THE adjourned December term of County Court was opened on Tuesday morning last by Judge Stevens, he having sufficiently recovered from his late illness.

The Judge briefly instructed the Grand Jarors as to their duties on the case to be brought before them, and then brought to their notice, and through them to the voters of the County, that under the provisions of " The Franchise Act" the preliminary list would shortly be printed and distributed throughout the county, and as a great many names of persons entitled to vote under that Act would not appear on that list, he wished to impress upon them the necessity of all to examine that list, and if their names did not appear to make the necessary application to have their names placed upon the list, and thus save a great deal of grumbling and faultfinding; that if any names did not appear as voters upon the next year's list it would entirely be the fault of such.

This is an action brought to recover money alleged to be due plff. from dft. on a lot of timber consigned to McLellan & Holly, in 1878, by deft., piff. claiming the timber as his and setting up an agreement that deft. in censideration of plff. allowing him to run it to St. John, in his own name, would account to him for the proceeds, after deducting running expenses and some private claims, held against Jas. & David Fennimore. The deft. claims that the timber did not sell for enough to pay these claims and the expenses, and therefore he has no money of the plffs.

G. F. Gregory & A. B. Connell for deft. WE WISH seriously and earnestly to call the attention of our readers to a letter over the signature of Ira Cornwall that appears in this issue, and the attention especially, of those most directly concerned in the matter there alluded to. The character of this county, of this province, of Canada is to a very important degree involved. It is very the 31sc inst. true that, whatever notice the people of this locality may take, at the exhibition spoken of, Canada, as a whole, will be creditably represented, but it should not be forgotten that there should be not only a national but a that satisfaction will be qualified should the result be one from the energy and enterprise if it lives its full term. of other provinces and other localities to
