloon licenses in Wisconsin ranged from \$75 to \$200. Now, however, the maximum has been changed from \$200 to \$500, and the minimum from \$75 to \$200, and there seems to be a strong sentiment in favor of the highest rate, twenty-two cities having decided to make

the license rate \$500. The largest cabbage growers in the world (W. M. Johnson & Co., of Chicago), use up-wards of 5,000 acres of land for growing

There is such a glut of fruit in Calfornia that hundreds of tons of plums and other varieties will be allowed to rougupon the trees this season. The price will not pay for the

The Prince of Wales, it is estimated, is entitled to wear 70 different uniforms. He has a right to 17 different military uniforms alone and special costumes without number associated with his various titles and offices. SUGARS & MOLASSES! associated with his various titles and omises.

And he actually does wear them as occasion arises, but not at once.

The Salvation army in Canada propose to erect a \$32 00, temple in Toronto. According to a temperance orator at Winthrop ,Mc., of 27 men who banded themselves together to oppose the Washingtonian tomper ance movement. Il died of the abuse of liquor, and 5 through accidents caused by it; 7 were lost at sea, and an 8th sailed and never was heard from : 2 killed themselves, and 2 were

hanged at the South. Are there any men of Company T. or F. First Artillery of the United States army. that were at Fort Adams in Rhode Island in May, 1845? If there be any of them or it anybody knows of any of them in Houlton or vicinity who would kindly communicate with the subscriber giving names of men and where to be found, he would greatly oblige the subscriber, who, under reliable infor-

mation, will visit the correspondent and communicate something important. Address. HENRY OWEN. Care of John B. Robinson.

Mossrs. Connell Bros.,

GENTLEMEN,-Having thoroughly tested the "IMPROVED LITTLE GIANT THRESHER," and Double Gear and Level Tread Horse Power and Wood Cutter bought from you last Spring, I can readily certify that I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, I thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs., and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for half a day at a time; the machine was not crowded any; the sieves were clearing themselves; threshing clean, and no grain going over. Every place where I used your Wood Cutter it gave good satisfaction; it is so light and handy: can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's work, he always had the same amount of dragscut for a day's work before; I cut it in a little more than halfa day. Yours truly,

Lakeville, Aug. 13th, 1885. Cor. Main and Queen Streets. HOT AIR FURNACES Woodstock, September 4, 1885.

The most powerful HEATER ever invented; easy to manage, and Durable. Warranted to give DOUBLE THE AMOUNT OF HEAT.

UNION FOUNDRY CO. HERE WE ARE AGAIN, But in a little different Form this time, but the Same AR-TICLE after all. only a Change of Name.

Owing to the increasing demand for a WASHING MACHINE that will do the work just as represented, and to place it before the Canadian people so as to be within the reach of the poor and those in moderate circumstances, as well as the rich, we, the Patentees and Owners of the Missouri Steam Washer, have

begun manufacturing this SAME PATTERN OF MACHINE in Toronto, Can-Eagle Steam Washer! The EAGLE is made from Better Material than the Missouri, the Tin being XXX. The TANK is also made One Inch Lower than the Missouri, thereby taking Less Water and less Fire to Boil the water, thus making a saving of both Fire and Fuel. Since we got our Patent in the States three years ago there has been over One Hundred Thousand sold there. Last year we got our Patent for Charles the control of the contr

Patent for Canada and we are now ready to supply any one with our EAGLE STEAM WASHERS who is tired of the old way of Washing Clothes, which, as every intelligent person knows, is not only laborious but the Clothes are worn more by rubbing on the Board than by actual wearing.

We have appointed GEO F MOTT of Woodstock, N. B. SOLE AGENT FOR NEW BRUNS WICK from whom the Machine can be obtained, at the Same Price and Terms as from us. FERRIS & CO., Toronto, Canada,

Address all Orders for New Brunswick to GEO. F. MOTT, - - - - - WOODSTOCK, N. B. WANTED, A FEW SMART AGENTS, either on SALARY or COMMISSION, for York, King's and Queen's Counties.
