FOR THE CARLETON SENTINEL. MESSRS. EDITORS,-I saw in the SENTINEL of the 11th inst. a statement that Mr. Donoho had completed a round log panel machine. After stating the advantages of the machine, the article goes on to say that the idea of the extent of the damage done to the structures on the part of Russia. Tracey, of Likeville, was the sole inventor of ever known before to run in such ponderous has nothing in common with the quarrels she to them, "Stand up, men. Had I been bend-\$100.00 and go through the same trial of inwhich I was urged to procure a patent. A claim for a patent has been entered at the Patent office, Ottawa. It seems scarcely possible that any man would attempt to take permanent repairs to be placed upon it. away my right. I hereby forbid any man intruding upon my rights in said scroll sawing
