one, in the early days of emigration to Calibonate, he learned then one of the officers of the vessel had enced himself, during the veyage of an obstinate disease by the use of

Ayer's Sarsaparilla.

New York on board a ship going around Cape

Since then Mr. LELAND has recommended AVER'S SARSAPARILLA in many similar cases, and he has never yet heard of its failure to effect a radical cure. Some years ago one of Mr. LELAND'S farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life

almost intolerable. The leg became enormously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AYER'S SARSAPA-RILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and completely restored the limb to use. Mr. LELAND has personally used

Ayer's Sarsaparilla for Rhoumatism, with entire success; and,

after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Cout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases. We have Mr. LELAND's permission to invite all who may desire further evidence in regard to the extraordinary curative powers of AYER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York. Mr. LELAND's extensive knowledge of the good done by this unequalled cradicator of blood poisons enables him to give inquirers much valuable information. PREPARED BY

East Florenceville Items. August 24, 1885. The Bazaar held by the ladies of the Baptist Church of this place was a success financially. The amount raised was nearly sufficient to clear their church of debt. The people are anxiously waiting for work to begin on the bridge, at this place. It is to be hoped that the government will take active

measures to have it rebuilt. Our school taught by J. W. Lawrence is in a flourishing condition. The presentation of prizes by the trustees for a number of terms have stimulated the interest of the children and the trustees has been repaid by a marked increase in the attendance Ws learn that the people in combination with the school purpose holding on September 5th a pienic on the grounds of Wm Boyer Erq. Miss Niles continues to teach this school with perfect satisfaction to children and parents. Rev. A. B. Calder preached in the Methodist church, Jacksonville on Lord's day evening, with great acceptance. The young men of the Methodist ministry promise to sustain the reputation of that body.

Tobique River Notes

Since my last budget of items was sent we have had some things going on in our midst, a little out of the ordinary course. In the first place, we have had unprecedented good hay weather, and the farmers are availing themselves of it, and making hay while the sun shines. Another unusual occurrence in this place is a reviva!. For the last four or five weeks we have had a revival going on here, conducted by Rev J. Prosser of Bath, Carleton Co., assisted by Mr. G. A. Giberson, of the same place; and Rev. C. Henderson, of Andover assisted by Mr. S. Irvin of Hillandale. Besides the Rev. gentlemen already mentioned, we have been visited by Rev'ds. D. Brooks, J Gold-FANCY PROFIT smith, and W. McLeod. Ten candidates have been baptized by these gentlemen during course of the revival.

I notice that there are several temperance meetings to be held in different parts of the county under the auspices of the Alliance. I wonder if the Alliance think Tobique River doos not need the help of the alliance in this matter? I can assure the Executive Committee of the Alliance that they will be welcomed warmly A few weeks ago a donation in behalf of Rev. J. Prosser, was held at the Methodist meeting

house. The amount realized was about \$13. On Sunday, 16th inst., Coadjutor Kingdon was at Birch Ridge, and confirmed a class of four. It is said that the Episcopalian brethren are going to build a church at the Ridge, and that the land on which to build it has already been purchased by Rev. L. A. Hoyt of Andover Mr. Fred. BUCKEYE MOWER

IMPROVED Ithaca Horse Rake Have been too long before the people of this country to need any introduction. Seven thousand have been sold in this Province during

the past ten years, and in almost every instance have given the most durability, and a certainty of getting repairs if needed. I can safely defy any one in the trade to produce another Mower or Rake which combine all these qualities in so great a degree as Cossitt's. In order to meet a growing, demand for a light Machine, with the least possible gearing, Cossitts have sent us this season a car-load of light Mowers with cutter 4 feet long. They are one hundred pounds lighter than their Buckeye, with 4 ft. 3 in. bar. With these two varieties of the Buckeye Mower, and the unequalled Cossitt Rake, all of which are fully warranted, I feel confident I can secure a large share

of public patronage. The above mentioned Goods, to gether with a full line of Farm Ma chinery, Carriages, and a full stock of Repairs for everything, including Pratt's Combined Gate Hinge and

Messrs. Connell Bros.,

GENTLEMEN,-Having thoroughly tested the "IMPROVED LITTLE GIANT THRESHER," and Double Gear and Level Tread Horse Power and Wood Cutter bought from you last Spring, I can readily certify that I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, I thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs, and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for half a day at a time; the machine was not crowded any; the sieves were clearing themselves; threshing clean, and no grain going over. Every place where I used your Wood Cutter it gave good satisfaction; it is so light and handy: can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's work, he always had the same amount of drags cut for a day's work before; I cut it in a little more than half a day. Yours truly,
