of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to California, he learned that eve of the officers of the ressel had cured himself, during the voyag : of an obstinate disease by the use of

Ayer's Sarsaparilla. since then Mr. LELAND has recommended AVER'S SARSAPARILLA in many similar cases, and he has never yet heard of its failure to effect a radical cure. Some years ago one of Mr. LELAND's farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enormously enlarged, and running ulcers formed,

discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AYER'S SARSAPA-RILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and completely restored the limb to use. Mr. LELAND has personally used

Ayer's Sarsaparilla for Rheumatism, with entire success; and,

after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases. We have Mr. LELAND's permission to invite

all who may desire further evidence in regard to the extraordinary curative powers of AYER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York. Mr. LELAND's extensive knowledge of the good done by this unequalled eradicator of blood poisons enables him to give inquirers much valuable information. PREPARED BY

HARPER'S BAZAR is the only paper in the world that combines the choicest literature and world that combines the choicest literature and the finest art illustrations with the latest fashions silence reigns in the moon in sovereignty, the finest art illustrations with the latest fashions and methods of household adornment. Its weekly illustrations and descriptions of the newest Paris and New York Styles, with its usual patternsheet supplements and cut-patterns, by enabling ladies to be there own dressmakers, save many times the cost of subscription. Its papers on cooking, the mansgement of servants, and house-keeping in its various details are eminently practical. Much attention is given to the interesting topic of social etiquette, and its illustrations of art needle-work are acknowledged to be unequalled. Its literary merit is of the highest excellence, and the unique character of its hamorous pictures has won for it the name of the American pictures has won for it the name of the American and we see only white or black according as

OUR SOUTHERN BUDGET. (Special Correspondence)

ANTE-BELLUM DAYS. Southern Pines, N. C. Nov , 21, 1885. The fellow who first came to an understanding and formulated his knowledge in the truism that "one half of the world doesn't know how the other half lives' should have a monument. And I often think that if the people who inhabit the globe really understood what struggles, and trials, and hardships are constantly besetting the "other fellow," our neighbor, there man makes countless thousands mourn."

would have been no reason for the writing of that other truism, " Man's inhumanity to But that isn't at all what I intended to say. I wanted to tell you something that to many will be a new idea, and that is how salt was obtained in some parts of the South during the troublous days of the war. I got my information from a typical Southern gentleman of veracity. He said that it is a scientific fact that salt rises to the surface of earth that is covered, and that when salt was earth that is covered, and that when salt was wanted the earth from beneath buildings was boiled and salt thus obtained. Now, that was a clear case of "salt of the earth, wasn't it?"

Two hogs, the property of the planter, no doubt, wandered over the fields in a "monarch of all I survey" style that was quite refreshing to see. Selecting a fair sized Irish rotato my companion cast it towards the nearest hog, which nosed it about, its eyes twinkling in a knowing sort of way. " TWO LOCKS AND A HOOT."

"I stopped in a little town in Virginia for a few days," remarked a new-c mer from the North to me recently, " and while there I inquired the way to the post office. Messrs. Connell Bros., GENTLEMEN,—Having thoroughly tested the "IMPROVED LITTLE GIANT THRESHER," and Double Gear and Level Tread Horse Power and Wood Cutter bought from you last Spring, I can readily certify that I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs., and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for half a day at a time; the machine was not crowded any; the sieves were clearing themselves; threshing clean, and no grain going over. Every place where I used your Wood Cutter it gave good satisfaction; it is so light and handy: can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's work, he always had the same amount of drags cut for a day's work before; I cut Yours truly, Lakeville, Aug. 13th, 1885.
