Tobique River Notes. ARTHURETTE, Sept. 30 SCHOOLS .- Last week the schools on Tobique River were visited by Inspector Landry. On Friday, 25th. inst., he was at the schools in Arthurette. He was sorry that there were so few schools in operation, there being only about eight schools open from the mouth of the

river to Riley Brook. ROADS -A new road was laid out last week from the end of the Sprague road, to connect with Tilley extension road, making the distance from Arthurette to Pokiok mills much shorter than the road at present in use. A road is also ing cut from the mouth of Gulquak to Tobque Lake. The distance from Gulquak to the Forks is over twenty-five miles, and from there to the lake is about sixty-five miles, while the distance from Gulquak to the lake is only about 24 miles. This will be appreciated by fishing parties, who, instead of poling a canoe up the river, can have it hauled overland to the lake, a distance, by the new road, of about fifty miles from Andover.

they are, I can assure you, A. No. 1. It has always been supposed by a large ma-jority of eastern men that this country would never rank as an agricultural country, but I can tell such that they are laboring under a great mistake. We have had no frosts such as have occurred in the eastern provinces or Manitoba. The only frost this year came on the 15th inst, but everything in the way of crops was so far advanced that it did little or no harm. Oats will yield at least 50 bushels per acre and roots are immense. I had a call yesterday from our old friend, Rev. Leonard Gates, from Red Deer district, 100 miles north of Calgary, who insay that "the half has never been told" of the natural productions of this vast country awaiting the husbandman. He had samples of oats, barley, potatoes, onions, beets, cerrots, and turnips, that would do credit to tha very best eastern farmer, fully ripe. He told me that his Early Rose potatoes would yield at the enormous rate of 750 bushels per acre, and we can rely on what our rev. friend eays. These samples are to go east and will be exhibited in all the principal shows this fall. If you should be in attendance at any of these Exhibitions look out for old friends' farm productions. He will soon rank

among the best farmers in this North-West. He is looking hale and hearty, and is enjoying his mind extremely well Our town is progressing, not with the boom that some of the Eastern Railway towns have experienced; but with a good healthy growth. We are looking for the Governor General and suite, to arrive by special train, on Monday, 28th. inst., and Calgary will be ready to give him a hearty

Bob Whites, or partridges as they are incorrectly called down here, are to be found in all the fields and stubble lands. faced darkey grins all over as he thinks of roasted 'possum. The lakes are beginning to be attractive to wild duck, and pretty soon we will be able to offer the sporteman a glor-

ious field of operation. As one passes along the forest-bordered roads of North Carelina and sees rank upon rank of magnifficent trees he wonders if such | vast stores of lumber can ever be exhausted. He goes on a little farther, hears the buzz of the saw, a fire flames up, a pungent smoke tingles in his nostrils and the answer is at hand. Millions of feet of lumber in these great piles of slabs, are annually wasted, puffed away in a cloud of black smoke. It is no poetry, but plain, prosy truth to say that the clouds and neat little henneries on every YELLOW, SUGARS PARIS LUMP, breeze. Why this waste? Why not saw those thick slabs into laths? The time will something is done to prevent this destruction, North Carolina will one day have occasion

ESCAPE OF PRISONERS - Dorchester, Oct. -Two prisoners escaped from sheriff Girouard and deputy, of Kent County, at Rockland station to-night. They were sentenced to two and seven years respectively in the Dorebester penitentiary. As the train neared Rockland station they requested permission to visit the water closet. They being shackled together the sheriff apprehended no danger of their escape, but as the train slackened they managed by some means to crawl to recommend. TOLD IN TWO LETTERS. "Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla has had in his case. I think his blood must have centained the bumor for at least ten years: but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons

who would testify to the facts in his case. Yourstruly, W. M. PHILLIPS." FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I

have derived from the use of Aver's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used t regularly since that time. My condition began to impreve at once. The sores have all healed, and I feel perfectly well in every rapect - being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct.

Yours gratefully, HIRAM PRILLIPS." ATER'S SARBAPARILLA cures Scrofula and all Scrolelous Complaints, Erysip. clas, Pezona, Ringworm, Blotches, fores, Boile, Tumors, and Eruptions of the Shin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

Messrs. Connell Bros., GENTLEMEN,—Having thoroughly tested the "IMPROVED LITTLE GIANT THRESHER," and Double Gear and Level Tread Horse Power and Wood Cutter bought from you last Spring, I can readily certify that I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, I thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs., and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for In fact anything you need in the Grocery Line. half a day at a time; the machine was not crowded any; the sieves were cleating themselves; threshing clean, and no grain going over. Every place where I used Country Produce BOUGHT your Wood Cutter it gave good satisfaction; it is so light and handy; can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's

work, he always had the same amount of drags out for a day's work before; I cut it in a little more than half a day. G. R. smith. 30
