The exhibition was the best ever held by the society; the entries numbered 550, or 200 more than at any previous show. The show of cattle, in thoroughbreds grades and crosses was very fine, the family of Shorthorns, Ayrshire, and Jerseys, each being well represented. The horses shown were also good on the whole, remarkably so as regards yearlings and three year olds some handsome driving animals were also exhibited The sheep shown were few in number but the quality was superior; the exhibit comprised Cotswold, Leicester, and grades. The show of swine was limited but comprised fine specimeus of the Yorkshire and Cheshire.

Geese, Turkeys and Hens. The vegetable, grain and seed exhibited was superior and such as to prove that in these lines Carleton County is a match for the world. The samples of wheat shown were excellent; potatoes as fine as we have ever seen, and, indeed, all the vegetables shown were fine representatives of their class.

In Mattherson's Hall were arranged an assortment of domestic manufactures creditable in appearance and make to any place. Here were to be seen, among the articles of more practical use, blankets, cloth, for men and women's wear that looked good as " boughten goods" and that would doubtless wear much longer; hosiery, mitts, horse blankets, -- all excellent of their kind. Some very handsome worked mats, sofa cushions in crazy work, tidies, quilts, yarn, lace, Berlin work, were displayed, showing that the ladies of Brighton have admirable taste as well

Here, too, side by side, was to be seen loaves of light, white, bread and gilt edged butter, so tempting in appearance as almost to force one to unite the two and then partake. There was a small but fine show of apples, grafted and native.
