The last administration left to its successor a heavy load to carry, and the efforts of President Disz to readjust this burden seems to have provoked decided displays of ill-feelling on the part of the friends of the former President. Under a less courageous and determined man than Gen. Disz. the Mexican Republic would, probably, before this have been the scene of a wide spread civil war. As it is, by wise and diplomatic action, the strength of the revolutionary party has been undermined, and, although sporadic displays of discontent be made manifest, these are not of a serious nature, and can be readily controlled by the forces which the government has at its disconfidence in his administration out of disposal. - Boston Herald.

ANALYZING THE BAKING POWDERS.—Under the direction of the New York State Board of Health, eighty-four different kinds of Baking Powders, embracing all the brands that could be found for sale in the state, were submitted to examination and analysis by Prof. C. F. Chandler, a member of the State Board and President of the New York City Board of Health, assisted by Prof Edward G. Love, the well known late United States Government chemist.

The official report shows that a large number of the powders examined were found to contain alum or lime, many of them to such an extent as to render them seriously objectionable for use in the preparation of human food. Alum was found in twenty nine samples.

This drug is employed in baking powders to cheapen their cost. The presence of lime is at-
