ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER Co., 106 Wall Street, New York. 481-48

It is one of the most powerful and permanent perfumes prepared. A single drop will be found sufficient to scent a handkerchief or even a room. It is put up in a new style of glass stoppered bottles and sold by all perfumers and druggists.

Davis & Lawrence Co., (*Sole Agents*)

MONTREAL.

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured.

It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a **Ladies' Hair Dressing**, the VIGOR is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

MR. C. P. BRICHER writes from *Kirby, O., July 3, 1882*: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the *McArthur (Ohio) Enquirer*, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The VIGOR is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

MR. ANGUS FAIRBAIRN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from *Boston, Mass., Feb. 6, 1880*: "Ever since my hair began to give sixty evidence of the change which flecting time procureth, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

MRS. O. A. PRESCOTT, writing from 18 *Elm St., Charlestown, Mass., April 14, 1882*, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the VIGOR, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

SAUNDERS BROS.

Woodstock, July 19, 1885.

THE BRITISH EMPIRE.—Joseph Cook, in a speech on Independence Day, thus describes the grandeur of the British Empire:—

I have passed many months in England and looked into the faces of impressive audiences in all the great towns of the British Islands; but when I sailed away from the white cliffs of Albion I did not seem to have seen the British Empire.

I floated through the Mediterranean, with many thoughts of Gibraltar, Malta, Cyprus, and other British ports. I came to the green, and black and yellow plains of the pulsating Nile, over which England has practically a protectorate. I came to Aden, a twisted cinder of red rock, carved into military might, the Gibraltar of the gate to the Indies. I sailed into the Indian Ocean and looked back and did not seem to have seen the British Empire. I gazed over my ship's side southward and westward, and remembered the immense British possessions at the Cape and the British predominance in the Soudan and in the valley of the Gongo, but did not seem to have seen the British Empire.

One tropical morning there arose out of the purple and azure seas, far to the east, queenly Bombay, second city of the British Empire, and I studied its proud fleets, its stately wharves and public buildings, its university and schools. I crossed crowded India, and saw the Taj Mahal and the Himalayas looking down on a land in which Britain rules twice as many people as any Cæsar ever governed. I studied Calcutta, the most cultured city of Asia; visited Madras on her blistered sands, and so came to that rustling Paradise of the tropics, Ceylon, and I sailed away and looked backward, but did not seem to have seen the British Empire.

I came to Singapore, at the foot of the Malay peninsula, within eighty miles of the equator, and found a harbor alive with British fleets and a city busy with the richest trade of the East Indies under the British flag. I sailed away to Hong Kong and found a mountainous island, with a beautiful city on a magnificent harbor full of British fleets. I sailed away to Japan and back to China, finding British quarters prominent in every seaport.

I sailed southward through the East Indies and was almost never out of sight of the British flag. The shadows began to fall southward at noon. The days gradually grew cool. Strange constellations rose out of the sea. In July the blasts of a northern December came up from the icebergs of the Southern Pole. There lifted itself, at last, from under the ocean, a continental island, slightly less than the whole territory of the United States. I studied the pastures, the forests, the mines, the thriving and cultured cities of Australia. I saw verdant Tasmania and green New Zealand, and sailed away, with the Fijis over the gunwale toward the sunset; and still I did not seem to have seen the British Empire.

After many days the shadows fell northward again at noon. The Sandwich Islands rose to view, and I remember that over them the British flag once floated for a day and an hour; and I sailed away and looked backward but even yet did not seem to have seen the British Empire. It was only when half way between the Sandwich Islands and America I remembered that British possessions stretch across the Continent from sea to sea, and that our land was once predominantly British—it was only when, at last, my lonely eyes came to the sight of America, my own, and my thoughts went back around the whole earth, that I suddenly obtained, by a combination of all my memories, a conception of the physical and political dignity of the British Empire as a whole.

Not more than a century or two distant lies in the possible, not in the certain, future an alliance, I do not say a union, of all English-speaking peoples, Great Britain, the United States, Australia, India, belting the globe and possessed of power to strike a universal peace through half the continents and all the seas.

NEW YORK, July 19.—The *Tribune's* cable says: The Russian scare, which sent down stocks with a run on Thursday, was due proximately to the publication of telegrams announcing the forward movement of Gen Komaroff's troops toward Zulfikar and the retreat of the English officers upon Herat. The diplomatic differences between the two governments are grave but are not new, as Lord Granville had come to a deadlock with M. de Giers before leaving office. The situation in Central Asia is perfectly simple. The Ameer wants Zulfikar pass, because through this defile lies the road to Herat. Russia agreed to abandon her claim (an impudent one at least) in return for the cession of Pendjeh, but having got Pendjeh, Russia now tries to repudiate the bargain in order to get Zulfikar too. Russia says she never meant to surrender the hills to the eastward of the valley, but these hills, according to Sir Peter Lumsden and Condie Stephen, are essential to the military possession of the pass, which is worthless without them. England has pledged herself to the Ameer who insists upon the fulfilment of the pledge. The Russian demand was for two objects: first to ascertain whether Lord Salisbury is as "queezable" as Lord Granville was, and second, to get rid of arbitration on the Pendjeh incident. M. de Giers has already intimated that he is ready to come to terms about Zulfikar if Lord Salisbury will drop arbitration. Lord Salisbury at present is disposed to convince Russia that in his opinion England has made concession enough. Continental opinion is coming steadily round to the English side, a result all observers predicted as certain whenever England adopted a firm attitude. A similar change is noticeable respecting Egypt. Negotiations are actively proceeding with the prospect of a favorable result for the immediate issue of a loan of 9,000,000 sterling. Sir Drummond Wolff hopes to arrive at Cairo with the money in his pocket. Lord Granville had abandoned the hope of carrying out a financial convention before autumn.

ST. PETERSBURG, July 19.—It is semi-officially denied that Zulfikar Pass has been occupied by Russian troops. Gen. Komaroff made a slight movement of troops there to prevent a surprise by an Afghan attack. He has been ordered to hold the position to enable him to occupy the defiles, if necessary. The Government is firmly determined to do nothing that may compromise pending negotiations with England.

THE CHOLERA.—MADRID, July 22.—Complete returns of the progress of cholera in Spain, yesterday, show a total of 1752 new cases and 685 deaths. These included 13 new cases and 9 deaths in the city of Madrid; 163 new cases and 98 deaths in the city of Saragossa, and 491 new cases 145 deaths in the province of Saragossa; 10 new cases and 4 deaths in the city of Segovia, and 36 new cases and 25 deaths in the province of Segovia; 3 new cases and 5 deaths in the city of Murcia and 230 new cases and 60 deaths in the province of Murcia. Cases have appeared in Huesca and Caceres.

A GREAT FLOOD.—A Chipman correspondent of the *Gleaner*, under date of July 14th, writes as follows: The recent rains at the head of the St. John river are now having a very serious effect on the marshes of Salmon river. The water poured into Grand Lake from the St. John through the Jemseg, and the south winds have raised the water of Salmon river much higher than it has been in July for many years past, although we have had only a few showers. The water is still rising. The low marshes are deeply covered and the higher ones are gradually disappearing, consequently the hay on them is very much damaged and if it does not fall soon the hay will be ruined.

MILITIA APPOINTMENTS.—67th Battalion Carleton Light Infantry."

No. 7 Company, Baker Brook.

To be Lieutenant.—Sergt. Harry Havelock Woodworth, M. S., vice Alexander Marquis.

The name of 2nd Lieut. (provisionally) Baloni Albert is hereby removed from the list of officers of the Active Militia.

Two hundred persons were poisoned by ice cream at Ragusa, Sicily, during a public holiday. The crowd severely punished the vender who narrowly escaped with his life.

I tell you, Jack, you can say what you like, but I believe mother, and she says "*Penetrating*" is the best of all Liniments, and she always keeps it in the house. I know when Tom fell on the ice and was so sore he could hardly move, she used "*Penetrating*," and one rubbing with it cured him. For sale by all druggists and general dealers in Canada.

At Pittsburg, Pa., Thursday night the residence of Joshua M. Evan a small log hut near Gray Hampton, Clearfield county was destroyed by fire and 6 of his children from 6 to 15 years old were cremated.

Physicians are in the habit of prescribing Huanington's Quinine Wine and Iron, and Tonic Dinner Pills, because they know that *no better* medicines are available. Physicians, however, as well as druggists and patients, are cautioned against the purchase of imitations of these remedies. For sale by all druggists and general dealers in Canada. The *original* and *genuine* has Huanington's name on bottle and wrapper.

TO PERSONS OF A *Nervous Temperament*

WE WOULD RECOMMEND

ESTEY'S IRON AND QUININE TONIC.

IT WILL REMOVE THAT LOW, despondent feeling so peculiar to nervous persons. After using it for a short time they will find their appetite improved, and their spirits become more cheerful, sleepless nights, twitching of the muscles and trembling of the limbs will all disappear and they will feel and know that every fibre and tissue of their body is being braced and renovated. The peculiar operation of this medicine has undergone long and close observation, and it is believed it will never fail if properly and judiciously administered, unless other diseases predominate of a different character. Pale, sickly females will derive the greatest benefit from using a few bottles of ESTEY'S IRON AND QUININE TONIC. It is stimulating, appetizing and strengthening, and the power in it depends upon the Iron and Quinine which it contains, and not upon alcohol or opium, or any narcotic whatever.

Price 50 cents. Sold by all druggists.

Prepared only by

E. M. ESTEY, Pharmacist, MONCTON, N. B.

A SMOOTH SKIN.

Philoderma is strongly recommended for Softening, Improving, Beautifying, and Preserving the Skin and giving it a blooming and charming appearance. It completely removes Tan, Sunburn, Redness, etc., and by its Balsamic and Healing qualities renders the Skin Soft, Pliable and free from dryness. Prepared only by E M. Estey, Pharmacist, Moncton, N. B. Sold by Druggists.

COSSITT'S BUCKEYE MOWER

AND

IMPROVED

Ithaca Horse Rake

Have been too long before the people of this country to need any introduction. Seven thousand have been sold in this Province during the past ten years, and in almost every instance have given the most unqualified satisfaction. Some of the most important considerations in buying a MOWER or RAKE are: lightness of draft, ease of management, simplicity of construction, durability, and a certainty of getting repairs if needed. I can safely defy any one in the trade to produce another Mower or Rake which combine all these qualities in so great a degree as Cossitt's. In order to meet a growing demand for a light Machine, with the least possible gearing, Cossitts have sent us this season a car-load of light Mowers with cutter 4 feet long. They are one hundred pounds lighter than their Buckeye, with 4 ft. 3 in bar. With these two varieties of the Buckeye Mower, and the unequalled Cossitt Rake, all of which are fully warranted, I feel confident I can secure a large share of public patronage.

The above mentioned Goods, together with a full line of Farm Machinery, Carriages, and a full stock of Repairs for everything, including Pratt's Combined Gate Hinge and Roller, the cheapest and best Farm Gate ever invented, for sale at manufacturers prices and on favorable terms, at my Warehouse, Main street, Woodstock, next above the F. C. Baptist Church, or by any of the following Agents:—

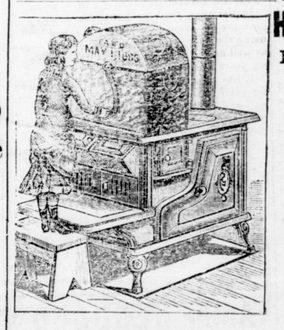
Buy the Best? The Best is the Cheapest? Our MACHINES are acknowledged to excel all others manufactured in the Maritime Provinces for FAST THRESHING and Thorough Cleaning, Durability, (costing less than half to keep in repair than most others) being Lighter to handle and Easier on Team. Power will do same work with less Elevation than any other made. Farmers who wish to save Time, Grain, Repairs, Horses and Money will do so by sending their Orders to

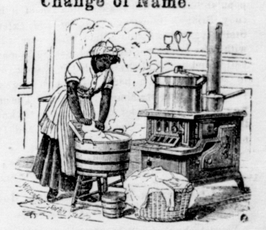
SMALL & FISHER, Woodstock, N. B.

Woodstock, July 16, 1885.—29.



HERE WE ARE AGAIN,

But in a little different Form this time, but the Same ARTICLE after all, only a Change of Name.



THE NEW WAY. THE OLD WAY.

Owing to the increasing demand for a WASHING MACHINE that will do the work just as represented, and to place it before the Canadian people so as to be within the reach of the poor and those in moderate circumstances, as well as the rich, we, the Patentees and Owners of the Missouri Steam Washer, have begun manufacturing this SAME PATTERN OF MACHINE in Toronto, Canada, and call it the

Eagle Steam Washer!

The EAGLE is made from Better Material than the Missouri, the Tin being XXX. The TANK is also made One Inch Less than the Missouri, thereby taking Less Water and less Fire to Boil the water, thus making a saving of both Time and Fuel. Since we got our Patent in the States three years ago there has been over One Hundred Thousand sold there. Last year we got our Patent for Canada and we are now ready to supply anyone with our EAGLE STEAM WASHERS who is tired of the old way of Washing Clothes, which, as every intelligent person knows, is not only laborious but the Clothes are worn more by rubbing on the Board than by actual wearing.

We have appointed GEO. F. MOTT of Woodstock N. B., SOLE AGENT FOR NEW BRUNSWICK from whom the Machine can be obtained at the Same Price and Terms as from us

FERRIS & CO., Toronto, Canada.

Address all Orders for New Brunswick to
