A-MARVELOUS STORY

TOLD IN TWO LETTERS. POM THE SON: "28 Cedar St., New York, Oct. 28, 1882. Centlemen: My father resides at Glover, He has been a great sufferer from Scrof-, and the inclosed letter will tell you what arvelous effect

Ayer's Sarsaparilla

ad in his case. I think his blood must ; but it did not show, except in the form a scrosulous sore on the wrist, until about years ago. From a few spots which apred at that time, it gradually spread so as ever his entire body. I assure you he was oly afflicted, and an object of pity, when egan using your medicine. Now, there are men of his age who enjoy as good health s he has. I could easily name fifty persons who would testify to the facts in his case.

Yourstruly, W. M. PHILLIPS." FROM THE FATHER: "It is both a pleasure and

ave derived from the use of

Ayer's Sarsaparilla.

Cir months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my SARSAPARILLA in April last, and have used t regularly since that time. My condition to improve at once. The sores have caled, and I feel perfectly well in every t-being new able to do a good day's although 73 years of age. Many inquire has wrought such a cure in my case, and them, as I have here tried to tell you, 's SARSAPARILLA. Glover, Vt., Oct. Yours gratefully, HIRAM PHILLIPS."

From the " Manual for Scientific Buttermaking," we make the following extracts, which will, doubtless, prove interesting to the butter makers of this County.

Under the heading "The Scientific method

r process " we find as follows: PREPARING THE CHURN. The churn must be well rinsed with water tefore putting in the cream. If it be desired to raise the temperature of the cream,

necessary to cool the cream rinse the churn with cold water. Only a slight change of a few degrees may be made in this way. When necessary to change the temperature of the cream it may be partially if not wholly done by the addition here made to the cream. Follow the rule already given. If cream is too cold add warmer milk or water; do not over fill the churn. The capacity of most churns is about half full. Churns

PUTTING THE CREAM IN THE CHURN. To churn without injury to the grain o he butter, and to provide for proper washing of the butter in the churn, the cream recharged from the manufactories in New York | quires to be not too thick. While it is almost certain to be too thick, there is no risk of it being too thin. It is a safe rule always to add to the cream what will thin it. Skim-milk may be added. It is at this stage that the temperature must be attended

such a preparation is as "good or better"-than S'art the churn slowly at the beginning increasing gradually until the ordinary less Corn Extractor, just for a moment consider motion has been attained Let the ordinary if your benefit prompts the advice, or if the small motion be moderate rather than fast, and let additional profit secured by the sale of inferior it be regular and uniform. When the butter suggestion. We say, then, buy only Putnam's has come the speed may be reduced to about "You can easily sew a carpet out of one Painless Corn Extractor; the safe, sure and half. The churning may now be advanced tested remedy for corns will be found in Put. till the butter has reached a granulated or of those old pieces from the Bedford room: tested remedy for corns will be found in Putif every condition is favourable, will be from tain to the window and lie in a stump Mr. Vail, the "cattle king" of Nevade, 58° to 60°.
